import duty.

- (6) Drawback may be allowed either -
 - (a) in accordance with sub-article (9) of this article on the exportation or shipment as stores of the imported articles or of goods incorporating those articles; or
 - (b) in accordance with sub-article (10) of this article on the exportation or shipment as stores of goods produced or manufactured from the imported articles.
- (7) For the purposes of this article any process whereby the form or character of any goods is changed shall be treated as producing other goods from them.
- (8) Any order may provide for allowing drawback subject to restrictions not specifically provided for by this article.
- (9) Any order providing for drawback to be allowed in accordance with this sub-article shall be taken as providing that -
 - (a) the drawback shall be of an amount equal to the duty shown to have been paid in respect of the imported articles;
 - (b) the drawback shall not be allowed on an exportation or shipment as stores by a person other than the importer of the imported articles or some person who has taken delivery of those articles or of goods incorporating them directly from him;
 - (c) the drawback shall not be allowed if since the duty became chargeable on the imported articles those articles or any goods for the time being incorporating them have been used otherwise than by being incorporated in other goods or if the imported articles have ceased, otherwise than by undergoing some process not changing their form or character, to be in the same state as they were in at the time when the duty became chargeable on them.
- (10) Where drawback is to be allowed in accordance with this sub-article -
 - (a) the rate of drawback shall not be such as appears calculated on the average to result in the duty drawn back amounting to more than the duty paid;
 - (b) subject to paragraph (a) of this sub-article, the drawback may be allowed at such rate or rates as appear appropriate and convenient, but so that any rate of drawback shall be fixed by reference either to the quantity of the imported articles (or any goods produced or manufactured from those articles) actually contained in the goods exported or shipped as stores or to that of the goods exported or shipped as stores;
 - (c) where the drawback is to be allowed in the case of any goods exported or shipped as stores at more than one rate according to the duty charged on the imported

articles or according to the value by reference to which duty was paid on those articles, provision may be made for determining any question as to the quantity to which any rate is to apply.

(11) Any order for drawback to be allowed in accordance with sub-article (10) of this article shall be taken, except in so far as it provides to the contrary, as providing that any rate of drawback shall, in relation to imported articles charged with duty at a preferential rate, be reduced so as to bear to the full rate of drawback the proportion which the duty charged bore to the full duty.

(12) Any order providing for drawback to be allowed in accordance with sub-article (10) of this article shall be taken as providing that the drawback shall not be allowed if since the duty became chargeable on the imported articles those articles or any goods produced or manufactured from them have been used otherwise than for the production or manufacture of other goods from them.

Regulations in respect of drawback on other goods.

22. The Minister may by regulation made under this article prescribe -

- (a) on what goods, other than goods in respect of which an order has been made under article 21, a drawback in respect of import duties chargeable under this Act shall be allowed;
- (b) the conditions under which drawback on goods so prescribed shall be allowed; and
- (c) the amount or the method of calculation of such drawback.

Drawback may be allowed only under articles 21 and 22.

23. Save as may be permitted by an order made under article 21 or by regulation made under article 22, no import duties paid by virtue of this Act on any goods released for use or consumption shall be refunded on the exportation thereof.

**GENERAL RULES FOR THE INTERPRETATION
OF THE HARMONIZED SYSTEM**

Classification of goods in the Nomenclature shall be governed by the following principles:

1. The titles of Sections, Chapters and sub-chapters are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the headings and any relative Section or Chapter Notes and, provided such headings or notes do not otherwise require, according to the following provisions:
2. (a) Any reference in a heading to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as presented, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also be taken to include a reference to that article complete or finished (or falling to be classified as complete or finished by virtue of this Rule), presented unassembled or disassembled.
- (b) Any reference in a heading to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to goods of a given material or substance shall be taken to include a reference to goods consisting wholly or partly of such material or substance.

The classification of goods consisting of more than one material or substance shall be according to the principles of Rule 3.

3. When by application of Rule 2(b) or for any other reason, goods are, *prima facie*, classifiable under two or more headings, classification shall be effected as follows:
 - (a) The heading which provides the most specific description shall be preferred to headings providing a more general description. However, when two or more headings each refer to part only of the materials or substances contained in mixed or composite goods or to part only of the items in a set put up for retail sale, those headings are to be regarded as equally specific in relation to those goods, even if one of them gives a more complete or precise description of the goods.
 - (b) Mixtures, composite goods consisting of different materials or made up of different components, and goods put up in sets for retail sale, which cannot be classified by reference to 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable.
 - (c) When goods cannot be classified by reference to 3(a) or 3(b), they shall be classified under the heading which occurs last in numerical order among those which equally merit consideration.
4. Goods which cannot be classified in accordance with the above Rules shall be classified under the heading appropriate to the goods to which they are most akin.
5. In addition to the foregoing provisions, the following Rules shall apply in respect of the goods referred to therein:
 - (a) Camera cases, musical instrument cases, gun cases, drawing instrument cases, necklace cases and similar containers, specially shaped or fitted to contain a specific article or set of articles, suitable for long-term use and presented with the articles for which they are intended, shall be classified with such articles when of a kind normally sold therewith. This Rule does not, however, apply to containers which give the whole its essential character;
 - (b) Subject to the provisions of Rule 5 (a) above, packing materials and packing containers presented with the goods therein shall be classified with the goods if they are of a kind normally used for packing such goods. However, this provision is not binding when such packing materials or packing containers are clearly suitable for repetitive use.
6. For legal purposes, the classification of goods in the subheadings of a heading shall be determined according to the terms of those subheadings and any related Subheading Notes and, *mutatis mutandis*, to the above Rules, on the understanding that only subheadings at the same level are comparable. For the purposes of this Rule the relative Section and Chapter Notes also apply, unless the context otherwise requires.

Where carcasses are imported without the heads, the latter must have been separated from the carcasses at the atlanto-occipital joint. When imported without the feet, the latter must have been cut off at the carpo-metacarpal or tarso-metatarsal joints; "carcass" shall include the front part of the carcass comprising all the bones and the scrag, neck and shoulder having more than 10 pairs of ribs.

- c) "Compensated quarters", for the purposes of subheadings 0201.20.20.00 and 0202.20.10.00: portions composed of either:
 - forequarters comprising all the bones and the scrag, neck and shoulder, and cut at the tenth rib; and hindquarters comprising all the bones and the thigh and sirloin, and cut at the third rib, or
 - forequarters comprising all the bones and the scrag, neck and shoulder, and cut at the fifth rib, with the whole of the flank and breast attached; and hindquarters comprising all the bones and the thigh and sirloin, and cut at the eighth rib.

The forequarters and the hindquarters constituting "compensated quarters" must be imported at the same time and in equal numbers, and the total weight of the forequarters must be the same as that of the hindquarters; however, a difference between the weights of the two parts of the consignment is allowed provided that this does not exceed 5% of the weight of the heavier part (forequarters or hindquarters).

- d) "Unseparated forequarters", for the purposes of subheadings 0201.20.30.00 and 0202.20.30.00: the front part of a carcass comprising all the bones and the scrag, neck and shoulder, with a minimum of four pairs of ribs and a maximum of 10 pairs of ribs (the first four pairs of ribs must be whole, the others may be cut) with or without the thin flank.
- e) "Separated forequarters", for the purposes of subheadings 0201.20.30.00 and 0202.20.30.00: the front part of a half-carcass comprising all the bones and the scrag, neck and shoulder, with a minimum of four ribs and a maximum of 10 ribs (the first four ribs must be whole, the others may be cut) with or without the thin flank.

CHAPTER 4**DAIRY PRODUCE; BIRD'S EGGS; NATURAL HONEY;
EDIBLE PRODUCTS OF ANIMAL ORIGIN, NOT ELSEWHERE SPECIFIED OR
INCLUDED.****NOTES**

1. The expression "milk" means full cream milk or partially or completely skimmed milk.
2. For the purposes of heading No.04.05:
 - (a) The term "butter" means natural butter, whey butter or recombined butter (fresh, salted or rancid, including canned butter) derived exclusively from milk, with a milkfat content of 80% or more but not more than 95% by weight, a maximum milk solids-not-fat content of 2% by weight and a maximum water content of 16% by weight. Butter does not contain added emulsifiers, but may contain sodium chloride, food colours, neutralising salts and cultures of harmless lactic-acid-producing bacteria.
 - (b) The expression "dairy spreads" means a spreadable emulsion of the water-in-oil type, containing milkfat, as the only fat in the product, with a milkfat content of 39% or more but less than 80% by weight.
3. Products obtained by the concentration of whey and with the addition of milk or milkfats are to be classified as cheese in heading No.04.06 provided that they have the three following characteristics:
 - (a) a milkfat content, by weight of the dry matter, of 5% or more;
 - (b) a dry matter content, by weight, of at least 70% but not exceeding 85%; and
 - (c) they are moulded or capable of being moulded.
4. This Chapter does not cover:
 - (a) Products obtained from whey, containing by weight more than 95% lactose, expressed as anhydrous lactose, calculated on the dry matter (heading No. 17.02); or
 - (b) Albumins (including concentrates of two or more whey proteins, containing by weight more than 80% whey proteins, calculated on the dry matter) (heading No. 35.02) or globulins (heading No. 35.04).

SUBHEADING NOTES

1. For the purposes of subheading No.0404.10, the expression "modified whey" means products consisting of whey constituents, i.e. whey from which all or part of the lactose, proteins or minerals have been removed, whey to which natural whey constituents have been added, and products obtained by mixing natural whey constituents.
2. For the purposes of subheading No. 0405.10 the term "butter" does not include dehydrated butter or ghee (subheading No.0405.90).

2. (A) Products from the milling of the cereals listed in the table below fall within this Chapter if they have, by weight on the dry product:
 - (a) a starch content (determined by the modified Ewers polarimetric method) exceeding that indicated in Column (2); and
 - (b) an ash content (after deduction of any added minerals) not exceeding that indicated in Column (3). Otherwise, they fall in heading No. 23.02. However, germ of cereals, whole, rolled, flaked or ground, is always classified in heading No. 11.04.
 (B) Products falling within this Chapter under the above provisions shall be classified in heading No. 11.01 or 11.02 if the percentage passing through a woven metal wire cloth sieve with the aperture indicated in Column (4) or (5) is not less, by weight, than that shown against the cereal concerned. Otherwise, they fall in heading No. 11.03. or 11.04.

Cereal	Starch Content	Ash Content	Rate of Passage through a sieve with an aperture of	
			315 micrometers (microns)	500 micrometers (microns)
(1)	(2)	(3)	(4)	(5)
Wheat & rye	45%	2.5%	80%	-

3. For the purposes of heading No. 11.03, the terms "groats" and "meal" mean products obtained by the fragmentation of cereal grains, of which:

- (a) in the case of maize (corn) products, at least 95% by weight passes through a woven metal wire cloth sieve with an aperture of 2 mm;
 (b) in the case of other cereal products, at least 95% by weight passes through a woven metal wire cloth sieve with an aperture of 1.25 mm.

ADDITIONAL NOTE

1. For the purposes of heading 11.06, the terms "flour", "meal", and "powder" mean products obtained by milling or some other fragmentation process from dried leguminous vegetables of heading 07.13, from sago or roots or tubers of heading 07.14 or from products of Chapter 8, of which:

- (a) in the case of dried leguminous vegetables, sago, roots, tubers and products of Chapter 8 (excluding nuts of heading Nos 08.01 and 08.02), at least 95% by weight passes through a woven metal wire cloth sieve with an aperture of 2 mm;

- (b) in the case of nuts of heading Nos 08.01 and 08.02, at least 50% by weight passes through a woven metal wire cloth sieve with an aperture of 2.5 mm.

ADDITIONAL NOTES

1. For the purposes of subheadings 1507.10, 1508.10, 1510.00.10.00, 1511.10, 1512.11, 1512.21, 1513.11, 1513.21, 1514.10, 1515.11.00.00, 1515.21, 1515.50.11.00, 1515.50.19.00, 1515.60.10.00, 1515.90.21.00, 1515.90.29.00, 1515.90.40.00 to 1515.90.59.00 and 1518.00.31.00:
 - a) Fixed vegetable oils, fluid or solid, obtained by pressure, shall be considered as "crude" if they have undergone no other processing than:
 - decantation within the normal time limits;
 - centrifugation or filtration, provided that, in order to separate the oils from their solid constituents, only mechanical force, such as gravity, pressure or centrifugal force, has been employed (excluding any adsorption filtering process or any other physical or chemical process).
 - b) Fixed vegetable oils, fluid or solid, obtained by extraction shall continue to be considered as "crude" when they cannot be distinguished, by their colour, odour or taste, nor by recognised special analytical properties, from vegetable oils and fats obtained by pressure.
 - c) The expression "crude oils" shall be taken to extend to de-gummed soya bean oil and to cotton seed oil from which the gossypol has been removed.
2. A. Headings Nos. 15.09 and 15.10 cover only oils derived solely from the treatment of olives, the analytical characteristics of the acid and sterol composition of which are as follows:

Table I
Fatty acid composition as percentage of total fatty acids

Fatty acids	Percentages
Myristic acid	M 0.1

Headings Nos. 15.09 and 15.10 do not cover chemically altered olive oil (in particular, re-esterified olive oil) and mixtures of olive oil with other oils.

- B. Subheading 1509.10 covers only olive oils obtained solely using mechanical or other physical means under conditions, and particularly thermal conditions, that do not lead to deterioration of the oil, and which have undergone no treatment other than washing, decantation, centrifugation or filtration. Oils derived from olives using solvents fall under heading No. 15.10.
- C. Subheading 1509.90.00.00 covers olive oil obtained by the treatment of olive oils falling within subheading 1509.10.10.00 or 1509.10.90.00, whether or not blended with virgin olive oil, having the following characteristics:
- an acid content, expressed as oleic acid, not exceeding 3.3 g per 100 g;
 - a wax content not exceeding 350 mg/kg;
 - a K_{270} extinction coefficient (100) not higher than 1.20;
 - an extinction coefficient variation (ΔK), in the 270 nm region, not higher than 0.16;
 - an erythrodiol and uvoal content not exceeding 4.5%;
 - a content in saturated fatty acids at the 2-position in the triglycerides not exceeding 1.5%;
 - the sum of transoleic isomers lower than 0.20% and the sum of translinoleic + translinolenic isomers lower than 0.30%.

- D. For the purposes of subheading 1510.00.10.00, "crude oils" means oils, particularly olive residue oils, with the following characteristics:
- a) an acid content, expressed as oleic acid, greater than 2 g per 100g;
 - b) an erythrodiol and uvaol content exceeding 12%;
 - c) a content in saturated fatty acids at the 2-position in the triglycerides not exceeding 1.8%;
 - d) the sum of transoleic isomers lower than 0.20% and the sum of translinoleic + translinolenic isomers lower than 0.10%.
- E. Subheading 1510.00.90.00 covers oils obtained by the treatment of oils falling within subheading 1510.00.10.00, whether or not blended with virgin olive oil, and oils not having the characteristics of the oils referred to in additional notes 2B, 2C and 2D. The oils falling within this subheading must have a content in saturated fatty acids at the 2-position in the triglycerides not exceeding 2%, the sum of transoleic isomers lower than 0.4% and the sum of translinoleic + translinolenic isomers lower than 0.35%.

SECTION IV
PREPARED FOODSTUFFS; BEVERAGES, SPIRITS AND VINEGAR;
TOBACCO AND MANUFACTURED TOBACCO SUBSTITUTES

NOTE

1. In this Section the term "pellets" means products which have been agglomerated either directly by compression or by the addition of a binder in a proportion not exceeding 3% by weight.

CHAPTER 16

PREPARATIONS OF MEAT, OF FISH, OR OF CRUSTACEANS,
MOLLUSCS OR OTHER AQUATIC INVERTEBRATES

NOTES

1. This Chapter does not cover meat, meat offal, fish, crustaceans, molluscs or other aquatic invertebrates, prepared or preserved by the processes specified in Chapter 2 or 3 or heading No. 05.04.
2. Food preparations fall in this Chapter provided that they contain more than 20% by weight of sausage, meat, meat offal, blood, fish or crustaceans, molluscs or other aquatic invertebrates, or any combination thereof. In cases where the preparation contains two or more of the products mentioned above, it is classified in the heading of Chapter 16 corresponding to the component or components which predominate by weight. These provisions do not apply to the stuffed products of heading No. 19.02 or to the preparations of heading No.21.03 or 21.04.

SUBHEADING NOTES

1. For the purposes of subheading No.1602.10, the expression "homogenised preparations" means preparations of meat, meat offal or blood, finely homogenised, put up for retail sale as infant food or for dietetic purposes, in containers of a net weight content not exceeding 250 g. For the application of this definition no account is to be taken of small quantities of any ingredients which may have been added to the preparation for seasoning, preservation or other purposes. These preparations may contain a small quantity of visible pieces of meat or meat offal. This subheading takes precedence over all other subheadings of heading No. 16.02.
2. The fish and crustaceans specified in the subheadings of heading No. 16.04 or 16.05 under their common names only, are of the same species as those mentioned in Chapter 3 under the same name.

ADDITIONAL NOTES

1. For the purposes of subheadings 1602.31.11.00, 1602.32.11.00, 1602.39.21.00, 1602.50.10.00, 1602.90.61, 1602.90.72 and 1602.90.74 the term "uncooked" shall apply to products which have not been subjected to any heat treatment or which have been subjected to a heat treatment insufficient to ensure the coagulation of meat proteins in the whole of the product and which therefore, in the case of subheadings 1602.50.10.00, 1602.90.61, 1602.90.72 and 1602.90.74 show traces of a pinkish liquid on the cut surface when the product is cut along a line passing through its thickest part.
2. For the purposes of subheadings 1602.41.10.00, 1602.42.10.00 and 1602.49.11.00 to 1602.49.15.00 the expression "parts thereof" applies only to prepared or preserved meat which, due to the size and the characteristics of the coherent muscle tissue, is identifiable as having been obtained from hams, shoulders, loins, or collars of domestic swine, as the case may be.

 - (c) Medicaments and other products of Chapter 30.

SUBHEADING NOTE

1. For the purpose of subheadings Nos. 1701.11 and 1701.12, "raw sugar" means sugar whose content of sucrose by weight, in the dry state, corresponds to a polarimetric reading of less than 99.5%.

ADDITIONAL NOTES

1. For the purposes of subheadings 1701.11.10.00, 1701.11.90.00, 1701.12.10.00 and 1701.12.90.00, "raw sugar" means sugar, not flavoured or coloured or containing any other added substances, containing, in the dry state, less than 99.5% by weight of sucrose determined by the polarimetric method.
2. For the purposes of subheading 1701.99.10, "white sugar" means sugar, not flavoured or coloured or containing any other added substances, containing, in the dry state, 99.5% or more by weight of sucrose, determined by the polarimetric method.
3. For the purposes of subheadings 1702.30.10, 1702.40.10, 1702.60.10 and 1702.90.30, "isoglucose" means the product obtained from glucose or its polymers with a content by weight in the dry state of at least 10% fructose.
4. For the purposes of subheading 1702.90.80 'inulin syrup' means the immediate product, other than that falling within subheading 1702.60.90, obtained by hydrolysis of inulin or oligofructoses, containing in the dry state at least 10% fructose in free form or as sucrose.

DILUTED COLOUR C/VISCOSITY V CONCORDANCE TABLE

Colour	C	0	0.5	1	1.5	2	2.5	3	3.5	4	4.5	5	5.5	6	6.5	7	7.5 and above
Viscosity	I	4	4	4	5.4	9	15.1	25.3	42.4	71.1	119	200	335	562	943	1580	2650
V	II	7	7	7	7	9	15.1	25.3	42.4	71.1	119	200	335	562	943	1580	2650

The term "viscosity V" means the kinematic viscosity at 50°C expressed in $10^{-6} \text{ m}^2 \text{ s}^{-1}$ by the ASTM D 445 method.

The term "diluted colour C" means the colour of a product, as determined by the ASTM D 1500 method, after one part of such product has been mixed with 99 parts by volume of carbon tetrachloride. The colour must be determined immediately after dilution.

Subheadings 2710. 00.71.00 to 2710.00.78.00 cover only fuel oils of natural colour.

These subheadings do not cover heavy oils defined in paragraph e) above for which it is not possible to determine:

- the distillation percentage at 250° C by the ASTM D 86 method (zero shall be deemed to be a percentage),
- the kinematic viscosity at 50°C by the ASTM D 445 method,
- or the diluted colour C by the ASTM D 1500 method.

Such products fall within subheadings 2710.00.81 to 27.10 00 97.

2. For the purposes of heading No. 27.12, the expression "crude petroleum jelly" (subheading 2712.10.10.00) shall be taken to apply to petroleum jelly of a natural colour higher than 4.5 by the ASTM D 1500 method.

The further treatment with hydrogen of lubricating oils of subheadings 2710.00.81 to 2710.00.97 (e.g. hydrofinishing or decolorization) in order, more especially, to improve colour or stability, shall not, however, be deemed to be a specific process;
 - n) (in respect of products of subheadings 2710.00.71.00 to 2710.00.78.00 only) atmospheric distillation, on condition that less than 30% of these products distils, by volume, including losses, at 300° C by the ASTM D 86 method. If 30% or more by volume, including losses, of such products distils at 300°C by the ASTM D 86 method, the quantities of products, which may be obtained during the atmospheric distillation and which fall within subheadings 2710.00.11.00 to 2710.00.39.00 or 2710.00.41.00 to 2710.00.59.00 shall be dutiable at the same rates as those provided for under subheadings 2710.00.74.00 to 2710.00.78.00 according to the kind and value of the products used and on the net weight of the products obtained. SECTION VI
PRODUCTS OF THE CHEMICAL OR ALLIED INDUSTRIES

NOTES

1. (a) Goods (other than radioactive ores) answering to a description in heading No. 28.44 or 28.45 are to be classified in those headings and in no other heading of this Schedule.
(b) Subject to paragraph (a) above, goods answering to a description in heading No. 28.43 or 28.46 are to be classified in those headings and in no other heading of this Section.
2. Subject to Note 1 above, goods classifiable in heading No. 30.04, 30.05, 30.06, 32.12, 33.03, 33.04, 33.05, 33.06, 33.07, 35.06, 37.07 or 38.08 by reason of being put up in measured doses or for retail sale are to be classified in those headings and in no other heading of this Schedule.
3. Goods put up in sets consisting of two or more separate constituents, some or all of which fall in this Section and are intended to be mixed together to obtain a product of Section VI or VII, are to be classified in the heading appropriate to that product, provided that the constituents are:
 - (a) having regard to the manner in which they are put up, clearly identifiable as being intended to be used together without first being repacked;
 - (b) presented together; and
 - (c) identifiable, whether by their nature or by the relative proportions in which they are present, as being complementary one to another.

CHAPTER 28

INORGANIC CHEMICALS; ORGANIC OR INORGANIC COMPOUNDS OF PRECIOUS METALS, OF RARE-EARTH METALS, OF RADIOACTIVE ELEMENTS OR OF ISOTOPES**NOTES**

1. Except where the context otherwise requires, the headings of this Chapter apply only to:
 - (a) Separate chemical elements and separate chemically defined compounds, whether or not containing impurities;
 - (b) The products mentioned in (a) above dissolved in water;
 - (c) The products mentioned in (a) above dissolved in other solvents provided that the solution constitutes a normal and necessary method of putting up these products adopted solely for reasons of safety or for transport and that the solvent does not render the product particularly suitable for specific use rather than for general use;
 - (d) The products mentioned in (a), (b) or (c) above with an added stabiliser (including an anti-caking agent) necessary for their preservation or transport;
 - (e) The products mentioned in (a), (b), (c) or (d) above with an added anti dusting agent or a colouring substance added to facilitate their identification or for safety reasons, provided that the additions do not render the product particularly suitable for specific use rather than for general use.
2. In addition to dithionites and sulphonylates, stabilised with organic substances (heading No. 28.31), carbonates and peroxocarbonates of inorganic bases (heading No. 28.36), cyanides, cyanide oxides and complex cyanides of inorganic bases (heading No. 28.37), fulminates, cyanates and thiocyanates, of inorganic bases (heading No. 28.38), organic products included in headings Nos. 28.43 to 28.46 and carbides (heading No. 28.49), only the following compounds of carbon are also to be classified in this Chapter:
 - (a) Oxides of carbon, hydrogen cyanide and fulminic, isocyanic, thiocyanic and other simple or complex cyanogen acids (heading No. 28.11);
 - (b) Halide oxides of carbon (heading No. 28.12);
 - (c) Carbon disulphide (heading No. 28.13);

The term "isotopes", for the purposes of this Note and of the wording of headings Nos. 28.44 and 28.45, refers to:

- individual nuclides, excluding, however, those existing in nature in the monoisotopic state;
- mixtures of isotopes of one and the same element, enriched in one or several of the said isotopes, that is, elements of which the natural isotopic composition has been artificially modified.

7. Heading No. 28.48 includes copper phosphide (phosphor copper) containing more than 15% by weight of phosphorus.

When cut in the form of discs, wafers or similar forms, they fall in heading No. 38.18.

ADDITIONAL NOTE

1. Unless provided otherwise, the salts specified in subheadings include acid salts and basic salts.

CHAPTER 29

ORGANIC CHEMICALS

NOTES

1. Except where the context otherwise requires, the headings of this Chapter apply only to:
 - (a) Separate chemically defined organic compounds, whether or not containing impurities;
 - (b) Mixtures of two or more isomers of the same organic compound (whether or not containing impurities), except mixtures of acyclic hydrocarbon isomers (other than stereoisomers), whether or not saturated (Chapter 27);
 - (c) The products of headings Nos. 29.36 to 29.39 or the sugar ethers and sugar esters, and their salts, of heading No. 29.40, or the products of heading No. 29.41, whether or not chemically defined;
 - (d) The products mentioned in (a), (b) or (c) above dissolved in water;
 - (e) The products mentioned in (a), (b) or (c) above dissolved in other solvents provided that the solution constitutes a normal and necessary method of putting up these products adopted solely for reasons of safety or for transport and that the solvent does not render the product particularly suitable for specific use rather than for general use;
 - (f) The products mentioned in (a), (b), (c), (d) or (e) above with an added stabiliser (including an anti-caking agent) necessary for their preservation or transport;
 - (g) The products mentioned in (a), (b), (c), (d), (e) or (f) above with an added anti dusting agent or a colouring or odoriferous substance added to facilitate their identification or for safety reasons, provided that the additions do not render the product particularly suitable for specific use rather than for general use;
 - (h) The following products, diluted to standard strengths, for the production of azo dyes: diazonium salts, couplers used for these salts and diazotisable amines and their salts.
2. This Chapter does not cover:
 - (a) Goods of heading No. 15.04 or crude glycerol of heading No. 15.20;
 - (b) Ethyl alcohol (heading No. 22.07 or 22.08);
 - (c) Methane or propane (heading No. 27.11);
 - (d) The compounds of carbon mentioned in Note 2 to Chapter 28;
 - (e) Urea (heading No. 31.02 or 31.05);
 - (f) Colouring matter of vegetable or animal origin (heading No. 32.03); synthetic organic colouring matter, synthetic organic products of a kind used as fluorescent brightening agents or as luminophores (heading No. 32.04) and dyes or other colouring matter put up in forms or packings for retail sale (heading No. 32.12);
 - (g) Enzymes (heading No. 35.07);
 - (h) Metaldehyde, hexamethylenetetramine or similar substances, put up in forms (for example, tablets, sticks or similar forms) for use as fuels, or liquid or liquified-gas fuels in containers of a kind used for filling or refilling cigarette or similar lighters and of a capacity not exceeding 300cm³ (heading No. 36.06);
 - (i) Products put up as charges for fire extinguishers or put up in fire extinguishing grenades, of heading No. 38.13; ink removers put up in packings for retail sale, of heading No. 38.24; or
 - (k) Optical elements, for example, of ethylenediamine tartrate (heading No. 90.01).
3. Goods which could be included in two or more of the headings of this Chapter are to be classified in that one of those headings which occurs last in numerical order.
4. In headings Nos. 29.04 to 29.06, 29.08 to 29.11 and 29.13 to 29.20, any reference to halogenated, sulphonated, nitrated or nitrosated derivatives, includes a reference to compound derivatives, such as sulphohalogenated, nitrohalogenated, nitrosulphonated or nitrosulphohalogenated derivatives.
Nitro and nitroso groups are not to be taken as "nitrogen functions" for the purpose of heading No. 29.29.

For the purposes of headings Nos. 29.11, 29.12, 29.14, 29.18 and 29.22, "oxygen function" is to

be restricted to the functions (the characteristic organic oxygen containing groups) referred to in headings Nos. 29.05 to 29.20.

5.
 - (a) The esters of acid function organic compounds of sub Chapters I to VII with organic compounds of these sub Chapters are to be classified with that compound which is classified in the heading which occurs last in numerical order in these sub Chapter.
 - (b) Esters of ethyl alcohol with acid function organic compounds of sub Chapters I to VII are to be classified in the same heading as the corresponding acid function compounds.
 - (c) Subject to Note 1 to Section VI and Note 2 to Chapter 28:
 - (1) Inorganic salts of organic compounds such as acid, phenol or enol-function compounds or organic bases, of sub-Chapter I to X or heading No.29.42, are to be classified in the heading appropriate to the organic compound; and
 - (2) Salts formed between organic compounds of sub Chapters I to X or heading No. 29.42 are to be classified in the heading appropriate to the base or to the acid (including phenol- or enol-function compounds) from which they are formed, whichever occurs last in numerical order in the Chapter.
 - (d) Metal alcoholates are to be classified in the same heading as the corresponding alcohols except in the case of ethanol (heading No. 29.05).
 - (e) Halides of carboxylic acids are to be classified in the same heading as the corresponding acids.
6. The compounds of headings Nos. 29.30 and 29.31 are organic compounds the molecules of which contain, in addition to atoms of hydrogen, oxygen or nitrogen, atoms of other non metals or of metals (such as sulphur, arsenic, mercury or lead) directly linked to carbon atoms.

