**Testimonials / Feedback from Participants**

[Shorex](#) received some excellent participant feedback on our Chairman's presentation, "**Cyprus Corporate Structures in International Tax Planning**" at the [Shorex](#) Wealth Management Forum in Zurich, Switzerland.

Here are a few testimonials from participants of this Forum:

1. The venue was very good.  
The presentations were of a high quality. **I liked the man from Cyprus.**  
The registration procedure was user-friendly.  
I spent 8 (eight) hours at the event.  
I walked around the exhibitions and looked at what was being offered.  
It was interesting to see the rep from Asia.  
I have made various contacts and hope to do some business with them in future.  
I would like to come to the Zurich event next year. Please keep me informed.  
Singapore is a bit far for me, but send me the info anyway.  
Regards,  
Walter Snyder
2. Q: What did you think of the quality of presentations? Any presentations stood out?  
**A: The ones I attended were all very interesting, but the Cyprus presentation by Aris Kotsomitis was for me the best one. It was engaging, entertaining and full of realistic information.**  
Peter Houppermans
3. Speaking about conference, I shall say it was a great choice of venue, well organized and some presentations got my attention.  
I can not speak about all spectrum of presentations as I do not deal with them all directly, but some presentations **as the one about Tax planning (Cyprus Structures in International Tax Planning ) was interesting and we might get in contact with these companies as some products and ideas seem to be good and useful.**  
I spend around 7 hours, and the time was passing pretty fast.