Heading No. 29.30 (organo sulphur compounds) and heading No. 29.31 (other organo-inorganic compounds) do not include sulphonated or halogenated derivatives (including compound derivatives) which, apart from hydrogen, oxygen and nitrogen, only have directly linked to carbon the atoms of sulphur or of a halogen which give them their nature of sulphonated or halogenated derivatives (or compound derivatives).

7. Headings Nos. 29.32, 29.33 and 29.34 do not include epoxides with a three membered ring, ketone peroxides, cyclic polymers of aldehydes or of thioaldehydes, anhydrides of polybasic carboxylic acids, cyclic esters of polyhydric alcohols or phenols with polybasic acids or imides of polybasic acids.

These provisions apply only when the ring-position hetero-atoms are those resulting solely from the cyclising function or functions here listed.

SUBHEADING NOTE

1. Within any one heading of this Chapter, derivatives of a chemical compound (or group of chemical compounds) are to be classified in the same subheading as that compound (or group of compounds) provided that they are not more specifically covered by any other subheading and that there is no residual subheading named "Other" in the series of subheadings concerned.

ADDITIONAL NOTE

1. For the purposes of subheading 2937.22.00.00, the expression 'adrenal cortical hormones' means natural adrenal cortical hormones, or those reproduced by synthesis, and their derivatives, provided that the latter retain hormonal activity.

SECTION VII**PLASTICS AND ARTICLES THEREOF; RUBBER AND ARTICLES THEREOF****NOTES**

1. Goods put up in sets consisting of two or more separate constituents, some or all of which fall in this present Section and are intended to be mixed together to obtain a product of Section VI or VII, are to be classified in the heading appropriate to that product, provided that the constituents are:
 - (a) having regard to the manner in which they are put up, clearly identifiable as being intended to be used together without first being repacked;
 - (b) presented together; **and**
 - (c) identifiable, whether by their nature or by the relative proportions in which they are present, as being complementary one to another.
2. Except for the goods of heading No. 39.18 or 39.19, plastics, rubber, and articles thereof, printed with motifs, characters or pictorial representations, which are not merely incidental to the primary use of the goods, fall in Chapter 49.

CHAPTER 39

PLASTICS AND ARTICLES THEREOF

NOTES

1. Throughout this Schedule the expression "plastics" means those materials of headings Nos. 39.01 to 39.14 which are or have been capable, either at the moment of polymerisation or at some subsequent stage, of being formed under external influence (usually heat and pressure, if necessary with a solvent or plasticiser) by moulding, casting, extruding, rolling or other process into shapes which are retained on the removal of the external influence.

Throughout this Schedule any reference to "plastics" also includes vulcanised fibre. The expression, however, does not apply to materials regarded as textile materials of Section XI.

2. This Chapter does not cover:
- (a) Waxes of heading No. 27.12 or 34.04;
 - (b) Separate chemically defined organic compounds (Chapter 29);
 - (c) Heparin or its salts (heading No. 30.01);
 - (d) Solutions (other than collodions) consisting of any of the products specified in headings Nos. 39.01 to 39.13 in volatile organic solvents when the weight of the solvent exceeds 50% of the weight of the solution (heading No. 32.08); stamping foils of heading No. 32.12;
 - (e) Organic surface active agents or preparations of heading No. 34.02;
 - (f) Run gums or ester gums (heading No. 38.06);
 - (g) Diagnostic or laboratory reagents on a backing of plastics (heading No. 38.22);
 - (h) Synthetic rubber, as defined for the purposes of Chapter 40, or articles thereof;
 - (i) Saddlery or harness (heading No. 42.01) or trunks, suitcases, handbags or other containers of heading No. 42.02;
 - (k) Plaits, wickerwork or other articles of Chapter 46;
 - (l) Wall coverings of heading No. 48.14;
 - (m) Goods of Section XI (textiles and textile articles);
 - (n) Articles of Section XII (for example, footwear, headgear, umbrellas, sun umbrellas, walking sticks, whips, riding crops or parts thereof);
 - (o) Imitation jewellery of heading No. 71.71;
 - (p) Articles of Section XVI (machines and mechanical or electrical appliances);
 - (q) Parts of aircraft or vehicles of Section XVII;
 - (r) Articles of Chapter 90 (for example, optical elements, spectacle frames, drawing instruments);
 - (s) Articles of Chapter 91 (for example, clock or watch cases);
 - (t) Articles of Chapter 92 (for example, musical instruments or parts thereof);
 - (u) Articles of Chapter 94 (for example, furniture, lamps and lighting fittings, illuminated signs, prefabricated buildings);
 - (v) Articles of Chapter 95 (for example, toys, games, sports requisites); or
 - (w) Articles of Chapter 96 (for example, brushes, buttons, slide fasteners, combs, mouthpieces or stems for smoking pipes, cigarette holders or the like, parts of vacuum flasks or the like, pens, propelling pencils).
3. Headings Nos. 39.01 to 39.11 apply only to goods of a kind produced by chemical synthesis, falling in the following categories:
- (a) Liquid synthetic polyolefins of which less than 60% by volume distils at 300° C, after conversion to 1, 013 millibars when a reduced pressure distillation method is used (headings Nos. 39.01 and 39.02);
 - (b) Resins, not highly polymerised, of the coumarone indene type (heading No. 39.11);
 - (c) Other synthetic polymers with an average of at least 5 monomer units;
 - (d) Silicones (heading No. 39.10);
 - (e) Resols (heading No. 39.09) and other prepolymers.

4. The expression "copolymers" covers all polymers in which no single monomer unit contributes 95% or more by weight to the total polymer content.
For the purposes of this Chapter, except where the context otherwise requires, copolymers (including co-polycondensates, co-polyaddition products, block copolymers and graft copolymers) and polymer blends are to be classified in the heading covering polymers of that comonomer unit which predominates by weight over every other single comonomer unit. For the purpose of this Note, constituent comonomer units of polymers falling in the same heading shall be taken together.
If no single comonomer unit predominates, copolymers or polymer blends, as the case may be, are to be classified in the heading which occurs last in numerical order among those which equally merit consideration.
5. Chemically modified polymers, that is those in which only appendages to the main polymer chain have been changed by chemical reaction, are to be classified in the heading appropriate to the unmodified polymer. This provision does not apply to graft copolymers.
6. In headings Nos. 39.01 to 39.14, the expression "primary forms" applies only to the following forms:
 - (a) Liquids and pastes, including dispersions (emulsions and suspensions) and solutions;
 - (b) Blocks of irregular shape, lumps, powders (including moulding powders), granules, flakes and similar bulk forms.
7. Heading No. 39.15 does not apply to waste, parings and scrap of a single thermoplastic material, transformed into primary forms (headings Nos. 39.01 to 39.14).
8. For the purposes of heading No. 39.17, the expression "tubes, pipes and hoses" means hollow products, whether semi manufactured or finished products, of a kind generally used for conveying, conducting or distributing gases or liquids (for example, ribbed garden hose, perforated tubes). This expression also includes sausage casings and other lay flat tubing. However, except for the last mentioned, those having an internal cross section other than round, oval, rectangular (in which the length does not exceed 1.5 times the width) or in the shape of a regular polygon are not to be regarded as tubes, pipes and hoses but as profile shapes.
9. For the purpose of heading No. 39.18, the expression "wall or ceiling coverings of plastics" applies to products in rolls, of a width not less than 45 cm, suitable for wall or ceiling decoration, consisting of plastics fixed permanently on a backing of any material other than paper, the layer of plastics (on the face side) being grained, embossed, coloured, design printed or otherwise decorated.
10. In headings Nos. 39.20 and 39.21, the expression "plates, sheets, film, foil and strip" applies only to plates, sheets, film, foil and strip (other than those of Chapter 54) and to blocks of regular geometric shape, whether or not printed or otherwise surface worked, uncut or cut into rectangles (including squares) but not further worked (even if when so cut they become articles ready for use).
11. Heading No. 39.25 applies only to the following articles, not being products covered by any of the earlier headings of sub Chapter II:
 - (a) Reservoirs, tanks (including septic tanks), vats and similar containers, of a capacity exceeding 300 l;
 - (b) Structural elements used, for example, in floors, walls or partitions, ceilings or roofs;
 - (c) Gutters and fittings therefor;
 - (d) Doors, windows and their frames and thresholds for doors;
 - (e) Balconies, balustrades, fencing, gates and similar barriers;
 - (f) Shutters, blinds (including Venetian blinds) and similar articles and parts and fittings thereof;
 - (g) Large scale shelving for assembly and permanent installation, for example, in shops, workshops, warehouses;
 - (h) Ornamental architectural features, for example, flutings, cupolas, dovecotes; and
 - (i) Fittings and mountings intended for permanent installation in or on doors, windows, staircases, walls or other parts of buildings, for example, knobs, handles, hooks, brackets, towel rails,

switch plates and other protective plates.

SUBHEADING NOTE

1. Within any one heading of this Chapter, polymers (including copolymers) and chemically modified polymers are to be classified according to the following provisions:

(a) Where there is a subheading named "Other" in the same series:

(1) The designation in a subheading of a polymer by the prefix "poly" (e.g., polyethylene and polyamide-6, 6) means that the constituent monomer unit or monomer units of the named polymer taken together must contribute 95% or more by weight of the total polymer content.

(2) The copolymers named in subheadings Nos. 3901.30, 3903.20, 3903.30 and 3904.30 are to be classified in those subheadings, provided that the comonomer units of the named copolymers contribute 95% or more by weight of the total polymer content.

(3) Chemically modified polymers are to be classified in the subheading named "Other", provided that the chemically modified polymers are not more specifically covered by another subheading.

(4) Polymers not meeting (1), (2 or (3) above, are to be classified in the subheading, among the remaining subheadings in the series, covering polymers of that monomer unit which predominates by weight over every other single comonomer unit. For this purpose, constituent monomer units of polymers falling in the same subheading shall be taken together. Only the constituent comonomer units of the polymers in the series of subheadings under consideration are to be compared.

(b) Where there is no subheading named "Other" in the same series:

(1) Polymers are to be classified in the subheading covering polymers of that monomer unit which predominates by weight over every other single comonomer unit. For this purpose, constituent monomer units of polymers falling in the same subheading shall be taken together. Only the constituent comonomer units of the polymers in the series under consideration are to be compared.

(2) Chemically modified polymers are to be classified in the subheading appropriate to the unmodified polymer.

Polymer blends are to be classified in the same subheading as polymers of the same monomer units in the same proportions.

CHAPTER 40

RUBBER AND ARTICLES THEREOF

NOTES

1. Except where the context otherwise requires, throughout this Schedule the expression "rubber" means the following products, whether or not vulcanised or hard: natural rubber, balata, gutta-percha, guayule, chicle and similar natural gums, synthetic rubber, factice derived from oils, and such substances reclaimed.
2. This Chapter does not cover:
 - (a) Goods of Section XI (textiles and textile articles);
 - (b) Footwear or parts thereof of Chapter 64;
 - (c) Headgear or parts thereof (including bathing caps) of Chapter 65;
 - (d) Mechanical or electrical appliances or parts thereof of Section XVI (including electrical goods of all kinds), of hard rubber;
 - (e) Articles of Chapter 90, 92, 94 or 96; or
 - (f) Articles of Chapter 95 (other than sports gloves and articles of headings Nos. 40.11 to 40.13).
3. In headings Nos. 40.01 to 40.03 and 40.05, the expression "primary forms" applies only to the following forms:
 - (a) Liquids and pastes (including latex, whether or not pre vulcanised, and other dispersions and solutions);
 - (b) Blocks of irregular shape, lumps, bales, powders, granules, crumbs and similar bulk forms.
4. In Note 1 to this Chapter and in heading No. 40.02, the expression "synthetic rubber" applies to:
 - (a) Unsaturated synthetic substances which can be irreversibly transformed by vulcanisation with sulphur into non thermoplastic substances which, at a temperature between 18°C and 29°C, will not break on being extended to three times their original length and will return, after being extended to twice their original length, within a period of five minutes, to a length not greater than one and a half times their original length. For the purposes of this test, substances necessary for the cross-linking, such as vulcanising activators or accelerators, may be added; the presence of substances as provided for by Note 5 (b) (ii) and (iii) is also permitted. However, the presence of any substances not necessary for the cross-linking, such as extenders, plasticisers and fillers, is not permitted;
 - (b) Thioplasts (TM); and
 - (c) Natural rubber modified by grafting or mixing with plastics, depolymerised natural rubber, mixtures or unsaturated synthetic substances with saturated synthetic high polymers provided that all the above mentioned products comply with the requirements concerning vulcanisation, elongation and recovery in (a) above.
5. (a) Headings Nos 40.01 and 40.02 do not apply to any rubber or mixture of rubbers which has been compounded, before or after coagulation, with:
 - (i) vulcanising agents, accelerators, retarders or activators (other than those added for the preparation of pre vulcanised rubber latex);
 - (ii) pigments or other colouring matter, other than those added solely for the purpose of identification;
 - (iii) plasticisers or extenders (except mineral oil in the case of oil extended rubber), fillers, reinforcing agents, organic solvents or any other substances, except those permitted under (b);
- (b) The presence of the following substances in any rubber or mixture of rubbers shall not effect its classification in heading No. 40.01 or 40.02, as the case may be, provided that such rubber or mixture of rubbers retains its essential character as a raw material:
 - (i) emulsifiers or anti tack agents;

7. For the purposes of this Section, the expression "made up" means:
- (a) Cut otherwise than into squares or rectangles;
 - (b) Produced in the finished state, ready for use (or merely needing separation by cutting dividing threads) without sewing or other working (for example, certain dusters, towels, table cloths, scarf squares, blankets);

SUBHEADING NOTES

1. In this Section and, where applicable, throughout this Schedule, the following expressions have the meanings hereby assigned to them:

- (a) Elastomeric yarn:
Filament yarn, including monofilament, of synthetic textile material, other than textured yarn, which does not break on being extended to three times its original length and which returns, after being extended to twice its original length, within a period of five minutes, to a length not greater than one and a half times its original length.
- (b) Unbleached yarn:
Yarn which:
 - (i) Has the natural colour of its constituent fibres and has not been bleached, dyed (whether or not in the mass) or printed; or
 - (ii) is of indeterminate colour ("grey yarn"), manufactured from garnetted stock.
Such yarn may have been treated with a colourless dressing or fugitive dye (which disappears after simple washing with soap) and, in the case of man-made fibres, treated in the mass with delustring agents (for example, titanium dioxide).
- (c) Bleached yarn:
Yarn which:
 - (i) has undergone a bleaching process, is made of bleached fibres or, unless the context otherwise requires, has been dyed white (whether or not in the mass) or treated with a white dressing;
 - (ii) consists of a mixture of unbleached and bleached fibres; or
 - (iii) is multiple (folded) or cabled and consists of unbleached and bleached yarns.
- (d) Coloured (dyed or printed) yarn:
Yarn which:
 - (i) is dyed (whether or not in the mass) other than white or in a fugitive colour, or printed, or made from dyed or printed fibres;
 - (ii) consists of a mixture of dyed fibres of different colours or of a mixture of unbleached or bleached fibres with coloured fibres (marl or mixture yarns), or is printed in one or more colours at intervals to give the impression of dots;
 - (iii) is obtained from slivers or rovings which have been printed; or
 - (iv) is multiple (folded) or cabled and consists of unbleached yarn and coloured yarn.

The above definitions also apply, *mutatis mutandis*, to monofilament and to strip or the like of Chapter 54.

- (e) Unbleached woven fabric:

Woven fabric made from unbleached yarn and which has not been bleached, dyed or printed. Such fabric may have been treated with colourless dressing or a fugitive dye.

- (f) Bleached woven fabric:
Woven fabric which:
 - (i) has been bleached or, unless the context otherwise requires, dyed white or treated with a white dressing, in the piece;
 - (ii) consists of bleached yarn; or
 - (iii) consists of unbleached and bleached yarn.
 - (g) Dyed woven fabric:
Woven fabric which:
 - (i) is dyed a single uniform colour than white (unless the context otherwise requires) or has been treated with a coloured finish other than white (unless the context otherwise requires), in the piece; or
 - (ii) consists of coloured yarn of a single uniform colour.
 - (h) Woven fabric of yarns of different colours:
Woven fabric (other than printed woven fabric) which:
 - (i) consists of yarns of different colours or yarns of different shades of the same colour (other than the natural colour of the constituent fibres);
 - (ii) consists of unbleached or bleached yarn and coloured yarn; or
 - (iii) consists of marl or mixture yarns.

(In all cases, the yarn used in selvages and piece ends is not taken in consideration).
 - (ij) Printed woven fabric:
Woven fabric which has been printed in the piece, whether or not made from yarns of different colours.
(The following are also regarded as printed woven fabrics: woven fabrics bearing designs made, for example, with a brush or spray gun, by means of transfer paper, by flocking or by the batik process.)
The process of mercerisation does not affect the classification of yarns or fabrics within the above categories.
 - (k) Plain weave:
A fabric construction in which each yarn of the weft passes alternately over and under successive yarns of the warp and each yarn of the warp passes alternately over and under successive yarns of the weft.
2. (A) Products of Chapters 56 to 63 containing two or more textile materials are to be regarded as consisting wholly of that textile material which would be selected under Note 2 to this Section for the classification of a product of Chapters 50 to 55 consisting of the same textile materials.
- (B) For the application of this rule:
- (a) Where appropriate, only the part which determines the classification under Interpretative Rule 3 shall be taken into account;
 - (b) in the case of textile products consisting of a ground fabric and a pile or looped surface no account shall be taken of the ground fabric;
 - (c) in the case of embroidery of heading No.58.10 and goods thereof, only the ground fabric shall be taken into account. However, embroidery without visible ground, and goods thereof, shall be classified with reference to embroidering threads alone.

CHAPTER 54

MAN MADE FILAMENTS

NOTES

1. Throughout this Schedule, the term "man made fibres" means staple fibres and filaments of organic polymers produced by manufacturing processes, either:
 - (a) By polymerisation of organic monomers, such as polyamides, polyesters, polyurethanes or polyvinyl derivatives; or
 - (b) By chemical transformation of natural organic polymers (for example, cellulose, casein, proteins or algae), such as viscose rayon, cellulose acetate, cupro or alginates.
 The terms "synthetic" and "artificial", used in relation to fibres, mean: synthetic: fibres as defined at (a); artificial: fibres as defined at (b).
 The terms "man made", "synthetic" and "artificial" shall have the same meanings when used in relation to "textile materials".
2. Headings Nos.54.02 and 54.03 do not apply to synthetic or artificial filament tow of Chapter 55.

CHAPTER 56

**WADDING, FELT AND NONWOVENS; SPECIAL YARNS; TWINE, CORDAGE, ROPES
AND CABLES AND ARTICLES THEREOF**

NOTES

1. This Chapter does not cover:
 - (a) Wadding, felt or nonwovens, impregnated, coated or covered with substances or preparations (for example, perfumes or cosmetics of Chapter 33, soaps or detergents of heading No. 34.01, polishes, creams or similar preparations of heading No.34.05, fabric softeners of heading No. 38.09) where the textile material is present merely as a carrying medium;
 - (b) Textile products of heading No. 58.11;
 - (c) Natural or artificial abrasive powder or grain, on a backing of felt or nonwovens (heading No. 68.05);
 - (d) Agglomerated or reconstituted mica, on a backing of felt or nonwovens (heading No. 68.14); or
 - (e) Metal foil on a backing of felt or nonwovens (Section XV).
2. The term "felt" includes needleloom felt and fabrics consisting of a web of textile fibres the cohesion of which has been enhanced by a stitch bonding process using fibres from the web itself.
3. Headings Nos. 56.02 and 56.03 cover respectively felt and nonwovens, impregnated, coated, covered or laminated with plastics or rubber whatever the nature of these materials (compact or cellular).

Heading No.56.03 also includes nonwovens in which plastics or rubber forms the bonding substance.

Headings Nos. 56.02 and 56.03 do not, however, cover:

- (a) Felt impregnated, coated, covered or laminated with plastics or rubber, containing 50% or less by weight of textile material or felt completely embedded in plastics or rubber (Chapter 39 or 40);
 - (b) Nonwovens, either completely embedded in plastics or rubber, or entirely coated or covered on both sides with such materials, provided that such coating or covering can be seen with the naked eye with no account being taken of any resulting change of colour (Chapter 39 or 40); or
 - (c) Plates, sheets or strip of cellular plastics or cellular rubber combined with felt or nonwovens, where the textile material is present merely for reinforcing purposes (Chapter 39 or 40).
4. Heading No. 56.04 does not cover textile yarn, or strip or the like of heading No. 54.04 or 54.05, in which the impregnation, coating or covering cannot be seen with the naked eye (usually Chapters 50 to 55); for the purpose of this provision, no account should be taken of any resulting change of colour.

CHAPTER 61

ARTICLES OF APPAREL AND CLOTHING ACCESSORIES, KNITTED OR CROCHETED

NOTES

1. This Chapter applies only to made up knitted or crocheted articles.
2. This Chapter does not cover:
 - (a) Goods of heading No. 62.12;
 - (b) Worn clothing or other worn articles of heading No. 63.09; or
 - (c) Orthopaedic appliances, surgical belts, trusses or the like (heading No. 90.21).
3. For the purposes of headings Nos. 61.03 to 61.04:
 - (a) The term "suit" means a set of garments composed of two or three pieces made up, in respect of their outer surface, in identical fabric and comprising:
 - one suit coat or jacket the outer shell of which, exclusive of sleeves, consists of four or more panels, designed to cover the upper part of the body, possibly with a tailored waistcoat in addition whose front is made from the same fabric as the outer surface of the other components of the set and whose back is made from the same fabric as the lining of the suit coat or jacket; and
 - one garment designed to cover the lower part of the body and consisting of trousers, breeches or shorts (other than swimwear), a skirt or a divided skirt, having neither braces nor bibs.

All of the components of a "suit" must be of the same fabric construction, colour and composition; they must also be of the same style and of corresponding or compatible size. However, these components may have piping (a strip of fabric sewn into the seam) in a different fabric.

If several separate components to cover the lower part of the body are presented together (for example, two pairs of trousers or trousers and shorts, or a skirt or divided skirt and trousers), the constituent lower part shall be the one pair of trousers or, in the case of women's or girls' suits, the skirt or divided skirt, the other garments being considered separately.

The term "suit" includes the following sets of garments, whether or not they fulfil all the above conditions:-

- morning dress, comprising a plain jacket (cutaway) with rounded tails hanging well down at the back and striped trousers;
 - evening dress (tailcoat), generally made of black fabric, the jacket of which is relatively short at the front, does not close and has narrow skirts cut in at the hips and hanging down behind;
 - dinner jacket suits, in which the jacket is similar in style to an ordinary jacket (though perhaps revealing more of the shirt front), but has shiny silk or imitation silk lapels.
- (b) The term "ensemble" means a set of garments (other than suits and articles of heading No. 61.07, 61.08 or 61.09), composed of several pieces made up in identical fabric, put up for retail sale, and comprising:
 - one garment designed to cover the upper part of the body, with the exception of pullovers which may form a second upper garment in the sole context of twin sets, and of waistcoats which may also form a second upper garment, and
 - one or two different garments, designed to cover the lower part of the body and consisting of trousers, bib and brace overalls, breeches, shorts (other than swimwear), a skirt or a divided skirt.

All of the components of an ensemble must be of the same fabric construction, style, colour and composition; they also must be of corresponding or compatible size. The term "ensemble" does not apply to track suits or ski suits, of heading No. 61.12.

4. Headings Nos. 61.05 and 61.06 do not cover garments with pockets below the waist, with a ribbed waistband or other means of tightening at the bottom of the garment, or garments having an average of less than 10 stitches per linear centimetre in each direction counted on an area measuring at least 10 cm x 10 cm. Heading No. 61.05 does not cover sleeveless garments.
5. Heading No. 61.09 does not cover garments with a drawstring, ribbed waistband or other means of tightening at the bottom of the garment.
6. For the purposes of heading No. 61.11:
 - (a) The expression "babies garments and clothing accessories" means articles for young children of a body height not exceeding 86 cm; it also covers babies' napkins;
 - (b) Articles which are, *prima facie*, classifiable both in heading No. 61.11 and in other headings of this Chapter are to be classified in heading No. 61.11.
7. For the purposes of heading No. 61.12, "ski suits" means garments or sets of garments which, by their general appearance and texture, are identifiable as intended to be worn principally for skiing (cross country or alpine). They consist either of:
 - (a) a "ski overall", that is, a one piece garment designed to cover the upper and the lower parts of the body; in addition to sleeves and a collar the ski overall may have pockets or footstraps; or
 - (b) a "ski ensemble", that is, a set of garments composed of two or three pieces, put up for retail sale and comprising:
 - one garment such as an anorak, wind cheater, wind jacket or similar article, closed by a slide fastener (zipper), possibly with a waistcoat in addition, and
 - one pair of trousers whether or not extending above waist level, one pair of breeches or one bib and brace overall.

The "ski ensemble" may also consist of an overall similar to the one mentioned in paragraph (a) above and a type of padded, sleeveless jacket worn over the overall.

All the components of a "ski ensemble" must be made up in a fabric of the same texture, style and composition whether or not of the same colour; they also must be of corresponding or compatible size.
8. Garments which are, *prima facie*, classifiable both in heading No. 61.13 and in other headings of this Chapter, excluding heading No. 61.11, are to be classified in heading No. 61.13.
9. Garments of this Chapter designed for left over right closure at the front shall be regarded as men's or boys' garments, and those designed for right over left closure at the front as women's or girls' garments. These provisions do not apply where the cut of the garment clearly indicates that it is designed for one or other of the sexes.

Garments which cannot be identified as either men's or boys' garments or as women's or girls' garments are to be classified in the headings covering women's or girls' garments.

10. Articles of this Chapter may be made of metal thread.

ADDITIONAL NOTES

1. For the application of note 3 b) of this Chapter, the components of an ensemble must be made up entirely in a single identical fabric, subject to compliance with the other conditions laid down in the said note.

For this purpose, the fabric used can be unbleached, bleached, dyed, of yarns of different colours or printed.

Sets of garments are not regarded as ensembles when their components are made up in different fabrics, even if the difference is due only to their respective colours.

All the components of an ensemble must be presented together for retail sale as a single unit.

Individual wrapping or separate labelling of each component of such a single unit does not influence its classification as an ensemble.

2. For the purposes of heading N0. 61.09, the terms "singlets" and "other vests" include garments, even if of a fancy design, worn next to the body, without collar, with or without sleeves, including those with shoulder straps. These garments, which are intended to cover the upper part of the body, often possess many characteristics in common with those of T-shirts or with more traditional kinds of singlets and other vests of heading No. 61.09.

ARTICLES OF APPAREL AND CLOTHING ACCESSORIES NOT KNITTED OR CROCHETED**NOTES**

1. This Chapter applies only to made up articles of any textile fabric other than wadding, excluding knitted or crocheted articles (other than those of heading No.62.12).
2. This Chapter does not cover:
 - (a) Worn clothing or other worn articles of heading No.63.09; or
 - (b) Orthopaedic appliances, surgical belts, trusses or the like (heading No.90.21).
3. For the purposes of headings Nos. 62.03 to 62.04:
 - (a) The term "suit" means a set of garments composed of two or three pieces made up, in respect of their outer surface, in identical fabric and comprising:
 - one suit coat or jacket the outer shell of which, exclusive of sleeves, consists of four or more panels, designed to cover the upper part of the body, possibly with a tailored waistcoat in addition whose front is made from the same fabric as the outer surface of the other components of the set and whose back is made from the same fabric as the lining of the suit coat or jacket; and
 - one garment designed to cover the lower part of the body and consisting of trousers, breeches or shorts (other than swimwear), a skirt or a divided skirt, having neither braces nor bibs.

All of the components of a "suit" must be of the same fabric construction, colour and composition; they must also be of the same style and of corresponding or compatible size. However, these components may have piping (a strip of fabric sewn into the seam) in a different fabric.

If several separate components to cover the lower part of the body are presented together (for example, two pairs of trousers or trousers and shorts, or a skirt or divided skirt and trousers), the constituent lower part shall be the one pair of trousers or, in the case of women's or girls' suits, the skirt or divided skirt, the other garments being considered separately.

The term "suit" includes the following sets of garments, whether or not they fulfil all the above conditions:-

- morning dress, comprising a plain jacket (cutaway) with rounded tails hanging well down at the back and striped trousers;
 - evening dress (tailcoat), generally made of black fabric, the jacket of which is relatively short at the front, does not close and has narrow skirts cut in at the hips and hanging down behind;
 - dinner jacket suits, in which the jacket is similar in style to an ordinary jacket (though perhaps revealing more of the shirt front), but has shiny silk or imitation silk lapels.
- (b) The terms "ensemble" means a set of garments (other than suits and articles of heading No. 62.07 or 62.08) composed of several pieces made up in identical fabric, put up for retail sale, and comprising:
 - one garment designed to cover the upper part of the body, with the exception of waistcoats which may also form a second upper garment, and
 - one or two different garments, designed to cover the lower part of the body and consisting of trousers, bib and brace overalls, breeches, shorts (other than swimwear), a skirt or a divided skirt.

All of the components of an ensemble must be of the same fabric construction, style, colour and composition; they also must be of corresponding or compatible size. The term "ensemble" does not apply to track suits or ski suits, of heading No. 62.11.

4. For the purposes of heading No.62.09:
 - (a) The expression "babies garments and clothing accessories" means articles for young

- children of a body height not exceeding 86 cm; it also covers babies' napkins;
- (b) Articles which are, *prima facie*, classifiable both in heading No. 62.09 and in other headings of this Chapter are to be classified in heading No. 62.09.
5. Garments which are, *prima facie*, classifiable both in heading No. 62.10 and in other headings of this Chapter, excluding heading No. 62.09, are to be classified in heading No. 62.10.
6. For the purposes of heading No. 62.11, "ski suits" means garments or sets of garments which, by their general appearance and texture, are identifiable as intended to be worn principally for skiing (cross country or alpine). They consist either of:
- (a) a "ski overall", that is, a one piece garment designed to cover the upper and the lower parts of the body; in addition to sleeves and a collar the ski overall may have pockets or footstraps; or
- (b) a "ski ensemble", that is, a set of garments composed of two or three pieces, put up for retail sale and comprising:
- one garment such as an anorak, wind cheater, wind jacket or similar article, closed by a slide fastener (zipper), possibly with a waistcoat in addition, and
 - one pair of trousers whether or not extending above waist level, one pair of breeches or one bib and brace overall.
- The "ski ensemble" may also consist of an overall similar to the one mentioned in paragraph (a) above and a type of padded, sleeveless jacket worn over the overall.
- All the components of a "ski ensemble" must be made up in a fabric of the same texture, style and composition whether or not of the same colour; they also must be of corresponding or compatible size.
7. Scarves and articles of the scarf type, square or approximately square, of which no side exceeds 60 cm, are to be classified as handkerchiefs (heading No.62.13). Handkerchiefs of which any side exceeds 60 cm are to be classified in heading No. 62.14.
8. Garments of this Chapter designed for left over right closure at the front shall be regarded as men's or boys' garments, and those designed for right over left closure at the front as women's or girls' garments. These provisions do not apply where the cut of the garment clearly indicates that it is designed for one or other of the sexes. Garments which cannot be identified as either men's or boys' garments or as women's or girls' garments are to be classified in the headings covering women's or girls' garments.
9. Articles of this Chapter may be made of metal thread.

ADDITIONAL NOTES

1. For the application of note 3 b) of this Chapter, the components of an ensemble must be made up entirely in a single identical fabric, subject to compliance with the other conditions laid down in the said note.

For this purpose, the fabric used can be unbleached, bleached, dyed, of yarns of different colours or printed.

Sets of garments are not regarded as ensembles when their components are made up in different fabrics, even if the difference is due only to their respective colours.

All the components of an ensemble must be presented together for retail sale as a single unit. Individual wrapping or separate labelling of each component of such a single unit does not influence its classification as an ensemble.

2. For the purposes of heading No. 62.05 shirts of metric size of 36 cm and over are to be classified as men's shirts.

1. This Chapter does not cover:
 - (a) Disposable foot or shoe coverings of flimsy material (for example, paper, sheeting of plastics) without applied soles. These products are classified according to their constituent material;
 - (b) Footwear of textile material, without an outer sole glued, sewn or otherwise affixed or applied to the upper (Section XI);

 - (f) Toy footwear or skating boots with ice or roller skates attached; shin guards or similar protective sportswear (Chapter 95).
2. For the purposes of heading No. 64.06, the term "parts" does not include pegs, protectors, eyelets, hooks, buckles, ornaments, braid, laces, pompons or other trimmings (which are to be classified in their appropriate headings) or buttons or other goods of heading No. 96.06.
3. For the purposes of this Chapter:
 - (a) the terms "rubber" and "plastics" include woven fabrics or other textile products with an external layer of rubber or plastics being visible to the naked eye; for the purpose of this provision, no account shall be taken of any resulting change of colour; and
 - (b) the term "leather" refers to the goods of headings Nos. 41.04 to 41.09.
4. Subject to Note 3 to this Chapter:
 - (a) the material of the upper shall be taken to be the constituent material having the greatest external surface area, no account being taken of accessories or reinforcements such as ankle patches, edging, ornamentation, buckles, tabs, eyelet stays or similar attachments;
 - (b) the constituent material of the outer sole shall be taken to be the material having the greatest surface area in contact with the ground no account being taken of accessories or reinforcements such as spikes, bars, nails, protectors or similar attachments.

SUBHEADING NOTE

1. For the purposes of subheadings Nos. 6402.12, 6402.19, 6403.12, 6403.19 and 6404.11, the expression "sports footwear" applies only to:

ADDITIONAL NOTE

1. Within the meaning of note 4 (a), 'reinforcements' is taken to mean all pieces of material (e.g., plastics or leather) attached to the external surface of the upper to give additional strength, whether or not also attached to the sole. After the removal of reinforcements, the visible material must have the characteristics of an upper and not lining.
Account is to be taken of sections covered by accessories or reinforcements when deciding on the composition of the upper.

2. For the purposes of headings Nos.70.03, 70.04 and 70.05:
 - (a) glass is not regarded as "worked" by reason of any process it has undergone before annealing;
 - (b) cutting to shape does not affect the classification of glass in sheets;
 - (c) the expression "absorbent, reflecting or non-reflecting layer" means a microscopically thin coating of metal or of a chemical compound (for example, metal oxide) which absorbs, for example, infra red light or improves the reflecting qualities of the glass while still allowing it to retain a degree of transparency or translucency; or which prevents light from being reflected on the surface of the glass.
3. The products referred to in heading No.70.06 remain classified in that heading whether or not they have the character of articles.
4. For the purposes of heading No.70.19, the expression "glass wool" means:
 - (a) mineral wools with a silica (SiO_2) content not less than 60% by weight;
 - (b) mineral wools with a silica (SiO_2) content less than 60% but with an alkaline oxide (K_2O or Na_2O) content exceeding 5% by weight or a boric oxide (B_2O_3) content exceeding 2% by weight.

Mineral wools which do not comply with the above specifications fall in heading No.68.06.
5. Throughout this Schedule the expression "glass" includes fused quartz and other fused silica.

SUBHEADING NOTE

1. For the purposes of subheadings Nos. 7013.21, 7013.31 and 7013.91, the expression "lead crystal" means only glass having a minimum lead monoxide (PbO) content by weight of 24%.

 - (m) Hand-sieves, buttons, pens, pencil-holders, pen nibs or other articles of Chapter 96 (miscellaneous manufactured articles); or
 - (n) Articles of Chapter 97 (for example, works of art).

2. Throughout this Schedule, the expression "parts of general use" means:
 - (a) Articles of heading Nos. 73.07, 73.12, 73.15, 73.17 or 73.18 and similar articles of other base metal;
 - (b) Springs and leaves for springs, of base metal, other than clock or watch springs (heading No. 91.14); and
 - (c) Articles of headings Nos. 83.01, 83.02, 83.08, 83.10, and frames and mirrors, of base metal, of heading No. 83.06.

In Chapters 73 to 76 and 78 to 82 (but not in heading No. 73.15) references to parts of goods do not include references to parts of general use as defined above.

Subject to the preceding paragraph and to Note 1 to Chapter 83, the articles of Chapters 82 or 83 are excluded from Chapters 72 to 76 and 78 to 81.

3. Throughout the Nomenclature, the expression "base metals" means: iron and steel, copper, nickel, aluminium, lead, zinc, tin, tungsten (wolfram), molybdenum, tantalum, magnesium, cobalt, bismuth, cadmium, titanium, zirconium, antimony, manganese, beryllium, chromium, germanium, vanadium, gallium, hafnium, indium, niobium (columbium), rhenium and thallium.
4. Throughout the Nomenclature, the term "cermets" means products containing a microscopic heterogeneous combination of a metallic component and a ceramic component. The term "cermets" includes sintered metal carbides (metal carbides sintered with a metal).
5. Classification of alloys (other than ferro-alloys and master alloys as defined in Chapters 72 and 74):
 - (a) An alloy of base metals is to be classified as an alloy of the metal which predominates by weight over each of the other metals;
 - (b) An alloy composed of base metals of this Section and of elements not falling within this Section is to be treated as an alloy of base metals of this Section if the total weight of such metals equals or exceeds the total weight of the other elements present;
 - (c) In this Section the term "alloys" includes sintered mixtures of metal powders, heterogeneous intimate mixtures obtained by melting (other than cermets) and of that intermetallic compounds.
6. Unless the context otherwise requires, any reference in this Schedule to a base metal includes a reference to alloys which, by virtue of Note 5 above, are to be classified as alloys of that metal.
7. Classification of composite articles:

Except where the headings otherwise require, articles of base metal (including articles of mixed materials treated as articles of base metal under the Interpretative Rules) containing two or more base metals are to be treated as articles of the base metal predominating by weight over each of

the other metals. For this purpose:

- (a) Iron and steel, or different kinds of iron or steel, are regarded as one and the same metal;
- (b) An alloy is regarded as being entirely composed of that metal as an alloy of which, by virtue of Note 3, it is classified; and
- (c) A cermet of heading No.81.13 is regarded as a single base metal.

8. In this Section, the following expressions have the meanings hereby assigned to them

(a) **WASTE AND SCRAP**

metal waste and scrap from the manufacture or mechanical working of metals, and metal goods definitely not usable as such because of breakage, cutting-up, wear or other reasons.

(b) **POWDERS**

(h) **GRANULES**

Products of which less than 90% by weight passes through a sieve with a mesh aperture of 1 mm and of which 90% or more by passes through a sieve with a mesh aperture of 5 mm.

(ij) **SEMI-FINISHED PRODUCTS**

Continuous cast products of solid section, whether or not subjected to primary hot-rolling; and other products of solid section, which have not been further worked than subjected to primary hot rolling or roughly shaped by forging, including blanks for angles, shapes or sections. These products are not presented in coils.

(k) **FLAT-ROLLED PRODUCTS**

Rolled products of solid rectangular (other than square) cross section, which do not conform to the definition at (ij) above in the form of:

- coils of successively superimposed layers, or
- straight lengths, which if of a thickness less than 4.75 mm are of a width measuring at least ten times the thickness or if of a thickness of 4.75 mm or more are of a width which exceeds 150 mm and measures at least twice the thickness.

Flat rolled products include those with patterns in relief derived directly from rolling (for example, grooves, ribs, chequers, tears, buttons, lozenges) and those which have been perforated, corrugated or polished, provided that they do not thereby assume the character of articles or products of other headings.

Flat rolled products of a shape other than rectangular or square, of any size, are to be classified as products of a width of 600 mm or more, provided that they do not assume the character of articles or products of other headings.

(l) **BARS AND RODS, HOT-ROLLED, IN IRREGULARLY WOUND COILS**

Hot-rolled products in irregularly wound coils, which have a solid cross section in the shape of circles, segments of circles, ovals, rectangles (including squares), triangles or other convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). These products may have indentations, ribs, grooves, or other deformations produced during the rolling process (reinforcing bars and rods).

(m) **OTHER BARS AND RODS**

Products which do not conform to any of the definitions at (ij), (k) or (l) above or to the definition of wire, which have a uniform solid cross-section along their whole length in the shape of circles, segments of circles, ovals, rectangles (including squares), triangles or other convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). These products may:

- have indentations, ribs, grooves or other deformations produced during the rolling process (reinforcing bars and rods);
- be twisted after rolling.

(n) **ANGLES, SHAPES AND SECTIONS**

Products having a uniform solid cross section along their whole length which do not

conform to any of the definitions at (ij), (k), (l) or (m) above or to the definition of wire. Chapter 72 does not include products of heading No.73.01 or 73.02.

(o) **WIRE**

Cold formed products in coils, of any uniform solid cross section along their whole length, which do not conform to the definition of flat rolled products.

(p) **HOLLOW DRILL BARS AND RODS**

Hollow bars and rods of any cross section, suitable for drills, of which the greatest external dimension of the cross section exceeds 15 mm but does not exceed 52mm, and of which the greatest internal dimension does not exceed one half of the greatest external dimension. Hollow bars and rods of iron or steel not conforming to this definition are to be classified in heading No. 73.04.

2. Ferrous metals clad with another ferrous metal are to be classified as products of the ferrous metal predominating by weight.
3. Iron or steel products obtained by electrolytic deposition, by pressure casting or by sintering are to be classified, according to their form, their composition and their appearance, in the headings of this Chapter appropriate to similar hot-rolled products.

SUBHEADING NOTES

1. In this Chapter the following expressions have the meanings hereby assigned to them:

(a) **ALLOY PIG IRON**

- more than 0.2% of chromium
- more than 0.3% of copper

(d) **HIGH SPEED STEEL**

2. For the classification of ferro-alloys in the subheadings of heading No.72.02 the following rule should be observed:
- A ferro-alloy is considered as binary and classified under the relevant subheading (if it exists) if only one of the alloy elements exceeds the minimum percentage laid down in Chapter Note 1 (c); by analogy, it is considered respectively as ternary or quaternary if two or three alloy elements exceed the minimum percentage. For the application of this rule the unspecified "other elements" referred to in Chapter Note 1 (c) must each exceed 10% by weight.

CHAPTER 73

ARTICLES OF IRON OR STEEL

NOTES

1. In this Chapter the expression "cast iron" applies to products obtained by casting in which iron predominates by weight over each of the other elements and which do not comply with the chemical composition of steel as defined in Note 1 (d) to Chapter 72.
2. In this Chapter the word "wire" means hot or cold formed products of any cross sectional shape, of which no cross sectional dimension exceeds 16 mm.

COPPER AND ARTICLES THEREOF**NOTE**

1. In this Chapter the following expressions have the meanings hereby assigned to them:
- (a) **REFINED COPPER**
 Metal containing at least 99.85% by weight of copper; or
 Metal containing at least 97.5% by weight of copper, provided that the content by weight of any other element does not exceed the limit specified in the following table:

TABLE - Other elements

Element	Limiting content % by weight
Ag Silver	0.25
As Arsenic	0.5
Cd Cadmium	1.3
Cr Chromium	1.4
Mg Magnesium	0.8
Pb Lead	1.5
S Sulphur	0.7
Sn Tin	0.8
Te Tellurium	0.8
Zn Zinc	1.0
Zr Zirconium	0.3
Other elements*, each	0.3

* Other elements are, for example, Al, Be, Co, Fe, Mn, Ni, Si.

- (b) **COPPER ALLOYS**
 Metallic substances other than unrefined copper in which copper predominates by weight over each of the other elements, provided that:
- the content by weight of at least one of the other elements is greater than the limit specified in the foregoing table, or
 - the total content by weight of such other elements exceeds 2.5%.
- (c) **MASTER ALLOYS**
 Alloys containing with other elements more than 10% by weight of copper, not usefully malleable and commonly used as an additive in the manufacture of other alloys or as deoxidants, de sulphurising agents or for similar uses in the metallurgy of non ferrous metals.
 However, copper phosphides (phosphor copper) containing more than 15% by weight of phosphorus falls in heading No. 28.48.
- (d) **BARS AND RODS**
 Rolled, extruded, drawn or forged products, not in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including flattened circles and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products, with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one tenth of the width.
 The expression also covers cast or sintered products, of the same forms and dimensions, which have been subsequently worked after production (otherwise than by simple trimming or de

scaling), provided that they have not thereby assumed the character of articles or products of other headings. Wire bars and billets with their ends tapered or otherwise worked simply to facilitate their entry into machines for converting them into, for example, drawing stock (wire rod) or tubes, are however to be taken to be unwrought copper of heading No. 74.03.

(e) **PROFILES**

Rolled, extruded, drawn, forged or formed products, coiled or not, of a uniform cross section along their whole length, which do not conform to any of the definitions of bars, rods, wire, plates, sheets, strip, foil, tubes or pipes. The expression also covers cast or sintered products, of the same forms, which have been subsequently worked after production (otherwise than by simple trimming or de scaling), provided that they have not thereby assumed the character of articles or products of other headings.

(f) **WIRE**

Rolled, extruded or drawn products, in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one tenth of the width. In the case of heading No. 74.14, however, the term "wire" applies only to products, whether or not in coils, of any cross sectional shape, of which no cross sectional dimension exceeds 6mm.

(g) **PLATES, SHEETS, STRIP AND FOIL**

Flat surfaced products (other than the unwrought products of heading No. 74.03), coiled or not, of solid rectangular (other than square) cross section with or without rounded corners (including "modified rectangles" of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel) of a uniform thickness, which are:

- of a rectangular (including square) shape with a thickness not exceeding one tenth of the width,
- of a shape other than rectangular or square, of any size, provided that they do not assume the character of articles or products of other headings.

Headings Nos. 74.09 and 74.10 apply, *inter alia*, to plates, sheets, strip and foil with patterns (for example, grooves, ribs, chequers, tears, buttons, lozenges) and to such products which have been perforated, corrugated, polished or coated, provided that they do not thereby assume the character of articles or products of other headings.

(h) **TUBES AND PIPES**

Hollow products, coiled or not, which have a uniform cross section with only one enclosed void along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons, and which have a uniform wall thickness. Products with a rectangular (including square), equilateral triangular or regular convex polygonal cross section, which may have corners rounded along their whole length, are also to be taken to be tubes and pipes provided the inner and outer cross sections are concentric and have the same form and orientation. Tubes and pipes of the foregoing cross sections may be polished, coated, bent, treaded, drilled, waisted, expanded, cone shaped or fitted with flanges, collars or rings.

SUBHEADING NOTE

1. In this Chapter the following expressions have the meanings hereby assigned to them:

(a) **COPPER-ZINC BASED ALLOYS (BRASSES)**

Alloys of copper and zinc, with or without other elements. When other elements are present:

- zinc predominates by weight over each of such other elements;
- any nickel content by weight is less than 5% (see copper nickel zinc alloys (nickel silvers)); and
- any tin content by weight is less than 3% (see copper tin alloys (bronzes)).

(b) COPPER-TIN BASE ALLOYS (BRONZES)

Alloys of copper and tin, with or without other elements. When other elements are present, tin predominates by weight over each of such other elements, except that when the tin content is 3% or more the zinc content by weight may exceed that of tin but must be less than 10%.

(c) COPPER-NICKEL-ZINC BASE ALLOYS (NICKEL SILVER)

Alloys of copper, nickel and zinc, with or without other elements. The nickel content is 5% or more by weight (see copper-zinc alloys brasses)

(d) COPPER-NICKEL BASE ALLOYS

Alloys of copper and nickel, with or without elements but in any case containing by weight not more than 1% of zinc. When other elements are present, nickel predominates by weight over each of such other elements.

NICKEL AND ARTICLES THEREOF

NOTE

1. In this Chapter the following expressions have the meanings hereby assigned to them:

(a) **BARS AND RODS**

Rolled, extruded, drawn or forged products, not in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one tenth of the width. CHAPTER 80

TIN AND ARTICLES THEREOF

NOTE

In this Chapter the following expressions have the meanings hereby assigned to them:

(a) **BARS AND RODS**

Rolled, extruded, drawn or forged products, not in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one tenth of the width. The expression also covers cast or sintered products, of the same forms and dimensions, which have been subsequently worked after production (otherwise than by simple trimming or de scaling), provided that they have not thereby assumed the character of articles or products of other headings.

(b) **PROFILES**

Rolled, extruded, drawn, forged or formed products, coiled or not, of a uniform cross section along their whole length, which do not conform to any of the definitions of bars, rods, wire, plates, sheets, strip, foil, tubes or pipes. The expression also covers cast or sintered products, of the same forms, which have been subsequently worked after production (otherwise than by simple trimming or de scaling), provided that they have not thereby assumed the character of articles or products of other headings.

(c) **WIRE**

Rolled, extruded or drawn products, in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles", of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one tenth of the width.

(d) **PLATES, SHEETS, STRIP AND FOIL**

Flat surfaced products (other than the unwrought products of heading No.80.01), coiled or not, of solid rectangular (other than square) cross section with or without rounded corners (including "modified rectangles" of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel) of a uniform thickness, which are:

- of rectangular (including square) shape with a thickness not exceeding one tenth of the width,

- of a shape other than rectangular or square, of any size, provided that they do not assume the character of articles or products of other headings.

Headings Nos. 80.04 and 80.05 apply, inter alia, to plates, sheets, strip and foil with patterns (for example, grooves, ribs, chequers, tears, buttons, lozenges) and to such products which have been perforated, corrugated, polished or coated, provided that they do not thereby assume the character of articles or products of other headings.

(e) **TUBES AND PIPES**

Hollow products, coiled or not, which have a uniform cross section with only one enclosed void along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons, and which have a uniform wall thickness. Products with a rectangular (including square), equilateral triangular, or regular convex polygonal cross section, which may have corners rounded along their whole length, are also to be considered as tubes and pipes provided the inner and outer cross sections are concentric and have the same form and orientation. Tubes and pipes of the foregoing cross sections may be polished, coated, bent, threaded, drilled, waisted, expanded, cone shaped or fitted with flanges, collars or rings.

- B Automatic data processing machines may be in the form of systems consisting of a variable number of separate units. Subject to paragraph (E) below, a unit is to be regarded as being a part of a complete system if it meets all of the following conditions:
- (a) it is of a kind solely or principally used in an automatic data processing system;
 - (b) it is connectable to the central processing unit either directly or through one or more other units;
 - (c) it is able to accept or deliver data in a form (codes or signals) which can be used by the system.

C Separately presented units of an automatic data processing machine are to be classified in heading No. 84.71.

D Printers, keyboards, X-Y co-ordinate input devices and disk storage units which satisfy the conditions of paragraphs (B) (b) and (B) (c) above, are in all cases to be classified as units of heading No. 84.71.

E Machines performing a specific function other than data processing and incorporating or working in conjunction with an automatic data processing machine are to be classified in the headings appropriate to their respective functions or, failing that, in residual headings.

Heading No. 84.71 does not cover machines incorporating or working in conjunction with an automatic data processing machine and performing a specific function. Such machines are classified in the headings appropriate to their respective functions or, failing that, in residual headings.

6. Heading No. 84.82 applies, inter alia, to polished steel balls, the maximum and minimum diameters of which do not differ from the nominal diameter by more than 1% or by more than 0.05 mm, whichever is less. Other steel balls are to be classified in heading No. 73.26.
7. A machine which is used for more than one purpose is, for the purposes of classification, to be treated as if its principal purpose were its sole purpose. Subject to Note 2 to this Chapter and Note 3 to Section XVI, a machine the principal purpose of which is not described in any heading or for which no one purpose is the principal purpose is, unless the context otherwise requires, to be classified in heading No. 84.79. CHAPTER 85**ELECTRICAL MACHINERY AND EQUIPMENT AND PARTS THEREOF;
SOUND RECORDERS AND REPRODUCERS, TELEVISION IMAGE AND
SOUND RECORDERS AND REPRODUCERS, AND PARTS AND ACCESSORIES OF SUCH
ARTICLES****NOTES**

1. This Chapter does not cover:
 - (a) electrically warmed blankets, bed pads, foot muffs or the like; electrically warmed clothing, footwear or ear pads or other electrically warmed articles worn on or about the person;
 - (b) articles of glass of heading No. 70.11; or
 - (c) electrically heated furniture of Chapter 94.
2. Headings Nos.85.01 to 85.04 do not apply to goods described in heading No. 85.11, 85.12, 85.40, 85.41 or 85.42. However, metal tank mercury arc rectifiers remain classified in heading No.85.04.
3. Heading No. 85.09 covers only the following electro mechanical machines of the kind commonly used for domestic purposes:
 - (a) vacuum cleaners, floor polishers, food grinders and mixers, and fruit or vegetable juice extractors, of any weight;
 - (b) other machines provided the weight of such machines does not exceed 20 kg.The heading does not, however, apply to fans or ventilating or recycling hoods incorporating a fan, whether or not fitted with filters (heading No. 84.14), centrifugal clothes dryers (heading No.

84.21), dish washing machines (heading No. 84.22), household washing machines (heading No. 84.50), roller or other ironing machines (heading No. 84.20 or 84.51), sewing machines (heading No. 84.52), electric scissors (heading No.85.08) or to electro thermic appliances (heading No.85.16).

4. For the purposes of heading No. 85.34, "printed circuits" are circuits obtained by forming on an insulating base, by any printing process (for example, embossing, plating up, etching) or by the "film circuit" technique, conductor elements, contacts or other printed components (for example, inductances, resistors, capacitors) alone or interconnected according to a pre established pattern, other than elements which can produce, rectify, modulate or amplify an electrical signal (for example, semiconductor elements).
The expression "printed circuits" does not cover circuits combined with elements other than those obtained during the printing process, nor does it cover individual, discrete resistors, capacitors or inductances.
5. For the purposes of headings Nos.85.41 and 85.42:
 - A. "Diodes, transistors and similar semiconductor devices" are semiconductor devices the operation of which depends on variations in resistivity on the application of an electric field;
 - B. "Electronic integrated circuits and microassemblies" are:
 - (a) monolithic integrated circuits in which the circuit elements (diodes, transistors, resistors, capacitors, interconnections, etc.) are created in the mass (essentially) and on the surface of a semi-conductor material (doped silicon, for example) and are inseparably associated;
 - (b) Hybrid integrated circuits in which passive elements (resistors, capacitors, interconnections, etc.), obtained by thin or thick film technology, and active elements, (diodes, transistors, monolithic integrated circuits, etc.), obtained by semiconductor technology, are combined to all intents and purposes indivisibly, on a single insulating substrate (glass, ceramic, etc.). These circuits may also include discrete components;
 - (c) Microassemblies of the moulded module, micromodule or similar types, consisting of discrete, active or both active and passive, components which are combined and interconnected.

For the classification of the articles defined in this Note, headings Nos. 85.41 and 85.42 shall take precedence over any other heading in this Schedule which might cover them by reference to, in particular, their function.

6. Records, tapes and other media of heading No. 85.23 or 85.24 remain classified in those headings, whether or not they are presented with the apparatus for which they are intended.
7. For the purposes of heading No. 85.48, "spent primary cells, spent primary batteries and spent electric accumulators" are those which are neither usable as such because of breakage, cutting-up, wear or other reasons, nor capable of being recharged.

SUBHEADING NOTE

1. Subheadings Nos. 8519.92 and 8527.12 cover only cassette-players with built-in amplifier, without built-in loudspeaker, capable of operating without an external source of electric power and the dimensions of which do not exceed 170 mm x 100 mm x 45mm.

ADDITIONAL NOTES

1. In this chapter "kva" means kilovoltampere.
2. Subheading Nos. 8519.10.00.00, 8519.21.00.00, 8519.29.00.00, 8519.31.00.00 and 8519.39.00.00 are to be taken not to apply to sound reproducing apparatus with laser reading system, which fall within subheading No. 8519.99.12.00 and 8519.99.18.00.
3. Subheading No. 8524.10.00.00 is applicable *mutatis mutandis* to subheadings 8520.32.30.00 and 8520.33.30.00.

L.N. 344 of 2004.

Article 1

1. This Schedule sets out those cases in which, owing to special circumstances, relief from import or export duties shall be granted respectively when goods are put into free circulation or are exported from the customs territory of the Community.

2. For the purposes of this Schedule:

- (a) "import duties" means customs duties and charges having equivalent effect and also agricultural levies and other import charges provided for under the common agricultural policy or under specific arrangements applicable to certain goods resulting from the processing of agricultural products;
- (b) "Member States" means the Member States of the Community as defined in article 2 of this Act;
- (c) "Council" or "Commission" means the Council or the Commission of the European Communities respectively;
- (d) "personal property" means any property intended for the personal use of the persons concerned or for meeting their household needs.

The following, in particular, shall constitute "personal property":

- household effects,
- cycles and motor cycles, private motor vehicles and their trailers, camping caravans, pleasure craft and private aeroplanes.

Household provisions appropriate to normal family requirements, household pets and saddle animals, as well as the portable instruments of the applied or liberal arts, required by the person concerned for the pursuit of his trade or profession, shall also constitute "personal property". Personal property must not be such as might indicate, by its nature or quantity, that it is being imported for commercial reasons;

- (e) "household effects" means personal effects, household linen, furnishings and equipment intended for the personal use of the persons concerned or for meeting their household needs;
- (f) "alcoholic products" means products (beer, wine, aperitifs with a wine en alcohol base, brandies, liquors or spirituous beverages, etc.) falling within heading Nos 2203 to 2208 of the Combined Nomenclature;
- (g) "Regulation" means a Regulation of the Council or the Commission of the European Communities respectively.

3. Save as otherwise provided in this Schedule for the purpose of applying Chapter I, the concept of third countries also includes those parts of Member States' territories excluded from the customs territory of the Community by virtue of Regulation (EEC) No 2151/84.

CHAPTER I

RELIEF FROM IMPORT DUTY

TITLE I

PERSONAL PROPERTY BELONGING TO NATURAL PERSONS
TRANSFERRING THEIR NORMAL PLACE OF RESIDENCE FROM A THIRD
COUNTRY TO THE COMMUNITY*Article 2*

Subject to Articles 3 to 10, personal property imported by natural persons transferring their normal place of residence from a third country to the customs territory of the Community shall be admitted free of import duties.

Article 3

The relief shall be limited to personal property which:

- (a) except in special cases justified by the circumstances, has been in the possession of and, in the case of non-consumable goods, used by the person concerned at his former normal place of residence for a minimum of six months before the date on which he ceases to have his normal place of residence in the third country of departure;
- (b) is intended to be used for the same purpose at his new normal place of residence.

In addition, Member States may make relief conditional upon such property having borne, either in the country of origin or in the country of departure, the customs and/or fiscal charges to which it is normally liable.

Article 4

Relief may be granted only to persons whose normal place of residence has been outside the customs territory of the Community for a continuous period of at least twelve months.

However, the competent authorities may grant exceptions to the rule in the first paragraph provided that the intention of the person concerned was clearly to reside outside the customs territory of the Community for a continuous period of at least twelve months.

Article 5

No relief shall be granted for:

- (a) alcoholic products;
- (b) tobacco or tobacco products;
- (c) commercial means of transport;
- (d) articles for use in the exercise of a trade or profession, other than portable instruments of the applied or liberal arts.

Article 6

Except in special cases, relief shall be granted only in respect of personal property entered for free circulation within twelve months from the date of establishment, by the person concerned, of his normal place of residence in the customs territory of the Community.

The personal property may be released for free circulation in several separate consignments within the period referred to in the preceding paragraph.

Article 7

1. Until twelve months have elapsed from the date on which its entry for free circulation was accepted, personal property which has been admitted duty-free may not be lent, given as security, hired out or transferred, whether for a consideration or free of charge, without prior notification to the competent authorities.

2. Any loan, giving as security, hiring out or transfer before the expiry of the period referred to in paragraph 1 shall entail payment of the relevant import duties on the property concerned, at the rate applying on the date of such loan, giving as security, hiring out or transfer, on the basis of the type of property and the customs value ascertained or accepted on that date by the competent authorities.

Article 8

1. By way of derogation from the first paragraph of Article 6, relief may be granted in respect of personal property entered for free circulation before the person concerned establishes his normal place of residence in the customs territory of the Community, provided that he undertakes actually to establish his normal place of residence there within a period of six months. Such undertaking shall be accompanied by a security, the form and amount of which shall be determined by the competent authorities.

2. Where use is made of the provisions of paragraph 1, the period laid down in Article 3(a) shall be calculated from the date on which the personal property is brought into the customs territory of the Community.

Article 9

1. Where, owing to occupational commitments, the person concerned leaves the third country where he had his normal place of residence without simultaneously establishing his normal place of residence in the customs territory of the Community, although having the intention of ultimately doing so, the competent authorities may authorize duty-free admission of the personal property which he transfers into the said territory for this purpose.

2. Duty-free admission of the personal property referred to in paragraph 1 shall be granted in accordance with the conditions laid down in Articles 2 to 7, on the understanding that:

- (a) the periods laid down in Article 3(a) and the first paragraph of Article 6 shall be calculated from the date on which the personal property is brought into the customs territory of the Community;
- (b) the period referred to in Article 7(1) shall be calculated from the date when the person concerned actually establishes his normal place of residence in the customs territory of the Community.

3. Duty-free admission shall also be subject to an undertaking from the person concerned that he will actually establish his normal place of residence in the customs territory of the Community within a period laid down by the competent authorities in keeping with the circumstances. The latter may require this undertaking to be accompanied by a security, the form and amount of which they shall determine.

Article 10

The competent authorities may derogate from Articles 3(a) and (b), 5(c) and (d) and 7, when a person has to transfer his normal place of residence from a third country to the customs territory of the Community as a result of exceptional political circumstances.

TITLE II

GOODS IMPORTED ON THE OCCASION OF A MARRIAGE

Article 11

1. Subject to Articles 12 to 15, *trousseaux* and household effects, whether or not new, belonging to a person transferring his or her normal place of residence from a third country to the customs territory of the Community on the occasion of his or her marriage, shall be admitted free of import duties.

2. Subject to the same conditions, presents customarily given on the occasion of a marriage, which are received by a person fulfilling the conditions laid down in paragraph 1 from persons having their normal place of residence in a third country shall also be admitted free of import duties. The value of each present admitted duty-free may not, however, exceed 1 000 EUR, converted into Maltese currency at the time of importation.

Article 12

The relief referred to in Article 11 may be granted only to persons:

- (a) whose normal place of residence has been outside the customs territory of the Community for a continuous period of at least twelve months. However, derogations from this rule may be granted provided that the intention of the person concerned was clearly to reside outside the customs territory of the Community for a continuous period of at least twelve months;
- (b) who produce evidence of their marriage.

Article 13

No relief shall be granted for alcoholic products, tobacco or tobacco products.

Article 14

1. Save in exceptional circumstances, relief shall be granted only in respect of goods entered for free circulation:

- not earlier than two months before the date fixed for the wedding (in this case the relief shall be subject to the lodging of appropriate security, the form and amount of which shall be determined by the competent authorities), and
- not later than four months after the date of the wedding.

2. The goods referred to in Article 11 may be released for free circulation in several separate consignments within the period referred to in paragraph 1 above.

Article 15

1. Until 12 months have elapsed from the date on which their entry for free circulation was accepted, goods which have been admitted duty-free under Article 11 may not be lent, given as security, hired out or transferred, whether for a consideration or free of charge, without prior notification to the competent authorities.

2.  - (b) the name or business name and address of the manufacturer and, if available, of the supplier;
 - (c) the country of origin of the instrument or apparatus;
 - (d) the place where the instrument or apparatus is to be used;
 - (e) the use which the instrument or apparatus is to be put.
3. In the case of a gift, the application shall also include:
- (a) the name of business name and address of the donor;
 - (b) a declaration by the applicant to the effect that:
 - i. the donation of the instrument or apparatus in question does not conceal any commercial intent on the part of the donor;
 - ii. the donor is no way associated with the manufacturer of the instruments or apparatus whose duty-free admission is requested.

(Article 8)

Rules and Notes on Customs Valuation

Article 1

1. The customs value of imported goods shall be the transaction value, that is the price actually paid or payable for the goods when sold for export to Malta adjusted in accordance with the provisions of Article 8, provided -

- (a) that there are no restrictions as to the disposition or use of the goods by the buyer other than restrictions which -
 - (i) are imposed or required by law or by the public authorities in Malta;
 - (ii) limit the geographical area in which the goods may be resold; or
 - (iii) do not substantially affect the value of the goods;
- (b) that the sale or price is not subject to some condition or consideration for which a value cannot be determined with respect to the goods being valued;
- (c) that no part of the proceeds of any subsequent resale, disposal or use of the goods by the buyer will accrue directly or indirectly to the seller, unless an appropriate adjustment can be made in accordance with the provisions of Article 8; and
- (d) that the buyer and seller are not related, or where the buyer and seller are related, that the transaction value is acceptable for customs purposes under the provisions of paragraph 2 of this Article.

- 2. (a) In determining whether the transaction value is acceptable for the purposes of paragraph 1, the fact that the buyer and the seller are related within the meaning of Article 15 shall not in itself be grounds for regarding the transaction value as unacceptable. In such case the circumstances surrounding the sale shall be examined and the transaction value shall be accepted provided that the relationship did not influence the price. If, in the light of information provided by the importer or otherwise, the customs administration has grounds for considering that the relationship influenced the price, it shall communicate its grounds to the importer and he shall be given a reasonable opportunity to respond. If the importer so requests, the communication of the grounds shall be in writing.
- (b) In a sale between related persons, the transaction value shall be accepted and the goods valued in accordance with the provisions of paragraph 1 of this Article whenever the importer demonstrates that such value closely approximates to one of the following occurring at or about the same time -
 - (i) the transaction value in sales to unrelated buyers of identical or similar goods for export to Malta;
 - (ii) the customs value of identical or similar goods as determined under the provisions of Article 5;

- (iii) the customs value of identical or similar goods as determined under the provisions of Article 6.

In applying the foregoing tests, due account shall be taken of demonstrated differences in commercial levels, quantity levels, the elements enumerated in Article 8 and costs incurred by the seller in sales in which the seller and the buyer are not related that are not incurred by the seller in sales in which he and the buyer are related.

- (c) The tests set forth in paragraph 2(b) of this Article are to be used at the initiative of the importer and only for comparison purposes. Substitute values may not be established under the provisions of paragraph 2(b) of this Article.

Article 2

1.
 - (a) If the customs value of the imported goods cannot be determined under the provisions of Article 1, the customs value shall be the transaction value of identical goods sold for export to Malta and imported at or about the same time as the goods being valued.
 - (b) In applying this Article, the transaction value of identical goods in a sale at the same commercial level and in substantially the same quantity as the goods being valued shall be used to determine the customs value. Where no such sale is found, the transaction value of identical goods sold at a different commercial level and/or in different quantities, adjusted to take account of differences attributable to commercial level and/or to quantity, shall be used, provided that such adjustments can be made on the basis of demonstrated evidence which clearly establishes the reasonableness and accuracy of the adjustment, whether the adjustment leads to an increase or a decrease in the value.
2. Where the costs and charges referred to in paragraph 2 of Article 8 are included in the transaction value, an adjustment shall be made to take account of significant differences in such costs and charges between the imported goods and the identical goods in question arising from differences in distances and modes of transport.
3. If, in applying this Article, more than one transaction value of identical goods is found, the lowest such value shall be used to determine the customs value of the imported goods.

Article 3

1.
 - (a) If the customs value of the imported goods cannot be determined under the provisions of Articles 1 and 2, the customs value shall be the transaction value of similar goods sold for export to the same country of importation and exported at or about the same time as the goods being valued.
 - (b) In applying this Article, the transaction value of similar goods in a sale at the same commercial level and in substantially the same quantity as the goods being valued shall be used to determine the customs value. Where no such sale is found, the transaction value of similar goods sold at a different commercial level and/or in different quantities, adjusted to take account of differences attributable to commercial level and/or to quantity, shall be used, provided that such adjustments can be made on the basis of demonstrated evidence which clearly establishes the reasonableness and accuracy of the adjustment, whether the adjustment

leads to an increase or a decrease in the value.

2. Where the costs and charges referred to in paragraph 2 of Article 8 are included in the transaction value, an adjustment shall be made to take account of significant differences in such costs and charges between the imported goods and the similar goods in question arising from differences in distances and modes of transport.

3. If, in applying this Article, more than one transaction value of similar goods is found, the lowest such value shall be used to determine the customs value of the imported goods.

Article 4

If the Customs value of the imported goods cannot be determined under the provisions of Articles 1, 2 and 3, the customs value shall be determined under the provisions of Article 5 or, when the customs value cannot be determined under that Article, under the provisions of Article 6.

Article 5

1. (a) If the imported goods or identical or similar imported goods are sold in Malta in the condition as imported, the customs value of the imported goods under the provisions of this Article shall be based on the unit price at which the imported goods or identical or similar imported goods are so sold in the greatest aggregate quantity, at or about the time of the importation of the goods being valued, to persons who are not related to the persons from whom they buy such goods, subject to deductions for the following:
 - (i) either the commissions usually paid or agreed to be paid or the additions usually made for profit and general expenses in connection with sales in such country of imported goods of the same class or kind;
 - (ii) the usual costs of transport and insurance and associated costs incurred in Malta;
 - (iii) where appropriate, the costs and charges referred to in paragraph 2 of Article 8; and
 - (iv) the customs duties and other national taxes payable in Malta by reason of the importation or sale of the goods.
 - (b) If neither the imported goods nor identical nor similar imported goods are sold at or about the time of importation of the goods being valued, the customs value shall, subject otherwise to the provisions of paragraph 1(a) of this Article, be based on the unit price at which the imported goods or identical or similar imported goods are sold in Malta in the condition as imported at the earliest date after the importation of the goods being valued but before the expiration of ninety days after such importation.
2. If neither the imported goods nor identical nor similar imported goods are sold in Malta in the condition as imported, then, if the importer so requests, the customs value shall be based on the unit price at which the imported goods, after further processing, are sold in the greatest aggregate quantity to persons in Malta who are not related to the persons from whom they buy such goods, due allowance being made for the value added by such processing and the deductions provided for in paragraph 1 (a) of this Article.

Article 6

1. The customs value of imported goods under the provisions of this Article shall be based on a computed value. Computed value shall consist of the sum of:

- (a) the cost or value of materials and fabrication or other processing employed in producing the imported goods;
- (b) an amount for profit and general expenses equal to that usually reflected in sales of goods of the same class or kind as the goods being valued which are made by producers in the country of exportation for export to Malta;
- (c) the cost or value of all other expenses listed under paragraph 2 of Article 8.

2. No person not resident in Malta may be compelled to produce for examination, or to allow access to, any account or other record for the purposes of determining a computed value. However, information supplied by the producer of the goods for the purposes of determining the customs value under the provisions of this Article may be verified in another country by the authorities of Malta with the agreement of the producer and provided they give sufficient advance notice to the government of the country in question and the latter does not object to the investigation.

Article 7

1. If the customs value of the imported goods cannot be determined under the provisions of Articles 1 to 6, inclusive, the customs value shall be determined using reasonable means consistent with the principles and general provisions of the Agreement on Customs Valuation and of Article VII of the GATT 1994 and on the basis of data available in Malta.

2. No customs value shall be determined under the provisions of this Article on the basis of:

- (a) the selling price in Malta of goods produced in such country;
- (b) a system which provides for the acceptance for customs purposes of the higher of two alternative values;
- (c) the price of goods on the domestic market of the country of exportation;
- (d) the cost of production other than computed values which have been determined for identical or similar goods in accordance with the provisions of Article 6;
- (e) the price of the goods for export to a country other than Malta;
- (f) arbitrary or fictitious values.

3. If he so requests, the importer shall be informed in writing of the customs value determined under the provisions of this Article and the method used to determine such value.

Article 8

1. In determining the customs value under the provisions of Article 1, there shall be added to the price actually paid or payable for the imported goods:

- (a) the following, to the extent that they are incurred by the buyer but are not included in the price actually paid or payable for the goods -
 - (i) commissions and brokerage, except buying commissions;

- (ii) the cost of containers which are treated as being one for customs purposes with the goods in question;
 - (iii) the cost of packing whether for labour or materials;
 - (b) the value, apportioned as appropriate, of the following goods and services where supplied directly or indirectly by the buyer free of charge or at reduced cost for use in connection with the production and sale for export of the imported goods, to the extent that such value has not been included in the price actually paid or payable -
 - (i) materials, components, parts and similar items incorporated in the imported goods;
 - (ii) tools, dies, moulds and similar items used in the production of the imported goods;
 - (iii) materials consumed in the production of the imported goods;
 - (iv) engineering, development, artwork, design work, and plans and sketches undertaken elsewhere than in Malta and necessary for the production of the imported goods;
 - (c) royalties and licence fees related to the goods being valued that the buyer must pay, either directly or indirectly, as a condition of sale of the goods being valued, to the extent that such royalties and fees are not included in the price actually paid or payable;
 - (d) the value of any part of the proceeds of any subsequent resale, disposal or use of the imported goods that accrues directly or indirectly to the seller.
2. The following shall also be included in the customs value:
- (a) the cost of transport of the imported goods to the port or place of importation;
 - (b) loading, unloading and handling charges associated with the transport of the imported goods to the port or place of importation; and
 - (c) the cost of insurance.
3. Additions to the price actually paid or payable shall be made under this Article only on the basis of objective and quantifiable data.
4. No additions shall be made to the price actually paid or payable in determining the customs value except as provided in this Article.

Article 9

Where the conversion of currency is necessary for the determination of the customs value, the rate of exchange to be used shall be that determined by the Central Bank of Malta and the relative provisions of article 12 of this Act shall apply.

Article 10

All information which is by nature confidential or which is provided on a confidential basis for the purposes of customs valuation shall be treated as strictly confidential by the authorities concerned who shall not disclose it without the specific permission of the person or government providing such information, except to the extent that it may be required to be disclosed in the context of judicial proceedings.

Article 11

The notes at the Annex to this Schedule form an integral part of and are to be read and applied in conjunction with this Schedule.

Article 12

1. In this Schedule:
 - (a) "customs value of imported goods" means the value of goods for the purposes of levying *ad valorem* duties of customs on imported goods; and
 - (b) "produced" includes grown, manufactured and mined.
2.
 - (a) In this Schedule "identical goods" means goods which are the same in all respects, including physical characteristics, quality and reputation. Minor differences in appearance would not preclude goods otherwise conforming to the definition from being regarded as identical.
 - (b) In this Schedule "similar goods" means goods which, although not alike in all respects, have like characteristics and like component materials which enable them to perform the same functions and to be commercially interchangeable. The quality of the goods, their reputation and the existence of a trademark are among the factors to be considered in determining whether goods are similar.
 - (c) The terms "identical goods" and "similar goods" do not include, as the case may be, goods which incorporate or reflect engineering, development, artwork, design work, and plans and sketches for which no adjustment has been made under paragraph 1 (b)(iv) of Article 8 because such elements were undertaken in Malta.
 - (d) Goods shall not be regarded as "identical goods" or "similar goods" unless they were produced in the same country as the goods being valued.
 - (e) Goods produced by a different person shall be taken into account only when there are no identical goods or similar goods, as the case may be, produced by the same person as the goods being valued.
3. In this Schedule "goods of the same class or kind" means goods which fall within a group or range of goods produced by a particular industry or industry sector, and includes identical or similar goods.
4. For the purposes of this Schedule, persons shall be deemed to be related only if -
 - (a) they are officers or directors of one another's businesses;
 - (b) they are legally recognised partners in business;
 - (c) they are employer and employee;
 - (d) any person directly or indirectly owns, controls or holds 5 per cent or more of the outstanding voting stock or shares of both of them;
 - (e) one of them directly or indirectly controls the other;
 - (f) both of them are directly or indirectly controlled by a third person;
 - (g) together they directly or indirectly control a third person; or
 - (h) they are members of the same family.

Persons who are associated in business with one another in that one is the

sole agent, sole distributor or sole concessionaire, however described, of the other shall be deemed to be related for the purposes of this Schedule if they fall within the criteria of paragraph 4 of this Article.

Article 13

Upon written request, the importer shall have the right to an explanation in writing from the customs administration of Malta as to how the customs value of his imported goods was determined.

Article 14

Nothing in this Schedule shall be construed as restricting or calling into question the rights of customs administrations to satisfy themselves as to the truth or accuracy of any statement, document or declaration presented for customs valuation purposes.

ANNEX

INTERPRETATIVE NOTES

General Note

Sequential Application of Valuation Methods

1. Articles 1 to 7, inclusive, define how the customs value of imported goods is to be determined under the provisions of this Schedule. The methods of valuation are set out in a sequential order of application. The primary method for customs valuation is defined in Article 1 and imported goods are to be valued in accordance with the provisions of this Article whenever the conditions prescribed therein are fulfilled.

2. Where the customs value cannot be determined under the provisions of Article 1, it is to be determined by proceeding sequentially through the succeeding Articles to the first such Article under which the customs value can be determined. Except as provided in Article 4, it is only when the customs value cannot be determined under the provisions of a particular Article that the provisions of the next Article in the sequence can be used.

3. If the importer does not request that the order of Articles 5 and 6 be reversed, the normal order of the sequence is to be followed. If the importer does so request but it then proves impossible to determine the customs value under the provisions of Article 6, the customs value is to be determined under the provisions of Article 5, if it can be so determined.

4. Where the customs value cannot be determined under the provisions of Articles 1 to 6, inclusive, it is to be determined under the provisions of Article 7.

Use of Generally Accepted Accounting Principles

1. "Generally accepted accounting principles" refers to the recognized consensus or substantial authoritative support within a country at a particular time as to which economic resources and obligations should be recorded as assets and liabilities, which changes in assets and liabilities should be recorded, how the assets and liabilities and changes in them should be measured, what information should be disclosed and how it should be disclosed, and which financial statements should be prepared. These standards may be broad guidelines of general application as well as detailed practices and procedures.

2. For the purposes of this Schedule, the customs administration shall utilize information prepared in a manner consistent with generally accepted accounting

principles in the country which is appropriate for the Article in question. For example, the determination of usual profit and general expenses under the provisions of Article 5 would be carried out utilizing information prepared in a manner consistent with generally accepted accounting principles of Malta. On the other hand, the determination of usual profit and general expenses under the provisions of Article 6 would be carried out utilizing information prepared in a manner consistent with generally accepted accounting principles of the country of production. As a further example, the determination of an element provided for in paragraph 1(b)(ii) of Article 8 undertaken in Malta would be carried out utilizing information in a manner consistent with the generally accepted accounting principles of that country.

Note to Article 1

Price Actually Paid or Payable

1. The price actually paid or payable is the total payment made or to be made by the buyer to or for the benefit of the seller for the imported goods. The payment need not necessarily take the form of a transfer of money. Payment may be made by way of letters of credit or negotiable instruments. Payment may be made directly or indirectly. An example of an indirect payment would be the settlement by the buyer, whether in whole or in part, of a debt owed by the seller.

2. Activities undertaken by the buyer on his own account, other than those for which an adjustment is provided in Article 8, are not considered to be an indirect payment to the seller, even though they might be regarded as of benefit to the seller. The costs of such activities shall not, therefore, be added to the price actually paid or payable in determining the customs value.

3. The customs value shall not include the following charges or costs, provided that they are distinguished from the price actually paid or payable for the imported goods:

- (a) charges for construction, erection, assembly, maintenance or technical assistance, undertaken after importation on imported goods such as industrial plant, machinery or equipment;
- (b) the cost of transport after importation;
- (c) duties and taxes of the country of importation.

The price actually paid or payable refers to the price for the imported goods. Thus the flow of dividends or other payments from the buyer to the seller that do not relate to the imported goods are not part of the customs value.

Paragraph 1(a)(iii)

Among restrictions which would not render a price actually paid or payable unacceptable are restrictions which do not substantially affect the value of the goods. An example of such restrictions would be the case where a seller requires a buyer of automobiles not to sell or exhibit them prior to a fixed date which represents the beginning of a model year.

Paragraph 1(b)

1. If the sale or price is subject to some condition or consideration for which a value cannot be determined with respect to the goods being valued, the transaction value shall not be acceptable for customs purposes. Some examples of this include:

- (a) the seller establishes the price of the imported goods on condition that the buyer will also buy other goods in specified quantities;
- (b) the price of the imported goods is dependent upon the price or prices at

which the buyer of the imported goods sells other goods to the seller of the imported goods;

- (c) the price is established on the basis of a form of payment extraneous to the imported goods, such as where the imported goods are semi-finished goods which have been provided by the seller on condition that he will receive a specified quantity of the finished goods.

2. However, conditions or considerations relating to the production or marketing of the imported goods shall not result in rejection of the transaction value. For example, the fact that the buyer furnishes the seller with engineering and plans undertaken in Malta shall not result in rejection of the transaction value for the purposes of Article I. Likewise, if the buyer undertakes on his own account, even though by agreement with the seller, activities relating to the marketing of the imported goods, the value of these activities is not part of the customs value nor shall such activities result in rejection of the transaction value.

Paragraph 2

1. Paragraphs 2(a) and 2(b) provide different means of establishing the acceptability of a transaction value.

2. Paragraph 2(a) provides that where the buyer and the seller are related, the circumstances surrounding the sale shall be examined and the transaction value shall be accepted as the customs value provided that the relationship did not influence the price. It is not intended that there should be an examination of the circumstances in all cases where the buyer and the seller are related. Such examination will only be required where there are doubts about the acceptability of the price. Where the customs administration have no doubts about the acceptability of the price, it should be accepted without requesting further information from the importer. For example, the customs administration may have previously examined the relationship, or it may already have detailed information concerning the buyer and the seller, and may already be satisfied from such examination or information that the relationship did not influence the price.

3. Where the customs administration is unable to accept the transaction value without further inquiry, it should give the importer an opportunity to supply such further detailed information as may be necessary to enable it to examine the circumstances surrounding the sale. In this context, the customs administration should be prepared to examine relevant aspects of the transaction, including the way in which the buyer and seller organize their commercial relations and the way in which the price in question was arrived at, in order to determine whether the relationship influenced the price.

Where it can be shown that the buyer and seller, although related under the provisions of Article 15, buy from and sell to each other as if they were not related, this would demonstrate that the price had not been influenced by the relationship. As an example of this, if the price had been settled in a manner consistent with the normal pricing practices of the industry in question or with the way the seller settles prices for sales to buyers who are not related to him, this would demonstrate that the price had not been influenced by the relationship. As a further example, where it is shown that the price is adequate to ensure recovery of all costs plus a profit which is representative of the firm's overall profit realized over a representative period of time (e.g. on an annual basis) in sales of goods of the same class or kind, this would demonstrate that the price had not been influenced.

4. Paragraph 2(b) provides an opportunity for the importer to demonstrate that the transaction value closely approximates to a "test" value previously accepted by

the customs administration and is therefore acceptable under the provisions of Article 1. Where a test under paragraph 2(b) is met, it is not necessary to examine the question of influence under paragraph 2(a). If the customs administration has already sufficient information to be satisfied, without further detailed inquiries, that one of the tests provided in paragraph 2(b) has been met, there is no reason for it to require the importer to demonstrate that the test can be met. In paragraph 2(b) the term "unrelated buyers" means buyers who are not related to the seller in any particular case.

Paragraph 2(b)

A number of factors must be taken into consideration in determining whether one value "closely approximates" to another value. These factors include the nature of the imported goods, the nature of the industry itself, the season in which the goods are imported, and, whether the difference in values is commercially significant. Since these factors may vary from case to case, it would be impossible to apply a uniform standard such as a fixed percentage, in each case. For example, a small difference in value in a case involving one type of goods could be unacceptable while a large difference in a case involving another type of goods might be acceptable in determining whether the transaction value closely approximates to the "test" values set forth in paragraph 2(b) of Article 1.

Note to Article 2

1. In applying Article 2, the customs administration shall, wherever possible, use a sale of identical goods at the same commercial level and in substantially the same quantities as the goods being valued. Where no such sale is found, a sale of identical goods that takes place under any one of the following three conditions may be used:

- (a) a sale at the same commercial level but in different quantities;
- (b) a sale at a different commercial level but in substantially the same quantities; or
- (c) a sale at a different commercial level and in different quantities.

Having found a sale under any one of these three conditions adjustments will then be made, as the case may be, for:

- a. quantity factors only;
- b. commercial level factors only; or
- c. both commercial level and quantity factors.

3. The expression "and/or" allows the flexibility to use the sales and make the necessary adjustments in any one of the three conditions described above.

4. For the purposes of Article 2, the transaction value of identical imported goods means a customs value, adjusted as provided for in paragraphs 1(b) and 2 of this Article, which has already been accepted under Article 1.

5. A condition for adjustment because of different commercial levels or different quantities is that such adjustment, whether it leads to an increase or a decrease in the value, be made only on the basis of demonstrated evidence that clearly establishes the reasonableness and accuracy of the adjustments, e.g. valid price lists containing prices referring to different levels or different quantities.

As an example of this, if the imported goods being valued consist of a shipment of 10 units and the only identical imported goods for which a transaction value exists involved a sale of 500 units, and it is recognized that the seller grants

quantity discounts, the required adjustment may be accomplished by resorting to the seller's price list and using that price applicable to a sale of 10 units. This does not require that a sale had to have been made in quantities of 10 as long as the price list has been established as being *bona fide* through sales at other quantities. In the absence of such an objective measure, however, the determination of a customs value under the provisions of Article 2 is not appropriate.

Note to Article 3

1. In applying Article 3, the customs administration shall, wherever possible, use a sale of similar goods at the same commercial level and in substantially the same quantities as the goods being valued. Where no such sale is found, a sale of similar goods that takes place under any one of the following three conditions may be used:

- (a) a sale at the same commercial level but in different quantities;
- (b) a sale at a different commercial level but in substantially the same quantities; or
- (c) a sale at a different commercial level and in different quantities.

2. Having found a sale under any one of these three conditions adjustments will then be made, as the case may be, for:

- (a) quantity factors only;
- (b) commercial level factors only; or
- (c) both commercial level and quantity factors.

3. The expression "and/or" allows the flexibility to use the sales and make the necessary adjustments in any one of the three conditions described above.

4. For the purpose of Article 3, the transaction value of similar imported goods means a customs value, adjusted as provided for in paragraphs 1(b) and 2 of this Article, which has already been accepted under Article 1.

5. A condition for adjustment because of different commercial levels or different quantities is that such adjustment, whether it leads to an increase or a decrease in the value, be made only on the basis of demonstrated evidence that clearly establishes the reasonableness and accuracy of the adjustment, e.g. valid price lists containing prices referring to different levels or different quantities.

As an example of this, if the imported goods being valued consist of a shipment of 10 units and the only similar imported goods for which a transaction value exists involved a sale of 500 units, and it is recognized that the seller grants quantity discounts, the required adjustment may be accomplished by resorting to the seller's price list and using that price applicable to a sale of 10 units. This does not require that a sale had to have been made in quantities of 10 as long as the price list has been established as being *bona fide* through sales at other quantities. In the absence of such an objective measure, however, the determination of a customs value under the provisions of Article 3 is not appropriate.

Note to Article 5

1. The term "unit price at which ... goods are sold in the greatest aggregate quantity" means the price at which the greatest number of units is sold in sales to persons who are not related to the persons from whom they buy such goods at the first commercial level after importation at which such sales take place.

2. As an example of this, goods are sold from a price list which grants favourable unit prices for purchases made in larger quantities.

Sale quantity	Unit price	Number of sales	Total quantity sold at each price
1-10 units	100	10 sales of 5 units	
		5 sales of 3 units	65
11-25 units	95	5 sales of 11 units	55
over 25 units	90	1 sale of 30 units	
		1 sale of 50 units	80

The greatest number of units sold at a price is 80; therefore, the unit price in the greatest aggregate quantity is 90.

3. As another example of this, two sales occur. In the first sale 500 units are sold at a price of 95 currency units each. In the second sale 400 units are sold at a price of 90 currency units each. In this example, the greatest number of units sold at a particular price is 500; therefore, the unit price in the greatest aggregate quantity is 95.

4. A third example would be the following situation where various quantities are sold at various prices.

(a) Sales

Sale quantity	Unit price
40 units	100
30 units	90
15 units	100
50 units	95
25 units	105
35 units	90
5 units	100

(b) Totals

Total quantity sold	Unit price
65	90
50	95
60	100
25	105

In this example, the greatest number of units sold at a particular price is 65; therefore, the unit price in the greatest aggregate quantity is 90.

5. Any sale in the importing country, as described in paragraph 1 above, to a person who supplies directly or indirectly free of charge or at a reduced cost for use in connection with the production and sale for export of the imported goods any of the elements specified in paragraph 1(b) of Article 8, should not be taken into account in establishing the unit price for the purposes of Article 5.

6. It should be noted that "profit and general expenses" referred to in paragraph 1 of Article 5 should be taken as a whole. The figure for the purposes of this deduction should be determined on the basis of information supplied by or on behalf of the importer unless his figures are inconsistent with those obtained in sales in Malta of imported goods of the same class or kind. Where the importer's figures are inconsistent with such figures, the amount for profit and general expenses may be based upon relevant information other than that supplied by or on behalf of the importer.

7. The "general expenses" include the direct and indirect costs of marketing the goods in question.

8. Local taxes payable by reason of the sale of the goods for which a deduction is not made under the provisions of paragraph 1(a)(iv) of Article 5 shall be deducted under the provisions of paragraph 1(a)(i) of Article 5.

9. In determining either the commissions or the usual profits and general expenses under the provisions of paragraph 1 of Article 5, the question whether certain goods are "of the same class or kind" as other goods must be determined on a case-by-case basis by reference to the circumstances involved. Sales in Malta of the narrowest group or range of imported goods of the same class or kind, which includes the goods being valued, for which the necessary information can be provided, should be examined. For the purposes of Article 5, "goods of the same class or kind" includes goods imported from the same country as the goods being valued as well as goods imported from other countries.

10. For the purposes of paragraph 1(b) of Article 5, the "earliest date" shall be the date by which sales of the imported goods or of identical or similar imported goods are made in sufficient quantity to establish the unit price.

11. Where the method in paragraph 2 of Article 5 is used, deductions made for the value added by further processing shall be based on objective and quantifiable data relating to the cost of such work. Accepted industry formulas, recipes, methods of construction, and other industry practices would form the basis of the calculations.

12. It is recognized that the method of valuation provided for in paragraph 2 of Article 5 would normally not be applicable when, as a result of the further processing, the imported goods lose their identity. However, there can be instances where, although the identity of the imported goods is lost, the value added by the processing can be determined accurately without unreasonable difficulty. On the other hand, there can also be instances where the imported goods maintain their identity but form such a minor element in the goods sold in Malta that the use of this valuation method would be unjustified. In view of the above, each situation of this type must be considered on a case-by-case basis.

Note to Article 6

1. As a general rule, customs value is determined under this Schedule on the basis of information readily available in Malta. In order to determine a computed value, however, it may be necessary to examine the costs of producing the goods being valued and other information which has to be obtained from outside Malta. Furthermore, in most cases the producer of the goods will be outside the jurisdiction of the authorities of Malta. The use of the computed value method will generally be limited to those cases where the buyer and seller are related, and the producer is prepared to supply to the authorities of Malta the necessary costings and to provide facilities for any subsequent verification which may be necessary.

2. The "cost or value" referred to in paragraph 1(a) of Article 6 is to be determined on the basis of information relating to the production of the goods being valued supplied by or on behalf of the producer. It is to be based upon the commercial accounts of the producer, provided that such accounts are consistent with the generally accepted accounting principles applied in the country where the goods are produced.

3. The "cost or value" shall include the cost of elements specified in paragraphs 1(a)(ii) and (iii) of Article 8. It shall also include the value, apportioned as appropriate under the provisions of the relevant note to Article 8, of any element specified in paragraph 1(b) of Article 8 which has been supplied directly or indirectly by the buyer for use in connection with the production of the imported

goods. The value of the elements specified in paragraph 1(b)(iv) of Article 8 which are undertaken in Malta shall be included only to the extent that such elements are charged to the producer. It is to be understood that no cost or value of the elements referred to in this paragraph shall be counted twice in determining the computed value.

4. The "amount for profit and general expenses" referred to in paragraph 1(b) of Article 6 is to be determined on the basis of information supplied by or on behalf of the producer unless his figures are inconsistent with those usually reflected in sales of goods of the same class or kind as the goods being valued which are made by producers in the country of exportation for export to Malta.

5. It should be noted in this context that the "amount for profit and general expenses" has to be taken as a whole. It follows that if, in any particular case, the producer's profit figure is low and his general expenses are high, his profit and general expenses taken together may nevertheless be consistent with that usually reflected in sales of goods of the same class or kind. Such a situation might occur, for example, if a product were being launched in Malta and the producer accepted a nil or low profit to offset high general expenses associated with the launch. Where the producer can demonstrate that he is taking a low profit on his sales of the imported goods because of particular commercial circumstances, his actual profit figures should be taken into account provided that he has valid commercial reasons to justify them and his pricing policy reflects usual pricing policies in the branch of industry concerned. Such a situation might occur, for example, where producers have been forced to lower prices temporarily because of an unforeseeable drop in demand, or where they sell goods to complement a range of goods being produced in Malta and accept a low profit to maintain competitiveness. Where the producer's own figures for profit and general expenses are not consistent with those usually reflected in sales of goods of the same class or kind as the goods being valued which are made by producers in the country of exportation for export to Malta, the amount for profit and general expenses may be based upon relevant information other than that supplied by or on behalf of the producer of the goods.

6. Where information other than that supplied by or on behalf of the producer is used for the purposes of determining a computed value, the authorities of the importing country shall inform the importer, if the latter so requests, of the source of such information, the data used and the calculations based upon such data, subject to the provisions of Article 10.

7. The "general expenses" referred to in paragraph 1(b) of Article 6 covers the direct and indirect costs of producing and selling the goods for export which are not included under paragraph 1(a) of Article 6.

8. Whether certain goods are "of the same class or kind" as other goods must be determined on a case-by-case basis with reference to the circumstances involved. In determining the usual profits and general expenses under the provisions of Article 6, sales for export to Malta of the narrowest group or range of goods, which includes the goods being valued, for which the necessary information can be provided, should be examined. For the purposes of Article 6, "goods of the same class or kind" must be from the same country as the goods being valued.

Note to Article 7

1. Customs values determined under the provisions of Article 7 should, to the greatest extent possible, be based on previously determined customs values.

2. The methods of valuation to be employed under Article 7 should be those laid down in Articles 1 to 6, inclusive, but a reasonable flexibility in the application

of such methods would be in conformity with the aims and provisions of Article 7.

3. Some examples of reasonable flexibility are as follows:
 - a. Identical goods - the requirement that the identical goods should be exported at or about the same time as the goods being valued could be flexibly interpreted; identical imported goods produced in a country other than the country of exportation of the goods being valued could be the basis for customs valuation; customs values of identical imported goods already determined under the provisions of Articles 5 and 6 could be used.
 - b. Similar goods - the requirement that the similar goods should be exported at or about the same time as the goods being valued could be flexibly interpreted; similar imported goods produced in a country other than the country of exportation of the goods being valued could be the basis for customs valuation; customs values of similar imported goods already determined under the provisions of Articles 5 and 6 could be used.
 - c. Deductive method - the requirement that the goods shall have been sold in the "condition as imported" in paragraph 1(a) of Article 5 could be flexibly interpreted; the "ninety days" requirement could be administered flexibly.

Note to Article 8

Paragraph 1(a)(i)

The term "buying commissions" means fees paid by an importer to his agent for the service of representing him abroad in the purchase of the goods being valued.

Paragraph 1(b)(ii)

1. There are two factors involved in the apportionment of the elements specified in paragraph 1(b)(ii) of Article 8 to the imported goods - the value of the element itself and the way in which that value is to be apportioned to the imported goods. The apportionment of these elements should be made in a reasonable manner appropriate to the circumstances and in accordance with generally accepted accounting principles.

2. Concerning the value of the element, if the importer acquires the element from a seller not related to him at a given cost, the value of the element is that cost. If the element was produced by the importer or by a person related to him, its value would be the cost of producing it. If the element had been previously used by the importer, regardless of whether it had been acquired or produced by such importer, the original cost of acquisition or production would have to be adjusted downward to reflect its use in order to arrive at the value of the element.

3. Once a value has been determined for the element, it is necessary to apportion that value to the imported goods. Various possibilities exist. For example, the value might be apportioned to the first shipment if the importer wishes to pay duty on the entire value at one time. As another example, the importer may request that the value be apportioned over the number of units produced up to the time of the first shipment. As a further example, he may request that the value be apportioned over the entire anticipated production where contracts or firm commitments exist for that production. The method of apportionment used will depend upon the documentation provided by the importer.

4. As an illustration of the above, an importer provides the producer with a

mould to be used in the production of the imported goods and contracts with him to buy 10,000 units. By the time of arrival of the first shipment of 1,000 units, the producer has already produced 4,000 units. The importer may request the customs administration to apportion the value of the mould over 1,000 units, 4,000 units or 10,000 units.

Paragraph 1(b)(iv)

1. Additions for the elements specified in paragraph 1 (b)(iv) of Article 8 should be based on objective and quantifiable data. In order to minimize the burden for both the importer and customs administration in determining the values to be added, data readily available in the buyer's commercial record system should be used in so far as possible.

2. For those elements supplied by the buyer which were purchased or leased by the buyer, the addition would be the cost of the purchase or the lease. No addition shall be made for those elements available in the public domain, other than the cost of obtaining copies of them.

3. The ease with which it may be possible to calculate the values to be added will depend on a particular firm's structure and management practice, as well as its accounting methods.

4. For example, it is possible that a firm which imports a variety of products from several countries maintains the records of its design centre outside Malta in such a way as to show accurately the costs attributable to a given product. In such cases, a direct adjustment may appropriately be made under the provisions of Article 8.

5. In another case, a firm may carry the cost of the design centre outside Malta as a general overhead expense without allocation to specific products. In this instance, an appropriate adjustment could be made under the provisions of Article 8 with respect to the imported goods by apportioning total design centre costs over total production benefiting from the design centre and adding such apportioned cost on a unit basis to imports.

6. Variations in the above circumstances will, of course, require different factors to be considered in determining the proper method of allocation.

7. In cases where the production of the element in question involves a number of countries and over a period of time, the adjustment should be limited to the value actually added to that element outside Malta.

Paragraph 1(c)

1. The royalties and licence fees referred to in paragraph 1(c) of Article 8 may include, among other things, payments in respect to patents, trade marks and copyrights. However, the charges for the right to reproduce the imported goods in Malta shall not be added to the price actually paid or payable for the imported goods in determining the customs value.

2. Payments made by the buyer for the right to distribute or resell the imported goods shall not be added to the price actually paid or payable for the imported goods if such payments are not a condition of the sale for export to Malta of the imported goods.

Paragraph 3

Where objective and quantifiable data do not exist with regard to the additions required to be made under the provisions of Article 8, the transaction value

cannot be determined under the provisions of Article 1. As an illustration of this, a royalty is paid on the basis of the price in a sale in the importing country of a litre of a particular product that was imported by the kilogram and made up into a solution after importation. If the royalty is based partially on the imported goods and partially on other factors which have nothing to do with the imported goods (such as when the imported goods are mixed with domestic ingredients and are no longer separately identifiable, or when the royalty cannot be distinguished from special financial arrangements between the buyer and the seller), it would be inappropriate to attempt to make an addition for the royalty. However, if the amount of this royalty is based only on the imported goods and can be readily quantified, an addition to the price actually paid or payable can be made.

Note to Article 12

Paragraph 4

For the purposes of this Article, the term "persons" includes legal person, where appropriate.

Paragraph 4(e)

For the purposes of this Schedule, one person shall be deemed to control another when the former is legally or operationally in a position to exercise restraint or direction over the latter.

CHAPTER 2

SUNDRY GENERAL PROVISIONS RELATING IN PARTICULAR TO THE RIGHTS AND OBLIGATIONS OF PERSONS WITH REGARD TO CUSTOMS ARTICLES

Section 1

Right of representation

*Article 5**

1. Under the conditions set out in Article 64 (2) and subject to the provisions adopted within the framework of Article 243(2)(b), any person may appoint a representative in his dealings with the customs authorities to perform the acts and formalities laid down by customs articles.

2. Such representation may be:

- direct, in which case the representative shall act in the name of and on behalf of another person, or
- indirect, in which case the representatives shall act in his own name but on behalf of another person.

The Comptroller may restrict the right to make customs declarations:

- by direct representation, or
- by indirect representation,

so that the representative must be a customs agent carrying on his business in Malta.

3. Save in the cases referred to in Article 64 (2) (b) and (3), a representative must be established in Malta.

4. A representative must state that he is acting on behalf of the person represented, specify whether the representation is direct or indirect and be empowered to act as a representative.

A person who fails to state that he is acting in the name of or on behalf of another person or who states that he is acting in the name of or on behalf of another person without being empowered to do so shall be deemed to be acting in his own name and on his own behalf.

*Not yet in force.

5. The Comptroller may require any person stating that he is acting in the name of or on behalf of another person to produce evidence of his powers to act as a representative.

Section 2

Decisions relating to the application of customs articles

Article 6

1. Where a person requests that the customs authorities take a decision relating to the application of customs articles that person shall supply all the information and documents required by those authorities in order to take a decision.

2. Such decision shall be taken and notified to the applicant at the earliest opportunity.

Where a request for a decision is made in writing, the decision shall be made within a period laid down in accordance with the existing provisions, starting on the date on which the said request is received by the Comptroller. Such a decision must be notified in writing to the applicant.

However, that period may be exceeded where the Comptroller is unable to comply with it. In that case, the said Comptroller shall so inform the applicant before the expiry of the abovementioned period, stating the grounds which justify exceeding it and indicating the further period of time which he considers necessary in order to give a ruling on the request.

3. Decisions adopted by the Comptroller in writing which either reject requests or are detrimental to the persons to whom they are addressed shall set out the grounds on which they are based. They shall refer to the right of appeal provided for in Article 243.

4. Provision may be made for the first sentence of paragraph 3 to apply likewise to other decisions.

Article 7

Save in the cases provided for in the second subparagraph of Article 244, decisions adopted shall be immediately enforceable by the Comptroller.

Article 8

1. A decision favourable to the person concerned shall be annulled if it was issued on the basis of incorrect or incomplete information and:

- the applicant knew or should reasonably have known that the information was incorrect or incomplete, and
- such decision could not have been taken on the basis of correct or complete information.

2. The persons to whom the decision was addressed shall be notified of its annulment.

3. Annulment shall take effect from the date on which the annulled decision was taken.

2. A decision favourable to the person concerned may be revoked where the person to whom it is addressed fails to fulfil an obligation imposed on him under that decision.

3. The person to whom the decision is addressed shall be notified of its revocation or amendment.

4. The revocation or amendment of the decision shall take effect from the date of notification. However, in exceptional cases where the legitimate interests of the person to whom the decision is addressed so require, the Comptroller may defer the date when revocation or amendment takes effect.

Article 10

Articles 8 and 9 shall be without prejudice to national rules which stipulate that decisions are invalid or become null and void for reasons unconnected with customs legislation.

Section 3

Information

Article 11

1. Any person may request information concerning the application of customs legislation from the customs authorities.

Such a request may be refused where it does not relate to an import or export operation actually envisaged.

2. The information shall be supplied to the applicant free of charge.

3. However, where special costs are incurred by the customs authorities, in particular as a result of analyses or expert reports on goods, or the return of the goods to the applicant, he may be charged the relevant amount.

Article 12

1. The Comptroller of Customs shall issue Binding Tariff Information or Binding Origin Information on written request submitted by the applicant on the

appropriate form. A separate application form shall be used for each product for which a Binding Tariff Information or a Binding Origin Information is requested.

2. The information shall be communicated in writing to the applicant as soon as possible but not later than three months from the date of the application.

3. Binding Tariff Information or Binding Origin Information shall be binding on the Customs authorities with regard to the holder of the information only in respect of the tariff classification or determination of the origin of goods.

4. Binding Tariff Information or Binding Origin Information shall be binding on the Customs authorities only for goods on which Customs formalities are completed after the date on which the information was supplied by them. In matters of origin, the formalities in question shall be those relating to the application of Articles 22 and 27. The information thus supplied will not impose any obligations on the Customs authorities with respect to customs formalities completed before the said date.

5. The holder of such information must prove that:

- for tariff purposes the goods imported correspond to those described in the Binding Tariff Information in every respect.
- for origin purposes the goods concerned and the circumstances determining the acquisition of origin correspond in every respect to the goods and the circumstances described in the Binding Origin Information.

6. Binding Information shall be valid for a period of six years in the case of tariffs and three years in the case of origin from the date of issue. By way of derogation from Article 8, it shall be annulled where it is based on inaccurate or incomplete information from the applicant.

7. Binding Information shall cease to be valid:

- in the case of tariff information:
 - (a) where a regulation is adopted and the information no longer conforms to the law laid down thereby;
 - (b) where it is no longer compatible with the interpretation of the Harmonised Commodity Description and Coding System (HS) or by reason of a classification opinion or an amendment to the Explanatory Notes to the HS adopted by the World Customs Organisation established in 1952 under the name "the Customs Cooperation Council".

In cases (a) and (b) the date on which Binding Tariff Classification Information ceases to be valid shall be the date of publication of the said measures;

- (c) where the holder is notified of its withdrawal, revocation and amendment because of further details that have been obtained and which affect such Binding Pre-entry Classification Information.
 - in the case of origin information:

(a) where a regulation is adopted or an agreement is concluded by Malta and the information no longer conforms to the law thereby laid down;

(b) where it is no longer compatible with the Agreement on Rules of Origin established in the World Trade Organisation (WTO) or with the explanatory notes or an origin opinion adopted for the interpretation of that Agreement.

In cases (a) and (b) the date on which Binding Origin Information ceases to be valid shall be the date of publication of the said measures.

(c) where it is revoked or amended in accordance with Article 9, provided that the holder has been informed in advance.

8. The holder of Binding Tariff Information which ceases to be valid pursuant to paragraph 7 items (a) and (b) may still use that information for a period of six months from the date of the publication or notification provided that he concluded a binding contract for the purchase of the goods in question, on the basis of the Binding Tariff Information issued before that tariff classification measure was adopted. The Customs authorities may extend the period of six months whenever it is felt that it is necessary and just to enable the holder to complete binding contracts entered into on the basis of the Binding Information.

9. The classification or determination of origin in a Binding information may be applied, on the conditions laid down in paragraph 8, only for the purpose of completing import or export documents.

10. Binding Information is provided free of charge. However, where costs are incurred by the Department of Customs in analysis or obtaining expert advice, these costs shall be charged to the applicant.

Article 13

The Comptroller may, in accordance with the conditions laid down by the provisions in force, carry out all the controls he deems necessary to ensure that customs legislation is correctly applied.

Article 14

For the purposes of applying customs legislation, any person directly or indirectly involved in the operations concerned for the purposes of trade in goods shall provide the Comptroller with all the requisite documents and information, irrespective of the medium used, and all the requisite assistance at his request and by any time limit prescribed.

Article 15

All information which is by nature confidential or which is provided on a confidential basis shall be covered by the obligation of professional secrecy. It shall not be disclosed by the Comptroller without the express permission of the person or authority providing it; the communication of information shall be permitted where the

Comptroller may be obliged or authorized to do so pursuant to the provisions in force, particularly in respect of data protection, or in connection with legal proceedings.

Article 16

The persons concerned shall keep the documents referred to in Article 14 for the purposes of control by the Comptroller, for the period laid down in the provisions in force and for at least six calendar years, irrespective of the medium used. That period shall run from the end of the year in which:

- (a) in the case of goods released for free circulation in circumstances other than those referred to in (b) or goods declared for export, from the end of the year in which the declarations for release for free circulation or export are accepted;
- (b) in the case of goods released for free circulation at a reduced or zero rate of import duty on account of their end-use, from the end of the year in which they cease to be subject to customs supervision;
- (c) in the case of goods placed under another customs procedure, from the end of the year in which the customs procedure concerned is completed;
- (d) in the case of goods placed in a free zone or free warehouse, from the end of the year on which they leave the undertaking concerned.

Without prejudice to the provisions of Article 221 (3), second sentence, where a check carried out by the customs authorities in respect of a customs debt shows that the relevant entry in the accounts has to be corrected, the documents shall be kept beyond the time limit provided for in the first paragraph for a period sufficient to permit the correction to be made and checked.

Article 17

Where a period, date or time limit is laid down pursuant to customs legislation for the purpose of applying legislation, such period shall not be extended and such date or time limit shall not be deferred unless specific provision is made in the legislation concerned.

Article 18

The value of the euro to be applied within the framework of customs legislation shall be the opening rate of exchange for Friday of every week. This rate shall apply during a continuous period of seven days beginning on the next following Monday, but when Friday's opening rate of exchange differs from a subsequent rate by three per centum or more the later rate shall apply for the remainder of that period:

Provided that if at any time the Central Bank does not issue a rate of exchange on any day when such rate is normally issued, the Comptroller may suspend the assessment of the value of the goods until such rate is so issued.

Without prejudice to the provisions of the proviso to the preceding subsection,

where the rate of exchange is not issued by the Central Bank of Malta on a Friday, the assessments of values for the period of seven days beginning on the next following Monday shall be determined on the rate of exchange first fixed by the Central Bank of Malta after that Friday, and where on the Monday immediately following the Friday on which the Central Bank of Malta has not issued such rate, a rate of exchange is still not issued, the Comptroller may continue to assess the value of the goods in accordance with the rate applicable for the previous week or suspend the assessment of the value of the goods until a rate is so issued.

Provided that when the said rate of exchange differs from a subsequent rate by three per centum or more, the later rate shall apply for the remainder of the period.

Article 19

The Minister shall determine in which cases and under which conditions the application of customs legislation may be simplified.

TITLE II

FACTORS ON THE BASIS OF WHICH IMPORT DUTIES OR EXPORT DUTIES AND THE OTHER MEASURES PRESCRIBED IN RESPECT OF TRADE IN GOODS ARE APPLIED

CHAPTER 1

CUSTOMS TARIFF AND TARIFF CLASSIFICATION OF GOODS

Article 20

1. Duties legally owed where a customs debt is incurred shall be based on the Customs Tariff of Malta that comprises:

- a. the harmonized system nomenclature;
- b. the national subdivisions to that nomenclature;
- c. the notes, articles and other provisions contained in the Customs Tariff of Malta.

2. The other measures prescribed by national provisions governing specific fields relating to trade in goods shall, where appropriate, be applied according to the tariff classification of those goods.

3. The notes, articles and other provisions contained in the Customs Tariff shall form an integral part thereof, and the said Tariff shall be read, construed and applied in accordance with the notes, articles and provisions aforesaid.

4. There shall be levied and collected by the Comptroller of Customs on account of the Government the import duties shown in the "Import Duty" Column of the Customs Tariff upon all goods chargeable with such duties and enumerated in the first column of the said Tariff, which are grown, produced or manufactured in countries,

other than those in the Community and which shall be imported into Malta or taken out of bond for use or consumption in Malta.

5. The import duties shown in the "Import Duty" Column shall not apply to goods which are grown, produced or manufactured in the Community and which shall be imported into Malta or taken out of bond for use or consumption in Malta provided that such goods satisfy the articles of origin as in force from time to time in accordance with any agreement between the Government of Malta and the Community;

6. Notwithstanding anything contained in subsection (4) and (5) of this article, the Comptroller of Customs may, with the concurrence of the importer, apply a flat rate of ten per cent import duty on goods of a non-commercial nature received by individual persons in consignments where the value of such goods does not exceed one hundred and sixteen euro and forty-seven cents, and on goods of a non-commercial nature imported by travellers in their luggage where the value of such goods does not exceed two hundred and thirty-two euro and ninety-four cents, in either case being goods other than spirits, tobacco or tobacco products.

7. In the computation and collection of import duty, the Comptroller may round up or down the value of the goods and the amount of duty chargeable thereon to the nearest euro.

Article 21

1. The favourable tariff treatment from which certain goods may benefit by reason of their nature or end-use shall be subject to conditions laid down by the Minister. Where an authorization is required Articles 86 and 87 shall apply.

2. For the purposes of paragraph 1, the expression "favourable tariff treatment" means a reduction in or suspension of an import duty as referred to in Article 4 (10), even within the framework of a tariff quota.

CHAPTER 2

ORIGIN OF GOODS

Section 1

Non-preferential origin

Article 22

Articles 23 to 26 define the non-preferential origin of goods for the purposes of:

- (a) applying the Customs Tariff of Malta with the exception of the measures referred to in Article 20 (5);
- (b) applying measures other than tariff measures established by national provisions governing specific fields relating to trade in goods;
- (c) the preparation and issue of certificates of origin.

Article 23

1. Goods originating in a country shall be those wholly obtained or produced in that country.
2. The expression "goods wholly obtained in a country" means:
 - (a) mineral products extracted within that country;
 - (b) vegetable products harvested therein;
 - (c) live animals born and raised therein;
 - (d) products derived from live animals raised therein;
 - (e) products of hunting or fishing carried on therein;
 - (f) products of sea-fishing and other products taken from the sea outside a country's territorial sea by vessels registered or recorded in the country concerned and flying the flag of that country;
 - (g) goods obtained or produced on board factory ships from the products referred to in subparagraph (f) originating in that country, provided that such factory ships are registered or recorded in that country and fly its flag;
 - (h) products taken from the seabed or subsoil beneath the seabed outside the territorial sea provided that that country has exclusive rights to exploit that seabed or subsoil;
 - (i) waste and scrap products derived from manufacturing operations and used articles, if they were collected therein and are fit only for the recovery of raw materials;
 - (j) goods which are produced therein exclusively from goods referred to in subparagraphs (a) to (i) or from their derivatives, at any stage of production.
3. For the purposes of paragraph 2 the expression "country" covers that country's territorial sea.

Article 24

Goods whose production involved more than one country shall be deemed to originate in the country where they underwent their last, substantial, economically justified processing or working in an undertaking equipped for that purpose and resulting in the manufacture of a new product or representing an important stage of manufacture.

Article 25

Any processing or working in respect of which it is established, or in respect of which the facts as ascertained justify the presumption, that its sole object was to circumvent the provisions applicable to goods from specific countries shall under no

circumstances be deemed to confer on the goods thus produced the origin of the country where it is carried out within the meaning of Article 24.

Article 26

1. Customs legislation or other national legislation governing specific fields may provide that a document must be produced as proof of the origin of goods.

2. Notwithstanding the production of that document, the Comptroller may, in the event of serious doubts, require any additional proof to ensure that the indication of origin does comply with the articles laid down by the relevant legislation.

Section 2

Preferential origin of goods

Article 27

The articles on preferential origin shall lay down the conditions governing acquisition of origin which goods must fulfil in order to benefit from the measures referred to in Article 20(5).

Those articles shall be determined in those agreements or in accordance with national procedure.

CHAPTER 3

VALUE OF GOODS FOR CUSTOMS PURPOSES

Article 28

The provisions of this Chapter shall determine the customs value for the purposes of applying the Customs Tariff of Malta and non-tariff measures laid down by national provisions governing specific fields relating to trade in goods.

Article 29

1. The customs value of imported goods shall be the transaction value, that is the price actually paid or payable for the goods when sold for export to Malta adjusted in accordance with the provisions of Article 32 and 33, provided:

(a) that there are no restrictions as to the disposition or use of the goods by the buyer other than restrictions which:

(i) are imposed or required by law or by the public authorities in Malta;

(ii) limit the geographical area in which the goods may be resold;

or

(iii) do not substantially affect the value of the goods;

(b) that the sale or price is not subject to some condition or consideration for which a value cannot be determined with respect to the goods being valued;

(c) that no part of the proceeds of any subsequent resale, disposal or use of the goods by the buyer will accrue directly or indirectly to the seller, unless an appropriate adjustment can be made in accordance with the provisions of Article 32; and

(d) that the buyer and seller are not related, or where the buyer and seller are related, that the transaction value is acceptable for customs purposes under the provisions of paragraph 2 of this Article.

2. (a) In determining whether the transaction value is acceptable for the purposes of paragraph 1, the fact that the buyer and the seller are related shall not in itself be grounds for regarding the transaction value as unacceptable. In such case the circumstances surrounding the sale shall be examined and the transaction value shall be accepted provided that the relationship did not influence the price. If, in the light of information provided by the importer or otherwise, the customs administration has grounds for considering that the relationship influenced the price, it shall communicate its grounds to the importer and he shall be given a reasonable opportunity to respond. If the importer so requests, the communication of the grounds shall be in writing.

(b) In a sale between related persons, the transaction value shall be accepted and the goods valued in accordance with the provisions of paragraph 1 of this Article whenever the importer demonstrates that such value closely approximates to one of the following occurring at or about the same time:

(i) the transaction value in sales to unrelated buyers of identical or similar goods for export to Malta;

(ii) the customs value of identical or similar goods as determined under the provisions of Article 30(2) (c);

(iii) the customs value of identical or similar goods as determined under the provisions of Article 30(2) (d);

In applying the foregoing tests, due account shall be taken of demonstrated differences in commercial levels, quantity levels, the elements enumerated in Article 32 and costs incurred by the seller in sales in which the seller and the buyer are not related that are not incurred by the seller in sales in which he and the buyer are related.

(c) The tests set forth in paragraph 2(b) of this Article are to be used at the initiative of the importer and only for comparison purposes. Substitute values may not be established under the provisions of paragraph 2(b) of this Article.

3. (a) The price actually paid or payable is the total payment made or to be made by the buyer to or for the benefit of the seller for the imported goods and includes all payments made or to be made as a condition of sale of the imported goods

by the buyer to the seller or by the buyer to a third party to satisfy an obligation of the seller. The payment need not necessarily take the form of a transfer of money. Payment may be made by way of letters of credit or negotiable instrument and may be made directly or indirectly.

(b) Activities, including marketing activities, undertaken by the buyer on his own account, other than those for which an adjustment is provided in Article 32, are not considered to be an indirect payment to the seller, even though they might be regarded as of benefit to the seller or have been undertaken by agreement with the seller, and their cost shall not be added to the price actually paid or payable in determining the customs value of imported goods.

Article 30

1. Where the customs value cannot be determined under Article 29, it is to be determined by proceeding sequentially through subparagraphs (a), (b), (c) and (d) of paragraph 2 to the first subparagraph under which it can be determined; it is only when such value cannot be determined under a particular subparagraph that the provisions of the next subparagraph in a sequence established by virtue of this paragraph can be applied.

2. The customs value as determined under this Article shall be:

(a) the transaction value of identical goods sold for export to Malta and exported at or about the same time as the goods being valued;

(b) the transaction value of similar goods sold for export to Malta and exported at or about the same time as the goods being valued;

(c) the value based on the unit price at which the imported goods for identical or similar imported goods are sold within Malta in the greatest aggregate quantity to persons not related to the sellers;

(d) the computed value, consisting of the sum of:

- the cost or value of materials and fabrication or other processing employed in producing the imported goods,
- an amount for profit and general expenses equal to that usually reflected in sales of goods of the same class or kind as the goods being valued which are made by producers in the country of exportation for export to Malta,
- the cost or value of the items referred to in Article 32(2).

3. Any further conditions and rules for the application of paragraph 2 above shall be determined by the Minister.

Article 31

1. Where the customs value of the imported goods cannot be determined under the provisions of Articles 29 to 30, inclusive, the customs value shall be determined using reasonable means consistent with the principles and general

provisions of the Agreement on Customs Valuation and of Article VII of the GATT 1994 and on the basis of data available in Malta.

2. No customs value shall be determined under the provisions of this Article on the basis of:

- (a) the selling price in Malta of goods produced in such country;
- (b) a system which provides for the acceptance for customs purposes of the higher of two alternative values;
- (c) the price of goods on the domestic market of the country of exportation;
- (d) the cost of production other than computed values which have been determined for identical or similar goods in accordance with the provisions of Article 30 (2)(d);
- (e) the price of the goods for export to a country other than Malta;
- (f) arbitrary or fictitious values.

Article 32

1. In determining the customs value under the provisions of Article 29, there shall be added to the price actually paid or payable for the imported goods:

- (a) the following, to the extent that they are incurred by the buyer but are not included in the price actually paid or payable for the goods:
 - (i) commissions and brokerage, except buying commissions;
 - (ii) the cost of containers which are treated as being one for customs purposes with the goods in question;
 - (iii) the cost of packing whether for labour or materials;
- (b) the value, apportioned as appropriate, of the following goods and services where supplied directly or indirectly by the buyer free of charge or at reduced cost for use in connection with the production and sale for export of the imported goods, to the extent that such value has not been included in the price actually paid or payable:
 - (i) materials, components, parts and similar items incorporated in the imported goods;
 - (ii) tools, dies, moulds and similar items used in the production of the imported goods;
 - (iii) materials consumed in the production of the imported goods;

(iv) engineering, development, artwork, design work, and plans and sketches undertaken elsewhere than in Malta and necessary for the production of the imported goods;

(c) royalties and licence fees related to the goods being valued that the buyer must pay, either directly or indirectly, as a condition of sale of the goods being valued, to the extent that such royalties and fees are not included in the price actually paid or payable;

(d) the value of any part of the proceeds of any subsequent resale, disposal or use of the imported goods that accrues directly or indirectly to the seller.

2. The following shall also be included in the customs value:

(a) the cost of transport of the imported goods to the port or place of importation;

(b) loading, unloading and handling charges associated with the transport of the imported goods to the port or place of importation; and

(c) the cost of insurance.

3. Additions to the price actually paid or payable shall be made under this Article only on the basis of objective and quantifiable data.

4. No additions shall be made to the price actually paid or payable in determining the customs value except as provided in this Article.

5. In this Chapter, the term "buying commissions" means fees paid by an importer to his agent for the service of representing him in the purchase of the goods being valued.

6. Notwithstanding paragraph 1 (c):

(a) charges for the right to reproduce the imported goods in Malta shall not be added to the price actually paid or payable for the imported goods in determining the customs value; and

(b) payments made by the buyer for the right to distribute or resell the imported goods shall not be added to the price actually paid or payable for the imported goods if such payments are not a condition of the sale for export to Malta of the goods.

Article 33

Provided that they are shown separately from the price actually paid or payable, the following shall not be included in the customs value:

(a) charges for the transport of goods after their arrival at the place of introduction into Malta;

(b) charges for construction, erection, assembly, maintenance or technical assistance, undertaken after importation of imported goods such as industrial plant, machinery or equipment;

(c) charges for interest under a financing arrangement entered into by the buyer and relating to the purchase of imported goods, irrespective of whether the finance is provided by the seller or another person, provided that the financing arrangement has been made in writing and where required, the buyer can demonstrate that:

- such goods are actually sold at the price declared as the price actually paid or payable, and

- the claimed rate of interest does not exceed the level for such transactions prevailing in the country where, and at the time when, the finance was provided;

(d) charges for the right to reproduce imported goods in Malta;

(e) buying commissions;

(f) import duties or other charges payable in Malta by reason of the importation or sale of the goods.

Article 34

Specific rules may be laid down by the Comptroller to determine the customs value of carrier media for use in data processing equipment and bearing data or instructions.

Article 35

Where the conversion of currency is necessary for the determination of the customs value, the rate of exchange to be used shall be that determined by the Central Bank of Malta in accordance with Article 18.

Article 36

1. The provisions of this chapter shall be without prejudice to the specific provisions regarding the determination of the value for customs purposes of goods released for free circulation after being assigned a different customs-approved treatment or use.

2. By way of derogation from Articles 29, 30 and 31, the customs value of perishable goods usually delivered on consignment may, at the request of the declarant, be determined under simplified rules drawn up by the Comptroller.

TITLE III**PROVISIONS APPLICABLE TO GOODS BROUGHT INTO MALTA UNTIL THEY
ARE ASSIGNED CUSTOMS-APPROVED TREATMENT OR USE****CHAPTER 1****ENTRY OF GOODS INTO MALTA***Article 37*

1. Goods brought into Malta shall, from the time of their entry, be subject to customs supervision. They may be subject to control by the customs authority in accordance with the provisions in force.

2. They shall remain under such supervision for as long as necessary to determine their customs status, if appropriate, and in the case of non-Maltese goods and without prejudice to Article 82(1), until their customs status is changed, they enter a free zone or free warehouse or they are re-exported or destroyed in accordance with Article 182.

Article 38

1. Goods brought into Malta shall be conveyed by the person bringing them into Malta without delay, by the route specified by the Comptroller and in accordance with his instructions, if any:

(a) to the customs office designated by the Comptroller or to any other place designated or approved by him; or,

(b) to a free zone, if the goods are to be brought into that free zone direct.

2. Any person who assumes responsibility for the carriage of goods after they have been brought into Malta, inter alia as a result of transshipment, shall become responsible for compliance with the obligation laid down in paragraph 1.

3. Goods which, although still outside Malta, may be subject to the control of the customs authorities of Malta under the provisions in force, as a result of inter alia an agreement concluded between Malta and another country, shall be treated in the same way as goods brought into Malta.

4. Paragraph 1(a) shall not preclude implementation of any provisions in force with respect to tourist traffic, frontier traffic, postal traffic or traffic of negligible economic importance, on condition that customs supervision and customs control possibilities are not thereby jeopardized.

5. Paragraph 1 shall not apply to goods on board vessels or aircraft crossing the territorial sea or airspace of Malta without having as their destination a port or airport situated in Malta.

Article 39

1. Where, by reason of unforeseeable circumstances or force majeure, the obligation laid down in Article 38(1) cannot be complied with, the person bound by that obligation or any other person acting in his place shall inform the Comptroller of the situation without delay. Where the unforeseeable circumstances or force majeure do not result in total loss of the goods, the Comptroller shall also be informed of their precise location.

2. Where, by reason of unforeseeable circumstances or force majeure, a vessel or aircraft covered by Article 38 (5) is forced to put into port or land temporarily in Malta and the obligation laid down in Article 38 (1) cannot be complied with, the person bringing the vessel or aircraft into Malta or any other person acting in his place shall inform the Comptroller of the situation without delay.

3. The Comptroller shall determine the measures to be taken in order to permit customs supervision of the goods referred to in paragraph 1 as well as those on board a vessel or aircraft in the circumstances specified in paragraph 2 and to ensure, where appropriate, that they are subsequently conveyed to a customs office or other place designated or approved by the Comptroller.

CHAPTER 2**PRESENTATION OF GOODS TO CUSTOMS***Article 40*

Goods which, pursuant to Article 38(1)(a), arrive at the customs office or other place designated or approved by the Comptroller shall be presented to customs by the person who brought the goods into Malta or, if appropriate, by the person who assumes responsibility for carriage of the goods following such entry.

Article 41

Article 40 shall not preclude the implementation of articles in force relating to goods:

- (a) carried by travellers;
- (b) placed under a customs procedure but not presented to customs.

Article 42

Goods may, once they have been presented to customs, and with the permission of the Comptroller, be examined or samples may be taken, in order that they may be assigned a customs-approved treatment or use. Such permission shall be granted, on request, to the person authorized to assign the goods such treatment or use.

CHAPTER 3**SUMMARY DECLARATION AND UNLOADING OF GOODS PRESENTED TO
CUSTOMS***Article 43*

Subject to Article 45, goods presented to customs within the meaning of Article 40 shall be covered by a summary declaration.

The summary declaration shall be lodged once the goods have been presented to customs. The Comptroller may, however, allow a period for lodging the declaration which shall not extend beyond the first working day following the day on which the goods are presented to customs.

Article 44

1. The summary declaration shall be made on a form corresponding to the model prescribed by the Comptroller. However, the Comptroller may permit the use, as a summary declaration, of any commercial or official document which contains the particulars necessary for identification of the goods.

2. The summary declaration shall be lodged by:

- (a) the person who brought the goods into Malta or by any person who assumes responsibility for carriage of the goods following such entry; or
- (b) the person in whose name the persons referred to in subparagraph (a) acted.

Article 45

Without prejudice to the provisions governing goods imported by travellers and consignments by letter and parcel post, the Comptroller may waive the lodging of a summary declaration on condition that this does not jeopardize customs supervision of the goods, where, prior to the expiry of the period referred to in Article 43, the formalities necessary for the goods to be assigned a customs-approved treatment or use are carried out.

Article 46

1. Goods shall be unloaded or transhipped from the means of transport carrying them solely with the permission of the Comptroller in places designated or approved by him.

However, such permission shall not be required in the event of the imminent danger necessitating the immediate unloading of all or part of the goods. In that case, the Comptroller shall be informed accordingly forthwith.

2. For the purpose of inspecting goods and the means of transport carrying them, the Comptroller may at any time require goods to be unloaded and unpacked.

Article 47

Goods shall not be removed from their original position without the permission of the Comptroller.

CHAPTER 4**OBLIGATION TO ASSIGN GOODS PRESENTED TO CUSTOMS A CUSTOMS-APPROVED TREATMENT OR USE***Article 48*

Non-Maltese goods presented to customs shall be assigned a customs-approved treatment or use authorized for such non-Maltese goods.

Article 49

1. Where goods are covered by a summary declaration, the formalities necessary for them to be assigned a customs-approved treatment or use must be carried out within:

(a) 45 days from the date on which the summary declaration is lodged in the case of goods carried by sea;

(b) 20 days from the date on which the summary declaration is lodged in the case of goods carried otherwise than by sea.

2. Where circumstances so warrant, the Comptroller may set a shorter period or authorize an extension of the periods referred to in paragraph 1. Such extension shall not, however, exceed the genuine requirements which are justified by the circumstances.

CHAPTER 5**TEMPORARY STORAGE OF GOODS***Article 50*

Until such time as they are assigned a customs-approved treatment or use, goods presented to customs shall, following such presentation, have the status of goods in temporary storage. Such goods shall hereinafter be described as "goods in temporary storage".

Article 51

1. Goods in temporary storage shall be stored only in places approved by the Comptroller under the conditions laid down by him.

2. The Comptroller may require the person holding the goods to provide security with a view to ensuring payment of any customs debt which may arise under Articles 203 or 204.

Article 52

Without prejudice to the provisions of Article 42, goods in temporary storage shall be subject only to such forms of handling as are designed to ensure their preservation in an unaltered state without modifying their appearance or technical characteristics.

Article 53

1. The Comptroller shall without delay take all measures necessary, including the sale of the goods, to regularize the situation of goods in respect of which the formalities necessary for them to be assigned a customs-approved treatment or use are not initiated within the periods determined in accordance with Article 49.

2. The Comptroller may, at the risk and expense of the person holding them, have the goods in question transferred to a special place, which is under customs supervision, until the situation of the goods is regularized.

CHAPTER 6**PROVISIONS APPLICABLE TO NON-MALTESE GOODS WHICH HAVE MOVED
UNDER A TRANSIT PROCEDURE***Article 54*

Article 38, with the exception of paragraph 1(a) thereof, and Articles 39 to 53 shall not apply when goods already placed under a transit procedure are brought into Malta.

Article 55

Once non-Maltese goods which have moved under a transit procedure reach their destination in Malta have been presented to customs in accordance with the articles governing transit, Article 42 to 53 shall apply.

CHAPTER 7**OTHER PROVISIONS***Article 56*

Where the circumstances so require, the Comptroller may have goods presented to customs destroyed. The Comptroller shall inform the holder of the goods accordingly. The costs of destroying the goods shall be borne by the holder.

Article 57

Where the Comptroller finds that goods have been brought unauthorized into Malta or have been withheld from customs surveillance, he shall take any measures necessary, including sale of the goods, in order to regularize their situation.

TITLE IV**CUSTOMS-APPROVED TREATMENT OR USE****CHAPTER 1****GENERAL***Article 58*

1. Save as otherwise provided, goods may at any time, under the conditions laid down, be assigned any customs-approved treatment or use irrespective of their nature or quantity, or their country of origin, consignment or destination.

2. Paragraph 1 shall not preclude the imposition of prohibitions or restrictions justified on grounds of public morality, public policy or public security, the protection of health and life of humans, animals or plants, the protection of national treasures possessing artistic, historic or archaeological value or the protection of industrial and commercial property.

CHAPTER 2**CUSTOMS PROCEDURES****Section 1****Placing of goods under a customs procedure***Article 59*

1. All goods intended to be placed under a customs procedure shall be covered by a declaration for that customs procedure.

2. Maltese goods declared for an export, outward processing, transit or customs warehousing procedure shall be subject to customs supervision from the time of acceptance of the customs declaration until such time as they leave Malta or are destroyed or the customs declaration is invalidated.

Article 60

Insofar as customs legislation lays down no articles on the matter, the Comptroller shall determine the competence of the various customs offices, account being taken, where applicable, of the nature of the goods and the customs procedure under which they are to be placed.

Article 61

The customs declaration shall be made:

- (a) in writing; or
- (b) using a data-processing technique where provided for by

provisions laid down in accordance with customs legislation or where authorized by the Comptroller; or

(c) by means of a normal declaration or any other act whereby the holder of the goods expresses his wish to place them under a customs procedure, where such a possibility is provided for by customs legislation.

A. Declarations in writing

I. Normal procedure

Article 62

1. Declarations in writing shall be made on a form corresponding to the official specimen prescribed for that purpose. They shall be signed and contain all the particulars necessary for implementation of the provisions governing the customs procedure for which the goods are declared.

2. The declaration shall be accompanied by all the documents required for implementation of the provisions governing the customs procedure for which the goods are declared.

Article 63

Declarations which comply with the conditions laid down in Article 62 shall be accepted by the Comptroller immediately, provided that the goods to which they refer are presented to customs.

Article 64

1. Subject to Article 5, a customs declaration may be made by any person who is able to present the goods in question or to have them presented to the competent customs authority, together with all the documents which are required to be produced for the application of the articles governing the customs procedure in respect of which the goods were declared.

2. However,

(a) where acceptance of a customs declaration imposes particular obligations on a specific person, the declaration must be made by that person or on his behalf;

(b) the declarant must be established in Malta.

However, the condition regarding establishment in Malta shall not apply to persons who:

- make a declaration for transit or temporary importation;
- declare goods on an occasional basis, provided that the Comptroller considers this to be justified.

3. Paragraph 2(b) shall not preclude the application by the Comptroller of bilateral agreements concluded with other countries, or customary practices having similar effect, under which nationals of such countries may make customs declarations in Malta, subject to reciprocity.

Article 65

The declarant shall, at his request, be authorized to amend one or more of the particulars of the declaration after it has been accepted by customs. The amendment shall not have the effect of rendering the declaration applicable to goods other than those it originally covered.

However, no amendment shall be permitted where authorization is requested after the customs authorities:

- (a) have informed the declarant that they intend to examine the goods;
- or,
- (b) have established that the particulars in question are incorrect; or,
- (c) have released the goods.

Article 66

1. The Comptroller shall, at the request of the declarant, invalidate a declaration already accepted where the declarant furnishes proof that goods were declared in error for the customs procedure covered by that declaration or that, as a result of special circumstances, the placing of the goods under the customs procedure for which they were declared is no longer justified.

Nevertheless, where the customs authorities have informed the declarant of their intention to examine the goods, a request for invalidation of the declaration shall not be accepted until after the examination has taken place.

2. The declaration shall not be invalidated after the goods have been released, except in cases defined by the Minister.

3. Invalidation of the declaration shall be without prejudice to the application of the penal provisions in force.

Article 67

Save as otherwise expressly provided, the date to be used for the purposes of all the provisions governing the customs procedure for which the goods are declared shall be the date of acceptance of the declaration by the Comptroller.

Article 68

For the verification of declarations which they have accepted, the customs authorities may:

- (a) examine the documents covering the declaration and the

documents accompanying it. The Comptroller may require the declarant to present other documents for the purpose of verifying the accuracy of the particulars contained in the declaration;

(b) examine the goods and take samples for analysis or for detailed examination.

Article 69

1. Transport of the goods to the places where they are to be examined and samples are to be taken, and all the handling necessitated by such examination or taking of samples, shall be carried out by or under the responsibility of the declarant. The costs incurred shall be borne by the declarant.

2. The declarant shall be entitled to be present when the goods are examined and when samples are taken. Where they deem it appropriate, the customs authorities shall require the declarant to be present or represented when the goods are examined or samples are taken in order to provide them with the assistance necessary to facilitate such examination or taking of samples.

3. Provided that samples are taken in accordance with the provisions in force, the Comptroller shall not be liable for payment of any compensation in respect thereof but shall bear the costs of their analysis or examination.

Article 70

1. Where only part of the goods covered by a declaration are examined, the results of the partial examination shall be taken to apply to all the goods covered by that declaration.

However, the declarant may request a further examination of the goods if he considers that the results of the partial examination are not valid as regards the remainder of the goods declared.

2. For the purposes of paragraph 1, where a declaration form covers two or more items, the particulars relating to each item shall be deemed to constitute a separate declaration.

Article 71

1. The results of verifying the declaration shall be used for the purposes of applying the provisions governing the customs procedure under which the goods are placed.

2. Where the declaration is not verified, the provisions referred to in paragraph 1 shall be applied on the basis of the particulars contained in the declaration.

Article 72

1. The customs authorities shall take the measures necessary to identify the goods where identification is required in order to ensure compliance with the conditions governing the customs procedure for which the said goods have been declared.

2. Means of identification affixed to the goods or means of transport shall be removed or destroyed only by the customs authorities or with their permission unless, as a result of unforeseeable circumstances or force majeure, their removal or destruction is essential to ensure the protection of the goods or means of transport.

Article 73

1. Without prejudice to Article 74, where the conditions for placing the goods under the procedure in question are fulfilled and provided the goods are not subject to any prohibitive or restrictive measures, the Comptroller shall release the goods as soon as the particulars in the declaration have been verified or accepted without verification. The same shall apply where such verification cannot be completed within a reasonable period of time and the goods are no longer required to be present for verification purposes.

2. All the goods covered by the same declaration shall be released at the same time.

For the purposes of this paragraph, where a declaration form covers two or more items, the particulars relating to each item shall be deemed to constitute a separate declaration.

Article 74

1. Where acceptance of a customs declaration gives rise to a customs debt, the goods covered by the declaration shall not be released unless the customs debt has been paid or secured. However, without prejudice to paragraph 2, this provision shall not apply to the temporary importation procedure with partial relief from import duties.

2. Where, pursuant to the provisions governing the customs procedure for which the goods are declared, the Comptroller requires the provision of a security, the said goods shall not be released for the customs procedure in question until such security is provided.

Article 75

Any necessary measures, including confiscation and sale, shall be taken to deal with goods which:

(a) cannot be released because:

- it has not been possible to undertake or continue examination of the goods within the period prescribed by the Comptroller for reasons attributable to the declarant; or,
- the documents which must be produced before the goods can be placed under the customs procedure requested have not been produced; or,
- payments or security which should have been made or provided in respect of import duties or export duties, as the case may be, have not been made or provided within the period prescribed; or

- they are subject to bans or restrictions;
- (b) are not removed within a reasonable period after their release.

II. Simplified procedure

Article 76

1. In order to simplify completion of formalities and procedures as far as possible while ensuring that operations are conducted in a proper manner, the Comptroller shall, under conditions laid down by the Minister, grant permission for:

(a) the declaration referred to in Article 62 to omit certain of the particulars referred to in paragraph 1 of that Article for some of the documents referred to in paragraph 2 of that Article not to be attached thereto;

(b) a commercial or administrative document, accompanied by request for the goods to be placed under the customs procedure in question, to be lodged in place of the declaration referred to in Article 62;

(c) the goods to be entered for the procedure in question by means of an entry in the records; in this case, the Comptroller may waive the requirement that the declarant presents the goods to customs.

The simplified declaration, commercial or administrative document or entry in the records must contain at least the particulars necessary for identification of the goods. Where the goods are entered in the records, the date of such entry must be included.

2. Except in cases to be determined by the Comptroller, the declarant shall furnish a supplementary declaration which may be of a general, periodic or recapitulative nature.

3. Supplementary declarations and the simplified declarations referred to in subparagraphs 1(a), (b) and (c), shall be deemed to constitute a single, indivisible instrument taking effect on the date of acceptance of the simplified declarations; in the cases referred to in subparagraph 1(c), entry in the records shall have the same legal force as acceptance of the declaration referred to in Article 62.

4. Special simplified procedures for the transit procedure shall be laid down by the Comptroller.

B. Other declarations

Article 77

1. Where the customs declaration is made by means of a data-processing technique within the meaning of Article 61(b), or by an oral declaration or any other act within the meaning of Article 61(c), Articles 62 to 76 shall apply *mutatis mutandis* without prejudice to the principles set out therein.

2. Where the customs declaration is made by means of a data-processing

technique, the Comptroller may allow accompanying documents referred to in Article 62(2) not to be lodged with the declaration. In this case the documents shall be kept at the Comptroller's disposal.

C. Post-clearance examination of declarations

Article 78

1. The customs authorities may, on their own initiative or at the request of the declarant, amend the declaration after release of the goods.

2. The customs authorities may, after releasing the goods and in order to satisfy themselves as to the accuracy of the particulars contained in the declaration, inspect the commercial documents and data relating to the import or export operations in respect of the goods concerned or to subsequent commercial operations involving those goods. Such inspections may be carried out at the premises of the declarant, of any other person directly or indirectly involved in the said operations in a business capacity or of any other person in possession of the said document and data for business purposes. Those authorities may also examine the goods where it is still possible for them to be produced.

3. Where revision of the declaration or post-clearance examination indicates that the provisions governing the customs procedure concerned have been applied on the basis of incorrect or incomplete information, the customs authorities shall, in accordance with any provisions laid down, take the measures necessary to regularize the situation, taking account of the new information available to them.

4. When it is deemed necessary that officials from other Government Departments participate in post clearance inspections the provisions in this section shall apply also to those officials.

Section 2

Release for free circulation

Article 79

Release for free circulation shall confer on non-Maltese goods the customs status of Maltese goods.

It shall entail application of commercial policy measures, completion of the other formalities laid down in respect of the importation of goods and the charging of any duties legally due.

Article 80

1. By way of derogation from Article 67, provided that the import duty chargeable on the goods is one of the duties referred to in Article 4 (10) and that the rate of duty is reduced after the date of acceptance of the declaration for release for free circulation but before the goods are released, the declarant may request application of the more favourable rate.

2. Paragraph 1 shall not apply where it has not been possible to release the goods for reasons attributable to the declarant alone.

Article 81

Where a consignment is made up of goods falling within different tariff classifications, and dealing with each of those goods in accordance with its tariff classification for the purpose of drawing up the declaration would entail a burden of work and expense disproportionate to the import duties chargeable, the Comptroller may, at the request of the declarant, agree that import duties be charged on the whole consignment on the basis of the tariff classification of the goods which are subject to the highest rate of import duty.

Article 82

1. Where goods are released for free circulation at a reduced or zero rate of duty on account of their end-use, they shall remain under customs supervision. Customs supervision shall end when the conditions laid down for granting such a reduced or zero rate of duty cease to apply, where the goods are exported or destroyed or where the use of the goods for purposes other than those laid down for the application of the reduced or zero rate of duty is permitted subject to payment of the duties due.

2. Articles 88 and 90 shall apply *mutatis mutandis* to the goods referred to in paragraph 1.

Article 83

Goods released for free circulation shall lose their customs status as Maltese goods where:

(a) the declaration for release for free circulation is invalidated after release, or

(b) the imported duties payable on those goods are repaid or remitted:

- under the inward processing procedure in the form of the drawback system;

or

- in respect of defective goods or goods which fail to comply with the terms of the contract, pursuant to Article 238; or

- in situations of the type referred to in Article 239 where repayment or remission is conditional upon the goods being exported or re-exported or being assigned an equivalent customs-approved treatment or use.

Section 3

SUSPENSIVE ARRANGEMENTS AND CUSTOMS PROCEDURES WITH
ECONOMIC IMPACT

A. Provisions common to several procedures

Article 84

1. In Articles 85 to 90:

(a) In the case of non-Maltese goods the term "procedure" applies to the following arrangements:

- external transit
- customs warehousing;
- inward processing in the form of a system of suspension;
- processing under customs control;
- temporary importation;

(b) Where the term "customs procedure with economic impact" is used, it applies to the following arrangements:

- customs warehousing;
- inward processing;
- processing under customs control;
- temporary importation
- outward processing;

2. "Import goods" means goods placed under a "suspensive procedure" and goods which, under the inward processing procedure in the form of the drawback system, have undergone the formalities for release for free circulation and the formalities provided for in Article 125.

3. "Goods in the unaltered state" means import goods which, under the inward processing procedure or the procedures for processing under customs control, have undergone no form of processing.

4. "Suspensive arrangement" means an arrangement applied to the production, processing, holding and movement of products, while import duty and other import charges are suspended.

5. "Commercial policy measures" includes tariff or non-tariff measures other than import duties and other import/export charges applicable to customs procedures.

Article 85

Unless otherwise provided, the use of any customs procedure with economic impact shall be conditional upon authorisation being issued by the Comptroller.

Article 86

Without prejudice to the additional special conditions governing the procedure in question, the authorisation referred to in Article 85 and that referred to in Article 100 (1) shall be granted only:

- to persons who offer every guarantee necessary for the proper conduct of operations;
- where the Comptroller can supervise and monitor the procedure without having to introduce administrative arrangements disproportionate to the economic needs involved.

Article 87

1. The conditions under which the procedure in question is used shall be set out in the authorisation.

2. The holder of the authorisation shall notify the Comptroller of all factors arising after the authorisation was granted which may influence its continuation or content.

Article 87A

Any products or goods obtained from goods placed under a suspensive arrangement shall be considered as being placed under the same arrangement.

Article 88

The Comptroller or the Minister, as the case may be, may make the placing of goods under a suspensive arrangement conditional upon the provision of security in order to ensure that any customs duties and other import/export charges which may be incurred in respect of those goods will be paid.

Special provisions concerning the provision of security may be laid down in the context of a specific suspensive arrangement.

Article 89

1. A suspensive arrangement with economic impact shall be discharged when a new customs-approved treatment or use is assigned either to the goods placed under that arrangement or to compensating or processed products placed under it.

2. The Comptroller shall take all the measures necessary to regularise the position of goods in respect of which a procedure has not been discharged under the conditions prescribed.

Article 90

The rights and obligations of the holder of a customs procedure with economic impact may, on the conditions laid down by the Comptroller, be transferred successively to other persons who fulfil any conditions laid down in order to benefit from the procedure in question.

B. External transit

I. General provisions

Article 91

1. The external transit procedure shall allow the movement from one point to another within the customs territory of Malta of:

(a) non-Maltese goods, without such goods being subject to import duties and other charges or to commercial policy measures;

(b) Maltese goods, in cases and on conditions determined by the Comptroller, in order to prevent products covered by or benefiting from export measures from either evading or benefiting unjustifiably from such measures.

2. Movement as referred to in paragraph 1 shall take place:

(a) under the external transit procedure; or

(b) under cover of a TIR carnet (TIR Convention) provided that such movement:

(1) began or is to end outside Malta; or

(2) relates to consignments of goods which must be unloaded in Malta and which are conveyed with goods to be unloaded in another country;

(3) is effected between two points in Malta through the territory of another country.

(c) under cover of an ATA carnet used as a transit document;

(d) by post (including parcel post).

3. The external transit procedure shall apply without prejudice to the specific provisions applicable to the movement of goods placed under a customs procedure with economic impact.

Article 92

1. The external transit procedure shall end when the goods and the corresponding documents are produced at the customs office of destination in accordance with the provisions of the procedure in question.

2. The Comptroller shall discharge the procedure when he is in a position to establish on the basis of the data available that the procedure has ended correctly.

II. Specific provisions relating to external transit

Article 93

The external transit procedure shall apply to goods passing through the territory of another country only if:

- (a) provision is made to that effect under an international agreement;
- or
- (b) carriage through that country is effected under cover of a single transport document drawn up in Malta; in such case the operation of that procedure shall be suspended in the territory of the other country.

Article 94

1. The principal shall provide a guarantee in order to ensure payment of any customs debt or other charges which may be incurred in respect of the goods.

2. The guarantee shall be either:

- (a) an individual guarantee covering a single transit operation; or
- (b) a comprehensive guarantee covering a number of transit operations where the principal has been authorised to use such a guarantee by the Comptroller.

3. The authorisation referred to in paragraph 2(b) shall be granted only to persons who:

- (a) are established in Malta;
- (b) are regular users of transit procedures or who are known to the customs authorities to have the capacity to fulfil their obligations in relation to these procedures, and
- (c) have not committed serious or repeated offences against customs or tax laws.

4. Persons who satisfy the Comptroller that they meet higher standards of reliability may be authorised to use a comprehensive guarantee for a reduced amount or have a guarantee waiver. The additional criteria for this authorisation shall include:

- (a) the correct use of the transit procedures during a given period;
- (b) cooperation with the customs authorities, and
- (c) in respect of the guarantee waiver, a good financial standing which

is sufficient to fulfil the commitments of the said persons.

The detailed rules for authorisations granted under this paragraph shall be determined by the Comptroller.

5. The guarantee waiver authorised in accordance with paragraph 4 shall not apply to external transit operations involving goods which, as determined by the Comptroller, are considered to present increased risks.

6. In line with the principles underlying paragraph 4, recourse to the comprehensive guarantee may, in the case of external transit, be temporarily prohibited by the Comptroller as an exceptional measure in special circumstances.

7. In line with the principles underlying paragraph 4, recourse to the comprehensive guarantee may, in the case of external transit, be temporarily prohibited by the Comptroller in respect of goods which, under the comprehensive guarantee, have been identified as being subject to large-scale fraud.

Article 95

Except in cases to be determined where necessary by the Comptroller, no guarantee need be furnished for:

- (a) journeys by air;
- (b) carriage by pipeline.

Article 96

1. The principal shall be the person responsible under the external transit procedure. He shall be responsible for:

- (a) production of the goods intact at the customs office of destination by the prescribed time limit and with due observance of the measures adopted by the customs authorities to ensure identification;
- (b) observance of the provisions relating to the transit procedure.

2. Notwithstanding the principal's obligations under paragraph 1, a carrier or recipient of goods who accepts goods knowing that they are moving under transit shall also be responsible for production of the goods intact at the customs office of destination by the prescribed time limit and with due observance of the measures adopted by the customs authorities to ensure identification.

Article 97

1. The detailed rules for the operation of the procedure and the exemptions shall be determined by the Comptroller.

2. Provided that the implementation of measures applying to goods is guaranteed, the Minister shall have the right, by bi-lateral or multilateral arrangement, to establish with other countries simplified procedures consistent with criteria to be set

according to the circumstances and applying to certain types of goods traffic or specific undertakings.

C. Customs Warehouses

Article 98

1. The customs warehousing procedure shall allow the storage in a customs warehouse of:

(a) non-Maltese goods, without such goods being subject to import duties or commercial policy measures;

(b) Maltese goods, where Maltese legislation governing specific fields provides that their being placed in a customs warehouse shall attract the application of measures normally attaching to the export of such goods.

2. "Customs warehouse" means any place approved by the Minister and under the supervision of the Comptroller where goods may be stored under the conditions laid down by the Minister.

3. Cases in which the goods referred to in paragraph 1 may be placed under the customs warehousing procedure without being stored in a customs warehouse shall be determined in accordance with the procedure established by the Comptroller.

Article 99

A customs warehouse may be either a public warehouse or a private warehouse.

"Public warehouse" means a customs warehouse available for use by any person for the warehousing of goods;

"Private warehouse" means a customs warehouse reserved for the warehousing of goods by the warehousekeeper.

The warehousekeeper is the person authorised to operate the customs warehouse.

The depositor shall be the person bound by the declaration placing the goods under the customs warehousing procedure or to whom the rights and obligations of such a person have been transferred.

Article 100

1. Operation of a customs warehouse shall be subject to the issue of an authorisation by the Minister, unless the Customs authorities operate the customs warehouse themselves.

2. Any person wishing to operate a customs warehouse must make a request in writing containing the information required for granting the authorisation, in particular demonstrating that an economic need for warehousing exists. The authorisation shall lay down the conditions for operating the customs warehouse.

3. The authorisation shall be issued only to persons established in Malta.

Article 101

The warehousekeeper shall be responsible for:

- (a) ensuring that while the goods are in the customs warehouse they are not removed from customs supervision;
- (b) fulfilling the obligations that arise from the storage of goods covered by the customs warehousing procedure; and
- (c) complying with the particular conditions specified in the authorisation.

Article 102

1. By way of derogation from Article 101, where the authorisation concerns a public warehouse, it may provide that the responsibilities referred to in Article 101(a) and/or (b) devolve exclusively upon the depositor.
2. The depositor shall at all times be responsible for fulfilling the obligations arising from the placing of goods under the customs warehousing procedure.

Article 103

The rights and obligations of a warehousekeeper may, with the agreement of the Comptroller, be transferred to another person.

Article 104

Without prejudice to Article 88, the Comptroller may demand that the warehousekeeper provide a guarantee in connection with the responsibilities specified in Article 101.

Article 105

A person designated by the Comptroller shall keep stock records of all the goods placed under the customs warehousing procedure in a form approved by the said Comptroller. Stock records are not necessary where a public warehouse is operated by the Comptroller.

Subject to the application of Article 86 the Comptroller may dispense with stock records where the responsibilities referred to in Article 101(a) and/or (b) lie exclusively with the depositor and the goods are placed under that procedure on the basis of a written declaration forming part of the normal procedure or an administrative document in accordance with Article 76 (1)(b).

Article 106

1. Where an economic need exists and customs supervision is not adversely affected thereby, the Comptroller may allow:

(a) Maltese goods other than those referred to in Article 98(1)(b) to be stored on the premises of a customs warehouse;

(b) non-Maltese goods to be processed on the premises of a customs warehouse under the inward processing procedure, subject to the conditions provided for by that procedure. The formalities which may be dispensed with in a customs warehouse shall be determined in accordance with the procedure established by the Comptroller;

(c) non-Maltese goods to be processed on the premises of a customs warehouse under the procedure for processing under customs control, subject to the conditions provided for by that procedure. The formalities which may be dispensed with in a customs warehouse shall be determined in accordance with the procedure established by the Comptroller.

2. In the cases referred to in paragraph 1, the goods shall not be subject to the customs warehousing procedure.

3. The Comptroller may require the goods referred to in paragraph 1 to be entered in the stock records provided for in Article 105.

Article 107

Goods placed under the customs warehousing procedure shall be entered in the stock records provided for in Article 105 as soon as they are brought into the customs warehouse.

Article 108

There shall be no limit to the length of time goods may remain under the customs warehousing procedure.

However, in exceptional cases, the Comptroller may set a time limit by which the depositor must assign the goods a new customs-approved treatment or use.

Article 109

1. Import goods may undergo the usual forms of handling intended to preserve them, improve their appearance or marketable quality or prepare them for distribution or resale.

2. The forms of handling provided for in the first paragraph must be authorised in advance by the Comptroller, who shall lay down the conditions under which they may take place.

3. The lists of the forms of handling referred to in paragraph 1 are provided for in Annex B to the Customs Code, and may be amended by the Minister.

Article 110

1. Where circumstances so warrant, goods placed under the customs warehousing procedure may be temporarily removed from the customs warehouse.

Such removal must be authorised in advance by the Comptroller, who shall stipulate the conditions on which it may take place.

2. While they are outside the customs warehouse the goods may undergo the forms of handling referred to in Article 109 on the conditions set out therein.

Article 111

The Comptroller may allow goods placed under the customs warehousing procedure to be transferred from one customs warehouse to another.

Article 112

1. Where a customs debt is incurred in respect of import goods and the customs value of such goods is based on a price actually paid or payable which includes the cost of warehousing and of preserving goods while they remain in the warehouse, such costs need not be included in the customs value if they are shown separately from the price actually paid or payable for the goods.

2. Where the said goods have undergone the usual forms of handling within the meaning of Article 109, the nature of the goods, the customs value and the quantity to be taken into account in determining the amount of import duties shall, at the request of the declarant, be those which would be taken into account for the goods, at the time referred to in Article 214, if they had not undergone such handling. However, derogations from this provision may be adopted by the Comptroller.

3. Where import goods are released for free circulation in accordance with Article 76(1)(c), the nature of the goods, the customs value and the quantity to be taken into account for the purposes of Article 214 shall be those applicable to goods at the time when they are placed under the customs warehousing procedure.

The first subparagraph shall apply provided that the rules of assessment relating to those goods were ascertained or accepted at the time when the goods were placed under the customs-warehousing procedure, unless the declarant requests their application at the time when the customs debt is incurred.

Article 113

The provisions of the first subparagraph of Article 112 (3) are without prejudice to a post-clearance examination within the meaning of Article 78.

D. Inward Processing

I. General

Article 114

1. Without prejudice to Article 115, the inward processing procedure shall allow the following goods to be used in Malta in one or more processing operations:

(a) Non-Maltese goods intended for re-export from Malta in the form of compensating products, without such goods being subject to import duties or

commercial policy measures;

(b) Goods released for free circulation with repayment or remission of the import duties chargeable on such goods if they are exported from Malta in the form of compensating products.

2. The following expressions shall have the following meanings:

(i) "suspension system": the inward processing relief arrangements as provided for in paragraph 1(a);

(ii) "drawback system": the inward processing relief arrangements as provided for in paragraph 1(b);

(iii) "processing operations":

- the manufacturing of goods including erecting and assembling them or fitting them to other goods;
- the processing of goods;
- the repair of goods, including restoring them and putting them in order;

and

- the use of certain goods which are not to be found in the compensating products, but which allow or facilitate the production of those products, even if they are entirely or partially used up in the process.

(iv) "compensating products": all products resulting from processing operations;

(v) "equivalent goods": Maltese goods which are used instead of the import goods for the manufacture of compensating products;

(vi) "rate of yield": the quantity or percentage of compensating products obtained from the processing of a given quantity of import goods.

Article 115

1. Where the conditions laid down in paragraph 2 of this Article are fulfilled, and subject to paragraph 4 hereof, the Comptroller shall allow:

(a) compensating products to be obtained from equivalent goods;

(b) compensating products obtained from equivalent goods to be exported from Malta before importation of the import goods.

2. Equivalent goods must be of the same quality and have the same characteristics as the import goods. However, in specific cases as may be determined by the Comptroller, equivalent goods may be allowed to be at a more advanced stage of manufacture than the import goods.

3. Where paragraph 1 of this Article applies, the import goods shall be regarded for customs purposes as equivalent goods and the latter as import goods.

4. Measures aimed at prohibiting, imposing certain conditions for or facilitating recourse to paragraph 1 may be adopted by the Comptroller.

5. Where subparagraph 1(b) of this Article is applied and the compensating products would be liable to export duties if they were not being exported or re-exported under an inward processing operation, the holder of the authorization shall provide a security to ensure payment of the duties should the import goods not be imported within the period prescribed.

II. Grant of the authorisation

Article 116

The application for the Comptroller's authorisation to use the inward processing procedure shall be made by the person who carries out the processing operations or who arranges for them to be carried out.

Article 117

The authorisation shall be granted only:

(a) to persons established in Malta. However, the authorisation may be granted to persons established outside Malta in respect of imports of a non-commercial nature;

(b) where, without prejudice to the use of the goods referred to in the last indent of Article 114(2)(iii) under "processing operations",

(i) the import goods can be identified in the compensating products or,

(ii) in the case referred to in Article 115, where compliance with the conditions laid down in respect of equivalent goods can be verified;

(c) where the inward processing procedure can help create the most favourable conditions for the export or re-export of compensating products, provided that the essential interests of Maltese producers are not adversely affected. The cases in which the economic conditions are deemed to have been fulfilled may be determined by the Comptroller.

III. Operation of the procedure

Article 118

1. The Comptroller shall specify the period within which the compensating products must be exported or re-exported or assigned another customs-approved treatment or use. That period shall take account of the time required to carry out the processing operations and dispose of the compensating products.

2. The period shall run from the date on which the non-Maltese goods are placed under the inward processing procedure. The Comptroller may grant an extension on submission of a duly substantiated request by the holder of the authorization.

For reasons of simplification, it may be decided that a period which commences in the course of a calendar month or quarter shall end on the last day of a subsequent calendar month or quarter respectively.

3. Where Article 115(1)(b) applies, the Comptroller shall specify the period within which the non-Maltese goods must be declared for the procedure. That period shall run from the date of acceptance of the export declaration relating to the compensating products obtained from the corresponding equivalent goods.

4. Specific time limits may be laid down as approved by the Comptroller for certain processing operations or for certain import goods.

Article 119

1. The Comptroller shall set either the rate of yield of the operation, or where appropriate, the method of determining such rate. The rate of yield shall be determined on the basis of the actual circumstances in which the processing operation is, or is to be, carried out.

2. Where circumstances so warrant and, in particular, in the case of processing operation customarily carried out under clearly defined technical conditions involving goods of substantially uniform characteristics and resulting in the production of compensating products of uniform quality, standard rates of yield may be set as determined by the Comptroller on the basis of actual data previously ascertained.

Article 120

The cases in which and the conditions under which goods in the unaltered state or compensating products shall be considered to have been released for free circulation may be determined by the Comptroller.

Article 121

Subject to Article 122, where a customs debt is incurred, the amount of such debt shall be determined on the basis of the taxation elements appropriate to the import goods at the time of acceptance of the declaration of placing of these goods under the inward processing procedure.

Article 122

By way of derogation from Article 121, compensating products:

(a) shall be subject to import duties calculated in accordance with the rules applicable to the customs procedure in question or to free zones or free warehouses where they have been placed under a suspensive arrangement or in a free zone or free warehouse;

However,

- the person concerned may request that duty be assessed in accordance with Article 121;

- in cases where the compensating products have been assigned a customs-approved treatment or use referred to above other than processing under customs control, the amount of the import duty levied shall be at least equal to the amount calculated in accordance with Article 121;

- (b) the Comptroller may subject compensating products to the articles governing assessment of duty laid down under the procedure for processing under customs control - which procedure is provided for in Article 130 - where the import goods could have been placed under that procedure;

- (c) shall enjoy favourable tariff treatment owing to the special use for which they are intended, where provision is made for such treatment in the case of identical imported goods;

- (d) shall be admitted free of import duty where such duty-free provision is made in the case of identical goods imported in accordance with Article 184.

IV. Processing operations outside Malta

Article 123

1. Some or all of the compensating products or goods in the unaltered state may be temporarily exported for the purpose of further processing outside Malta if the Comptroller so authorizes, in accordance with the conditions laid down in the outward processing provisions, as provided for in the outward processing provisions.

2 Where a customs debt becomes due in respect of products re-imported after processing outside Malta, the following shall be charged:

- (a) import duties on the compensating products or goods in the unaltered state referred to in paragraph 1 of this Article, calculated in accordance with Articles 121 and 122; and

- (b) import duties on products re-imported after processing outside Malta, the amount of which shall be calculated in accordance with the provisions relating to the outward processing procedure, on the same conditions as would have applied had the products exported under the latter procedure been released for free circulation before such export took place.

V. Special provisions relating to the drawback system

Article 124

1. The drawback system may be used for all goods. It shall not, however, be usable where, at the time the declaration of release for free circulation is accepted:

- the import goods are subject to quantitative import restrictions,

- a tariff measure within quotas is applied to the import goods,
- an export refund or tax has been set for the compensating products.

2. Moreover, no reimbursement of import duties under the drawback system shall be possible if, at the time the export declaration for the compensating products is accepted, these products are subject to an export refund or tax which has been set for them.

3. Derogations from paragraph 1 and 2 may be laid down by the Comptroller.

Article 125

1. The declaration of release for free circulation shall indicate that the drawback system is being used and shall provide particulars of the authorization.

2. At the request of the Comptroller, the said authorization shall be attached to the declaration of release for free circulation.

Article 126

Under the drawback system, Article 115(1)(b), (3) and (5), Article 118(3), Articles 120, 121 and 129 shall not apply.

Article 127

Temporary exportation of compensating products carried out as provided for in Article 123 (1) shall not be considered to be exportation within the meaning of Article 128 except where such products are not re-imported into Malta within the period prescribed in the authorisation.

Article 128

1. The holder of the authorization may ask for the import duty to be repaid or remitted where he can establish to the satisfaction of the Comptroller that import goods released for free circulation under the drawback system in the form of compensating products or goods in the unaltered state have been either:

- exported; or
- placed, with a view to being subsequently re-exported, under the transit procedure, the customs warehousing procedure, the temporary importation procedure or the inward processing procedure (suspensive arrangement), or in a free zone or free warehouse,

provided that all conditions for use of the procedure have also been fulfilled.

2. For the purposes of being assigned a customs-approved treatment or use referred to in the second indent of paragraph 1, compensating products or goods in the unaltered state shall be considered to be non-Maltese goods.

3. The period within which the application for repayment must be made shall

be determined by the Comptroller.

4. Without prejudice to point (a) of Article 122, where compensating products or goods in the unaltered state placed under a customs procedure or in a free zone or free warehouse in accordance with paragraph 1 are released for free circulation, the amount of import duties repaid or remitted shall be considered to constitute the amount of the customs debt.

VI. Other Provisions

Article 129

The inward processing procedure, applying the suspension system shall also apply in order that the compensating products may qualify for exemption from the export duties to which identical products obtained from Maltese goods instead of import goods would be liable.

E. Processing under customs control

Article 130

The procedure for processing under customs control shall allow non-Maltese goods to be used in Malta in operations which alter their nature or state, without their being subject to import duties or commercial policy measures, and shall allow the products resulting from such operations to be released for free circulation at the rate of import duty appropriate to them. Such products shall be termed processed products.

Article 131

Annex A to the Customs Code lists the cases in which the procedure for processing under customs control may be used.

Article 132

The application for the Comptroller's authorisation for processing under customs control shall be made by the person who carries out the processing or arranges for it to be carried out.

Article 133

Authorization shall be granted only:

- (a) to persons established in Malta;
- (b) where the import goods can be identified in the processed products;
- (c) where the goods cannot be economically restored after processing to their description or state as it was when they were placed under the procedure;
- (d) where use of the procedure cannot result in circumvention of the effect of the articles concerning origin and quantitative restrictions applicable to

the imported goods;

(e) where the necessary conditions for the procedure to help create or maintain a processing activity in Malta without adversely affecting the essential interests of Maltese producers of similar goods are fulfilled. The cases in which the economic conditions are deemed to have been fulfilled may be determined by the Comptroller.

Article 134

Article 118 (1), (2) and (4) and Article 119 shall apply mutatis mutandis.

Article 135

Where a customs debt becomes due in respect of goods in the unaltered state or of products that are at an intermediate stage of processing as compared with that provided for in the authorization, the amount of that debt shall be determined on the basis of the items of charge elements appropriate to the import goods at the time of acceptance of the declaration relating to the placing of the goods under the procedure for processing under customs control.

Article 136

Where the import goods qualified for favourable tariff treatment when they were placed under the procedure for processing under customs control, and such favourable tariff treatment is applicable to products identical to the processed products released for free circulation, the import duties to which the processed products are subject shall be calculated by applying the rate of duty applicable under that treatment.

F. Temporary importation

Article 137

The temporary importation procedure shall allow the use in Malta, with total or partial relief from import duties and without their being subject to commercial policy measures, of non-Maltese goods intended for re-export without having undergone any change except normal depreciation due to the use made of them.

Article 138

Authorization for temporary importation shall be granted by the Comptroller at the request of the person who uses the goods or arranges for them to be used.

Article 139

The Comptroller shall refuse to authorize use of the temporary importation procedure where it is impossible to ensure that the import goods can be identified.

However, the Comptroller may authorize use of the temporary importation procedure without ensuring that the goods can be identified where, in view of the nature of the goods or of the operations to be carried out, the absence of identification measures is not liable to give rise to any abuse of the procedure.

Article 140

1. The Comptroller shall determine the period within which import goods must have been re-exported or assigned a new customs-approved treatment or use. Such period must be long enough for the objective of authorized use to be achieved.

2. Without prejudice to the special periods laid down in accordance with Article 141, the maximum period during which goods may remain under the temporary importation procedure shall be 24 months. The Comptroller may, however, determine shorter periods with the agreement of the person concerned.

3. However, where exceptional circumstances so warrant, the Comptroller may, at the request of the person concerned and within reasonable limits, extend the periods referred to in paragraphs 1 and 2 in order to permit the authorized use.

Article 141

The case and the special conditions under which the temporary importation procedure may be used with total relief from import duties shall be determined by the Comptroller.

Article 142

1. Use of the temporary importation procedure with partial relief from import duties shall be granted in respect of goods which are not covered by the provisions adopted in accordance with Article 141 or which are covered by such provisions but do not fulfil the conditions laid down therein for the grant of temporary importation with total relief.

2. The list of goods in respect of which the temporary importation procedure with partial relief from import duties may not be used shall be drawn up by the Comptroller.

Article 143

1. The amount of import duties payable in respect of goods placed under the temporary importation procedure with partial relief from import duties shall be set at 3%, for every month or fraction of a month during which the goods have been placed under the temporary importation procedure with partial relief, of the amount of duties which would have been payable on the said goods had they been released for free circulation on the date on which they were placed under the temporary importation procedure.

2. The amount of import duties to be charged shall not exceed that which would have been charged if the goods concerned had been released for free circulation on the date on which they were placed under the temporary importation procedure, leaving out of account any interest which may be applicable.

3. Transfer of the rights and obligations deriving from the temporary importation procedure pursuant to Article 90 shall not mean that the same relief arrangements must be applied to each of the periods of use to be taken into

consideration.

4. Where the transfer referred to in paragraph 3 is made with partial relief for both persons authorized to use the procedure during the same month, the holder of the initial authorization shall be liable to pay the amount of import duties due for the whole of that month.

Article 144

1. Where a customs debt is incurred in respect of import goods, the amount of such debt shall be determined on the basis of the taxation elements appropriate to those goods at the time of acceptance of the declaration of their placing under the temporary importation procedure. However, where the provisions of Article 141 so provide, the amount of the debt shall be determined on the basis of the taxation elements appropriate to the goods in question at the time referred to in Article 214.

2. Where, for a reason other than the placing of goods under the temporary importation procedure with partial relief from import duties, customs debt is incurred in respect of goods placed under the said procedure, the amount of that duty shall be equal to the difference between the amount of debt calculated pursuant to paragraph 1 and that payable pursuant to Article 143.

G. Outward Processing

I. General

Article 145

1. The outward processing procedure shall, without prejudice to the provisions governing specific fields relating to the standard exchange system laid down in Articles 154 to 159 or to Article 123, allow Maltese goods to be exported temporarily from Malta in order to undergo processing operations and the products resulting from these operations to be released for free circulation with total or partial relief from import duties.

2. Temporary exportation of Maltese goods shall entail the application of export duties, commercial policy measures and other formalities for the exit of Maltese goods from Malta.

3. In these Articles, unless the context otherwise requires:

"temporary export goods" means goods placed under the outward processing procedure;

"processing operations" means the operations referred to in Article 114(2)(iii), first, second and third indents;

"compensating products" means all products resulting from processing operations;

"rate of yield" means the quantity or percentage of compensating products obtained from the processing of a given quantity of temporary export goods.

Article 146

1. The outward processing procedure shall not be open to Maltese goods:
 - whose export gives rise to repayment or remission of import duties,
 - which, prior to export, were released for free circulation with total relief from import duties by virtue of end use, for as long as the conditions for granting such relief continue to apply.
2. However, derogations from the second indent of paragraph 1 may be determined by the Comptroller.

II. Grant of the authorisation

Article 147

1. The application for the Comptroller's authorisation for the use of the Outward Processing Procedure shall be made by the person who arranges for the processing operations to be carried out.
2. Without prejudice to Article 147(1), authorization to use the outward processing procedure may also be granted by the Comptroller to another person other than that referred to in Paragraph 1 in respect of goods of Maltese origin within the meaning of Title II, Chapter 2, Section 1, where the processing operation consists in incorporating those goods into goods obtained outside Malta and imported as compensating products, provided that use of the procedure helps to promote the sale of export goods without adversely affecting the essential interests of Maltese producers of products identical or similar to the imported compensating products.

The cases in which and the arrangements under which the preceding subparagraph shall apply shall be determined by the Comptroller.

Article 148

Authorisation shall be granted only:

- (a) to persons established in Malta;
- (b)
 - (i) where it is considered that it will be possible to establish that the compensating products have resulted from processing of the temporary export goods.
 - (ii) the cases in which derogations from subparagraph b(i) may apply and the conditions under which such derogations shall apply shall be determined by the Comptroller;
- (c) where authorization to use the outward processing procedure is not liable to seriously harm the essential interests of Maltese producers (economic conditions).

III. Operation of the procedure

Article 149

1. The Comptroller shall specify the period within which the compensating products must be imported into Malta. He may extend that period on submissions of a duly substantiated request by the holder of the authorization.

2. The Comptroller shall set either the rate of yield of the operation or, where necessary, the method of determining that rate.

Article 150

1. The total or partial relief from import duties provided for in Article 151 (1) shall be granted only where the compensating products are declared for release for free circulation in the name of or on behalf of;

(a) the holder of the authorization,

or

(b) any other person established in Malta provided that person has obtained the consent of the holder of the authorization and the conditions of the authorization are fulfilled.

2. The total or partial relief from import duties provided for in Article 151 shall not be granted where one of the conditions or obligations relating to the outward processing procedure is not fulfilled, unless it is established that the failures have no significant effect on the correct operation of the said procedure.

Article 151

1. The total or partial relief from import duties provided for in Article 145 shall be effected by deducting from the amount of the import duties applicable to the compensating products released for free circulation the amount of the import duties that would be applicable on the same date to the temporary export goods if they were imported into Malta from the country in which they underwent the processing operation or last processing operation.

2. The amount to be deducted pursuant to paragraph (1) of this Article shall be calculated on the basis of the quantity and nature of the goods in question on the date of acceptance of the declaration placing them under the outward processing procedure and on the basis of the other items of charge applicable to them on the date of acceptance of the declaration relating to the release for free circulation of the compensating products.

3. The value of the temporary export goods shall be that taken into account for those goods in determining the customs value of the compensating products in accordance with Article 32 (1)(b)(i) or, if the value cannot be determined in that way, the difference between the customs value of the compensating products and the processing costs determined by reasonable means.

4. However

- loading, transport and insurance costs incurred in moving the temporary export goods from Malta to the processors premises shall not be taken into account in calculating the amount to be deducted;

- where, prior to being placed under the outward processing procedure, the temporary export goods were released for free circulation at a reduced rate by virtue of their end use, and for as long as the conditions for granting the reduced rate continue to apply, the amount to be deducted shall be the amount of import duties actually levied when the goods were released for free circulation.

5. Where temporary export goods could qualify on their release for free circulation for a reduced or zero rate of duty by virtue of their end use, that rate shall be taken into account provided that the goods underwent operations consistent with such an end-use in the country where the processing operation or last such operation took place.

Article 152

1. Where the purpose of the processing operations is the repair of the temporary export goods, they shall be released for free circulation with total relief from import duties where it is established to the satisfaction of the Comptroller that the goods were repaired free of charge, either because of a contractual or statutory obligation arising from a guarantee or because of a manufacturing defect.

2. Paragraph (1) of this Article shall not apply where account was taken of the defect at the time when the goods in question were first released for free circulation.

Article 153

Where the purpose of the processing operation is the repair of temporary export goods and such repair is carried out in return for payment, the partial relief from import duties provided for in Article 145 shall be granted by establishing the amount of the duties applicable on the basis of the taxation elements pertaining to the compensating products on the date of acceptance of the declaration of release for free circulation of those products and taking into account as the customs value an amount equal to the repair costs, provided that those costs represent the only consideration provided by the holder of the authorization and are not influenced by any links between that holder and the operator.

By way of derogation from Article 151, the Comptroller may determine the cases in and specific conditions under which goods may be released for free circulation following an outward-processing operation, with the cost of the processing operation being taken as the basis for assessment for the purpose of applying the Maltese Customs Tariff.

IV Outward processing with use of the standard exchange system*Article 154*

1. Under the conditions laid down in this Part IV which are applicable in addition to the preceding provisions, the standard exchange system shall permit an imported product, hereinafter referred to as a "replacement product", to replace a compensating product.

2. The Comptroller shall allow the standard exchange system to be used where the processing operation involves the repair of Maltese goods.

3. Without prejudice to Article 159, the provisions applicable to compensating products shall also apply to replacement products.

4. The Comptroller shall, under the conditions he lays down, permit replacement products to be imported before the temporary export goods are exported (prior importation of a replacement).

In the event of prior importation of a replacement, security shall be provided to cover the amount of the import duties.

Article 155

1. Replacement products shall have the same tariff classification, be of the same commercial quality and possess the same technical characteristics as the temporary export goods had the latter undergone the repair in question.

2. (i) Where the temporary export goods have been used before export, the replacement products must also have been used and may not be new products.

(ii) However, the Comptroller may grant derogations from this article if the replacement product has been supplied free of charge either because of a contractual or statutory obligation arising from a guarantee or because of a manufacturing defect.

Article 156

Standard exchange shall be authorized only where it is possible to verify that the conditions laid down in Article 155 are fulfilled.

Article 157

1. In the case of the prior importation, the export goods shall be temporarily exported within the period of two months from the date of acceptance by the Comptroller of the declaration relating to the release of the replacement products for free circulation.

2. However, where exceptional circumstances so warrant, the Comptroller may, at the request of the person concerned, extend within reasonable limits the period referred to in paragraph (1) of this Article.

Article 158

In the case of prior importation and where Article 151 is applied, the amount to be deducted shall be determined on the basis of the items of charge applicable to the temporary export goods at the date of acceptance of the declaration placing them under the procedure.

Article 159

Article 147(2) and Article 148(b) shall not apply in the context of standard exchange.

V. Other Provision

Article 160

The procedures provided for within the framework of outward processing shall also be applicable for the purposes of implementing non-tariff common commercial policy measures.

Section 4

Export

Article 161

1. The export procedure shall allow Maltese goods to leave Malta.

Exportation shall entail the application of exit formalities including commercial policy measures and, where appropriate, export duties.

2. With the exception of goods placed under the outward processing procedure or a transit procedure pursuant to Article 163, and without prejudice to Article 164, all Maltese goods intended for export shall be placed under the export procedure.

3. The case in which and the conditions under which goods leaving Malta are not subject to an export declaration shall be determined by the Comptroller.

4. The export declaration must be lodged at the Customs Economic Procedures Unit. Derogations shall be determined by the Comptroller.

Article 162

Release for export shall be granted on condition that the goods in question leave Malta in the same condition as when the export declaration was accepted.

Section 5

Internal transit

Article 163

1. The internal transit procedure shall, under the conditions laid down in paragraphs 2 to 4, allow the movement of Maltese goods from one point to another in Malta passing through the territory of another country without any change in their customs status.

This provision shall be without prejudice to the application of Article 91(1)(b).

2. The movement referred to in paragraph 1 may take place either:

(a) under the internal transit procedure, provided that such a possibility is provided for in an international agreement;

(b) under cover of a TIR carnet (TIR Convention);

(c) under cover of an ATA carnet used as a transit document;

(d) by post (including parcel post).

3. In the case referred to in paragraph 2(a), Articles 92, 94, 95, 96 and 97 shall apply *mutatis mutandis*.

4. In the cases referred to in paragraph 2(b) to (d) goods shall keep their customs status only if that status is established under the conditions and in the form prescribed by the provisions adopted by the Comptroller.

Article 164

The conditions under which Maltese goods may move, without being subject to a customs procedure, from one point to another within the customs territory of Malta and temporarily out of that territory without alteration of their customs status shall be determined by the Comptroller.

Article 165

The internal transit procedure shall also apply where there is express provision for its application.

CHAPTER 3**OTHER TYPES OF CUSTOMS-APPROVED TREATMENT OR USE****Section 1****Free zones and free warehouses****A. General***Article 166**

Free zones and free warehouses shall be parts of Malta or premises situated in that territory and separated from the rest of it in which:

(a) Non-Maltese goods are considered, for the purpose of import duties and commercial policy import measures, as not being in Malta, provided they are not released for free circulation or placed under another customs procedure or used or consumed under conditions other than those provided for in customs regulations;

(b) Maltese goods for which such provision is made under national legislation governing specific fields qualify, by virtue of being placed in a free zone or free warehouse, for measures normally attaching to the export of goods.

*Article 167**

1. The Minister may designate parts of Malta as free zones or authorize the establishment of free warehouses.

2. The Minister shall determine the area covered by each zone. Premises which are to be designated as free warehouses must be approved by the Minister.

3. Free zones with the exception of those designated in accordance with Article 168A, shall be enclosed. The Minister shall define the entry and exit points of each free zone or free warehouse.

4. The construction of any building in a free zone shall require the prior approval of the Comptroller.

*Article 168**

1. The perimeter and the entry and exit points of free zones, except the free zones designated in accordance with Article 168A, and of free warehouses shall be subject to supervision by the customs authorities.

4. The customs authorities may check goods entering, leaving or remaining in a free zone or free warehouse. To enable such checks to be carried out, a copy of the transport document, which shall accompany goods entering or leaving, shall be handed to, or kept at the disposal of, the customs authority by any person designated for this purpose by the Comptroller.

Where such checks are required, the goods shall be made available to the customs authorities.

*Article 168A**

1. The Minister may designate free zones in which customs checks and formalities shall be carried out and the provisions concerning customs debt applied in accordance with the requirements of the customs warehouse procedure. Articles 170, 176 and 180 shall not apply to the free zones thus designated.

2. References to free zones in Articles 37, 38 and 205 shall not apply to free zones referred to in paragraph 1.

B. Placing of goods in free zones or free warehouses

*Article 169**

Both Maltese and non-Maltese goods may be placed in a free zone or free warehouse.

However, the Comptroller may require that goods which present a danger or are likely to spoil other goods or which, for other reasons, require special facilities be placed in premises specially equipped to receive them.

*Article 170**

1. Without prejudice to Article 168(4), goods entering a free zone or free warehouse need not be presented to the customs authorities, nor need a customs declaration be lodged.

2. Goods shall be presented to the customs authorities and undergo the prescribed customs formalities only where:

(a) they have been placed under a customs procedure which is discharged when they enter a free zone or free warehouse; however, where the customs procedure in question permits exemption from the obligation to present goods, such presentation shall not be required;

(b) they have been placed in a free zone or free warehouse on the authority of a decision to grant repayment or remission of import duties;

*Not yet in force.

(c) they qualify for the measures referred to in Article 166 (b).

3. The Comptroller may require goods subject to export duties or to other export provisions to be notified to the customs department.

4. At the request of the party concerned, the Comptroller shall certify the Maltese or non-Maltese status of goods placed in a free zone or free warehouse.

C. Operation of free zones and free warehouses

*Article 171**

1. There shall be no limit to the length of time goods may remain in free zones or free warehouses.

2. For certain goods referred to in Article 166(b) specific time limits may be imposed by the Comptroller.

*Article 172**

1. Any industrial, commercial or service activity shall, under the conditions laid down in Customs legislation, be authorized in a free zone or free warehouse. The carrying on of such activities shall be notified in advance to the Comptroller.

2. The Comptroller may impose certain prohibitions or restrictions on the activities referred to in paragraph 1, having regard to the nature of the goods concerned or the requirements of customs supervision.

3. The Comptroller may prohibit persons who do not provide the necessary guarantees of compliance with the provisions laid down in Customs legislation from carrying on an activity in a free zone or free warehouse.

*Article 173**

Non-Maltese goods placed in a free zone or free warehouse may, while they remain in a free zone or free warehouse:

(a) be released for free circulation under the conditions laid down by that procedure and by Article 178;

(b) undergo the usual forms of handling referred to in Article 109 (1), without authorization;

(c) be placed under the inward processing procedure under the conditions laid down by that procedure.

However, processing operations shall be subject to economic conditions if these conditions in a specific economic sector in Malta are affected.

control under the conditions laid down by that procedure;

(e) be placed under the temporary importation procedure under the conditions laid down by that procedure;

(f) be abandoned to the Government in accordance with Article 182;

(g) be destroyed, provided that the person concerned supplies the Comptroller with all the information the Comptroller judges necessary.

*Article 174**

Where goods are placed under one of the procedures referred to in (c), (d) or (e) of Article 173, the Comptroller may, in so far as is necessary to take account of the operating and customs supervision conditions of the free zones or free warehouses, adapt the control arrangements laid down.

*Article 175**

1. Where Article 173 and 174 are not applied, non-Maltese goods and the Maltese goods referred to in Article 166 (b) shall not be consumed or used in free zones or in free warehouses.

2. Without prejudice to the provisions applicable to supplies or stores, where the procedure concerned so provides, paragraph 1 shall not preclude the use or consumption of goods the release for free circulation or temporary importation of which would not entail application of import duties or commercial policy measures. In that event, no declaration of release for free circulation or temporary importation shall be required.

Such declaration shall, however, be required if such goods are to be charged against a quota.

*Article 176**

1. All persons carrying on an activity involving the storage, working or processing, or sale or purchase, of goods in a free zone or free warehouse shall keep stock records in a form approved by the Comptroller.

Goods shall be entered in the stock records as soon as they are brought into the premises of such person. The stock records must enable the customs authorities to identify the goods, and must record their movements.

2. Where goods are transhipped within a free zone, the documents relating to the operation shall be kept at the disposal of the customs authorities. The short-term storage of goods in connection with such transhipment shall be considered to be an integral part of the operation.

D. Removal of goods from free zones or free warehouses

*Not yet in force.

*Article 177**

Without prejudice to special provisions adopted under customs legislation governing specific fields, goods leaving a free zone or free warehouse may be:

- exported or re-exported from Malta, or
- brought into another part of Malta.

The provisions of Title III, with the exception of Articles 48 to 53 where Maltese goods are concerned, shall apply to goods brought into other parts of that territory except in the case of goods which leave that zone by sea or air without being placed under a transit or other customs procedure.

*Article 178**

Where a customs debt is incurred in respect of non-Maltese goods and the customs value of such goods is based on a price actually paid or payable which includes the cost of warehousing or of preserving goods while they remain in the free zone or free warehouse, such costs shall not be included in the customs value if they are shown separately from the price actually paid or payable for the goods.

*Article 179**

Where the goods referred to in Article 178 have undergone, in free zone or free warehouse, one of the usual forms of handling within the meaning of Article 109 (1), the nature of the goods, the customs value and the quantity to be taken into consideration in determining the amount of import duties shall, at the request of the declarant and provided that such handling was covered by an authorization granted in accordance with paragraph 2 of that Article, be those which would be taken into account in respect of those goods, at the time referred to in Article 214, if they had not undergone such handling. However, derogations from this provision may be adopted by the Comptroller.

*Article 180**

1. Where goods are brought into or returned to Malta or placed under a customs procedure, the certificate referred to in Article 170(4) may be used as proof of the Maltese or non-Maltese status of such goods.

2. Where it is not proved by the certificate or other means that the goods have Maltese or non-Maltese status, the goods shall be considered to be:

- Maltese goods, for the purposes of applying export duties and export licences or export measures laid down under the commercial policy;
- non-Maltese goods in all other cases.

*Not yet in force.

*Article 181**

The customs authorities shall satisfy themselves that the rules governing exportation or re-exportation are respected where goods are exported or re-exported from a free zone or free warehouse.

Section 2

Re-exportation, destruction and abandonment

Article 182

1. Non-Maltese goods may be:

- re-exported;
- destroyed;
- abandoned to the Government where national legislation makes provision to that effect.

2. Re-exportation shall, where appropriate, involve application of the formalities laid down for goods leaving, including commercial policy measures.

Cases in which non-Maltese goods may be placed under a suspensive arrangement with a view to non-application of commercial policy measures on exportation may be determined by the Comptroller.

3. Save in cases determined by the Comptroller, re-exportation or destruction shall be the subject of prior notification of the Comptroller. The Comptroller shall prohibit re-exportation should the formalities or measures referred to in the first subparagraph of paragraph 2 so provide. Where goods placed under an economic customs procedure are intended for re-exportation, a customs declaration within the meaning of Articles 59 to 78 shall be lodged. In such cases, Article 161(3) and (4) shall apply.

Abandonment shall be put into effect in accordance with national provisions.

4. Destruction or abandonment shall not entail any expense for the Government.

5. Any waste or scrap resulting from destruction shall be assigned a customs-approved treatment or use prescribed for non-Maltese goods.

It shall remain under customs supervision until the time laid down in Article 37(2).

*Not yet in force.

TITLE V**GOODS LEAVING MALTA***Article 183*

Goods leaving Malta shall be subject to customs supervision. They may be the subject of checks by the customs authorities in accordance with the provisions in force. They shall leave the said territory using, where appropriate, the route determined by the customs authorities and in accordance with the procedures laid down by those authorities.

TITLE VI**PRIVILEGED OPERATIONS****CHAPTER 1****RELIEFS FROM CUSTOMS DUTY***Article 184*

The Minister shall determine the cases in which, on account of special circumstances, relief from import duties or export duties shall be granted where goods are released for free circulation or exported.

CHAPTER 2**RETURNED GOODS***Article 185*

1. Maltese goods which, having been exported, are returned to and released for free circulation within a period of three years shall, at the request of the person concerned, be granted relief from import duties.

However:

- the three-year period may be exceeded in order to take account of special circumstances;
- where, prior to their exportation, the returned goods had been released for free circulation at reduced or zero import duty because of their use for a particular purpose. Exemption from duty under paragraph 1 shall be granted only if they are to be re-imported for the same purpose.

Where the purpose for which the goods in question are to be imported is no longer the same, the amount of import duties chargeable upon them shall be reduced by any amount levied on the goods when they were first released for free circulation. Should the latter amount exceed that levied on the entry for free circulation of returned goods, no refund shall be granted.

2. The relief from import duties provided for in paragraph 1 shall not be granted in the case of:

(a) goods exported under the outward processing procedure unless those goods remain in the state in which they were exported;

(b) goods which have been the subject of a national measure involving their exportation to other countries. The circumstances in which and the conditions under which this requirement may be waived shall be determined by the Comptroller.

Article 186

The relief from import duties provided for in Article 185 shall be granted only if goods are reimported in the state in which they were exported. The circumstances in which and the conditions under which this requirement may be waived shall be determined by the Comptroller.

Article 187

Articles 185 and 186 shall apply mutatis mutandis to compensating products originally exported or re-exported subsequent to an inward processing procedure.

The amount of import duty legally owed shall be determined on the basis of the rules applicable under the inward processing procedure, the date of re-export being regarded as the date of release for free circulation.

CHAPTER 3

PRODUCTS OF SEA-FISHING AND OTHER PRODUCTS TAKEN FROM THE SEA

Article 188

Without prejudice to Article 23(2)(f), the following shall be exempt from import duties when they are released for free circulation:

(a) products of sea-fishing and other products taken from the territorial sea of another country by vessels registered or recorded in Malta and flying the Maltese flag;

(b) products obtained from products referred to in (a) on board factory-ships fulfilling the conditions laid down in that subparagraph.

TITLE VII**CUSTOMS DEBT****CHAPTER 1****SECURITY TO COVER CUSTOMS DEBT***Article 189*

1. Where, in accordance with customs rules, the Comptroller requires security to be provided in order to ensure payment of a customs debt, such security shall be provided by the person who is liable or who may become liable for that debt.
2. The Comptroller shall require only one security to be provided in respect of one customs debt.
3. The Comptroller may authorize the security to be provided by a person other than the person from whom it is required.
4. Where the person who has incurred or who may incur a customs debt is a government department, no security shall be required.
5. The Comptroller may waive the requirement for provision of security where the amount to be secured does not exceed LM200.

Article 190

1. Where customs legislation provides that the provision of security is optional, such security shall be required at the discretion of the Comptroller in so far as he considers that a customs debt which has been or may be incurred is not certain to be paid within the prescribed period.

Where the security referred to in the preceding subparagraph is not required, the Comptroller may nevertheless require from the person referred to in Article 189(1) an undertaking to comply with the obligations which that person is legally obliged to fulfil.

2. The security referred to in the first subparagraph of paragraph 1 shall be required:
 - at the time of application of the rules requiring such security to be provided, or
 - at any subsequent time when the Comptroller finds that the customs debt which has been or may be incurred is not certain to be paid within the prescribed period.

Article 191

At the request of the person referred to in Article 189(1) or (3), the Comptroller shall allow comprehensive security to be provided to cover two or more operations in

respect of which a customs debt has been or may be incurred.

Article 192

1. Where customs legislation makes it compulsory for security to be provided, and subject to the specific provisions laid down for transit, the Comptroller shall fix the amount of such security at a level equal to:

- the precise amount of the customs debt or debts in question where that amount can be established with certainty at the time when the security is required,
- in other cases the maximum amount, as estimated by the Comptroller, of the customs debt or debts which have been or may be incurred.

Where comprehensive security is provided for customs debts which vary in amount over time, the amount of such security shall be set at a level enabling the customs debts in question to be covered at all times.

2. Where customs legislation provides that the provision of security is optional and the Comptroller requires security to be provided, the amount of the security shall be fixed by the Comptroller so as not to exceed the level provided for in paragraph 1.

Article 193

Security may be provided by either:

- a cash deposit, or
- a guarantor.

Article 194

1. The following shall be deemed equivalent to a cash deposit:

- submission of a cheque the payment of which is guaranteed by the institution on which it is drawn in any manner acceptable to the Comptroller,
- submission of any other instrument recognized by the Comptroller as a means of payment.

2. Security in the form of a cash deposit or payment deemed equivalent to a cash deposit shall be given in accordance with the provisions in force in Malta.

Article 195

The guarantor shall undertake in writing to pay jointly and severally with the debtor the secured amount of a customs debt which falls to be paid.

The guarantor must be a third person established in Malta and approved by the Comptroller.

The Comptroller may refuse to approve the guarantor or type of security proposed where the latter do not appear certain to ensure payment of the customs debt within the prescribed period.

Article 196

The person required to provide security shall be free to choose between the types of security laid down in Article 193.

However, the Comptroller may refuse to accept the type of security proposed where it is incompatible with the proper functioning of the customs procedure concerned. The same shall apply as regards the security proposed. The Comptroller may require that the type of security chosen be maintained for a specific period.

Article 197

The Comptroller may accept types of security other than those referred to in Article 193 where they provide equivalent assurance that the customs debt will be paid.

The Comptroller shall refuse the security proposed by the debtor where he does not consider that such security is certain to ensure payment of the customs debt.

Article 198

Where the Comptroller establishes that the security provided does not ensure, or is no longer certain or sufficient to ensure, payment of the customs debt within the prescribed period, he shall require the person referred to in Article 189(1), at his option, to provide additional security or to replace the original security with a new security.

Article 199

1. The security shall not be released until such time as the customs debt in respect of which it was given is extinguished or can no longer arise.

Once the customs debt is extinguished or can no longer arise, the security shall be released forthwith.

2. Once the customs debt has been extinguished in part or may arise only in respect of part of the amount which has been secured, part of the security shall be released accordingly at the request of the person concerned, unless the amount involved does not justify such action.

Article 200

Provisions derogating from those contained in this chapter shall, where necessary, be adopted by the customs authorities in order to take account of international conventions.

CHAPTER 2**INCURRENCE OF A CUSTOMS DEBT***Article 201*

1. A customs debt on importation shall be incurred through:
 - (a) the release for free circulation of goods liable to import duties, or
 - (b) the placing of such goods under the temporary importation procedure with partial relief from import duties.
2. A customs debt shall be incurred at the time of acceptance of the customs declaration in question.
3. The debtor shall be the declarant. In the event of indirect representation, the person on whose behalf the customs declaration is made shall also be a debtor.

Where a customs declaration in respect of one of the procedures referred to in paragraph 1 is drawn up on the basis of information which leads to all or part of the duties legally owed not being collected, the persons who provided the information required to draw up the declaration and who knew, or who ought reasonably to have known that such information was false, may also be considered debtors in accordance with the Maltese provisions in force.

Article 202

1. A customs debt on importation shall be incurred through:
 - (a) the unlawful introduction into Malta of goods liable to import duties, or
 - (b) the unlawful introduction of such goods located in a free zone or free warehouse.

For the purpose of this Article, unlawful introduction means any introduction in violation of the provisions of Articles 38 to 41 and the second indent of Article 177.

2. The customs debt shall be due when the goods are unlawfully introduced.
3. The debtors shall be:
 - the person who introduced such goods unlawfully,
 - any persons who participated in the unlawful introduction of the goods and who were aware or should reasonably have been aware that such introduction was unlawful, and
 - any persons who acquired or held the goods in question and who were aware or should reasonably have been aware at the time of acquiring or receiving the goods that they had been introduced unlawfully.

Article 203

1. A customs debt on importation shall also be incurred through:
 - the unlawful removal from customs supervision of goods liable to import duties.
2. The customs debt shall be due at the moment when the goods are removed from customs supervision.
3. The debtors shall be:
 - the person who removed the goods from customs supervision,
 - any persons who participated in such removal and who were aware or should reasonably have been aware that the goods were being removed from customs supervision,
 - any persons who acquired or held the goods in question and who were aware or should reasonably have been aware at the time of acquiring or receiving the goods that they had been removed from customs supervision, and
 - where appropriate, the person required to fulfil the obligations arising from temporary storage of the goods or from the use of the customs procedure under which those goods are placed.

Article 204

1. A customs debt on importation shall also be incurred through:
 - (a) non-fulfilment of one of the obligations arising, in respect of goods liable to import duties, from their temporary storage or from the use of the customs procedure under which they are placed, or
 - (b) non-compliance with a condition governing the placing of the goods under that procedure or the granting of a reduced or zero rate of import duty by virtue of the end-use of the goods, in cases other than those referred to in Article 203 unless it is established that those failures have no significant effect on the correct operation of the temporary storage or customs procedure in question.
2. The customs debt shall be due either at the moment when the obligation whose non-fulfilment gives rise to the customs debt ceased to be met or at the moment when the goods are placed under the customs procedure concerned where it is established subsequently that a condition governing the placing of the goods under the said procedure or the granting of a reduced or zero rate of import duty by virtue of the end-use of the goods was not in fact fulfilled.
3. The debtor shall also be the person who is required, according to the circumstances, either to fulfil the obligations arising, in respect of goods liable to import duties, from their temporary storage or from the use of the customs procedure under which they have been placed, or to comply with the conditions governing the

placing of the goods under that procedure.

Article 205

1. A customs debt on importation shall be incurred through:
 - the consumption or use, in a free zone or a free warehouse, of goods liable to import duties, under conditions other than those laid down by the legislation in force.

Where goods disappear and where their disappearance cannot be explained to the satisfaction of the Comptroller, the Comptroller may regard the goods as having been consumed or used in the free zone or the free warehouse.

2. The debt shall be due at the moment when the goods are or are first used under conditions other than those laid down by the legislation in force.

3. The debtor shall be the person who consumed or used the goods and any persons who participated in such consumption or use and who were aware or should reasonably have been aware that the goods were being consumed or used under conditions other than those laid down by the legislation in force.

Where the Comptroller regards goods which have disappeared as having been consumed or used in the free zone or the free warehouse and it is not possible to apply the preceding paragraph, the person liable for payment of the customs debt shall be the last person known to the Comptroller to have been in possession of the goods.

Article 206

1. By way of derogation from Articles 202 and 204(1)(a), no customs debt on importation shall be deemed to be incurred in respect of specific goods where the person concerned proves that the non-fulfilment of the obligations which arise from:

- the provisions of Articles 38 to 41 and the second indent of Article 177, or
- keeping the goods in question in temporary storage, or
- the use of the customs procedure under which the goods have been placed,

results from the total destruction or irretrievable loss of the said goods as a result of the actual nature of the goods or unforeseeable circumstances (excluding theft) or force majeure, or as a consequence of authorization by the Comptroller.

For the purposes of this paragraph, goods shall be irretrievably lost when they are rendered unusable by any person.

2. Nor shall a customs debt on importation be deemed to be incurred in respect of goods released for free circulation at a reduced or zero rate of import duty by virtue of their end-use, where such goods are exported or re-exported with the permission of the Comptroller.

Article 207

Where, in accordance with Article 206(1), no customs debt is deemed to be incurred in respect of goods released for free circulation at a reduced or zero rate of import duty on account of their end-use, any scrap or waste resulting from such destruction shall be deemed to be non-Maltese goods.

Article 208

Where in accordance with Article 203 or 204 a customs debt is incurred in respect of goods released for free circulation at a reduced rate of import duty on account of their end-use, the amount paid when the goods were released for free circulation shall be deducted from the amount of the customs debt.

This provision shall apply *mutatis mutandis* where a customs debt is incurred in respect of scrap and waste resulting from the destruction of such goods.

Article 209

1. A customs debt on exportation shall be incurred through:
 - the exportation from Malta, under cover of a customs declaration, of goods liable to export duties.
2. The customs debt shall be incurred at the time when such customs declaration is accepted.
3. The debtor shall be the declarant. In the event of indirect representation, the person on whose behalf the declaration is made shall also be a debtor.

Article 210

1. A customs debt on exportation shall also be incurred through:
 - the removal from Malta of goods liable to export duties without a customs declaration.
2. The customs debt shall be due at the time when the said goods actually leave Malta.
3. The debtor shall be:
 - the person who removed the goods, and
 - any persons who participated in such removal and who were aware or should reasonably have been aware that a customs declaration had not been but should have been lodged.

Article 211

1. A customs debt on exportation shall also be incurred through:

- failure to comply with the conditions under which the goods were allowed to leave Malta with total or partial relief from export duties.

2. The debt shall be incurred at the time when the goods reach a destination other than that for which they were allowed to leave Malta with total or partial relief from export duties or, should the Comptroller be unable to determine that time, the expiry of the time limit set for the production of evidence that the conditions entitling the goods to such relief have been fulfilled.

3. The debtor shall be the declarant. In the event of indirect representation, the person on whose behalf the declaration is made shall also be a debtor.

Article 212

The customs debt referred to in Articles 201 to 205 and 209 to 211 shall be incurred even if it relates to goods subject to measures of prohibition or restriction on importation or exportation of any kind whatsoever.

However, no customs debt shall be incurred on the unlawful introduction into Malta of counterfeit currency or of narcotic drugs and psychotropic substances which do not enter into the economic circuit strictly supervised by the competent authorities with a view to their use for medical and scientific purposes. For the purposes of criminal law as applicable to customs offences, the customs debt shall nevertheless be deemed to have been incurred and the provisions of Articles 60 to 79 of the [Customs Ordinance](#) (Cap. 37) shall apply for the purpose of taking criminal proceedings.

Article 212A

Where customs legislation provides for favourable tariff treatment of goods by reason of their nature or end-use or for relief or total or partial exemption from import duties pursuant to Articles 21, 82, 145 or 184 to 187, such favourable tariff treatment, relief or exemption shall also apply in cases where a customs debt is incurred pursuant to Articles 202 to 205, 210 or 211, on condition that the behaviour of the person concerned involves neither fraudulent dealing nor obvious negligence and he produces evidence that the other conditions for the application of favourable treatment, relief or exemption have been satisfied.

Article 213

Where several persons are liable for payment of one customs debt, they shall be jointly and severally liable for such debt.

Article 214

1. Save as otherwise expressly provided by this Code and without prejudice to paragraph 2, the amount of the import duty or export duty applicable to goods shall be determined on the basis of the rules of assessment appropriate to those goods at the time when the customs debt in respect of them is due.

2. Where it is not possible to determine precisely when the customs debt is due, the time to be taken into account in determining the rules of assessment

appropriate to the goods concerned shall be the time when the Comptroller concludes that the goods are in a situation in which a customs debt is due.

However, where the information available to the Comptroller enables him to establish that the customs debt was due prior to the time when he reached that conclusion, the amount of the import duty or export duty payable on the goods in question shall be determined on the basis of the rules of assessment appropriate to the goods at the earliest time when existence of the customs debt arising from the situation may be established from the information available.

3. Compensatory interest shall be applied according to law in order to prevent the wrongful acquisition of a financial advantage through deferment of the date on which the customs debt was incurred or entered in the accounts.

Article 215

A customs debt shall be incurred:

- at the place where the events from which it arises occur,
- if it is not possible to determine that place, at the place where the Comptroller concludes that the goods are in a situation in which a customs debt is incurred.
- if the goods have been entered for a customs procedure which has not been discharged, and the place cannot be determined pursuant to the first or second indent within a period of time determined, if appropriate, in accordance with the Comptroller's instructions, at the place where the goods were either placed under the procedure concerned or were introduced into the Maltese customs territory under that procedure.

Article 216

Where the information available to the Comptroller enables him to establish that the customs debt was already incurred when the goods were in another place at an earlier date, the customs debt shall be deemed to have been incurred at the place which may be established as the location of the goods at the earliest time when existence of the customs debt may be established.

CHAPTER 3

RECOVERY OF THE AMOUNT OF THE CUSTOMS DEBT

Section 1

Entry in the accounts and communication of the amount of duty to the debtor

Article 217

1. Each and every amount of import duty or export duty resulting from a customs debt, hereinafter called "amount of duty", shall be calculated by the Comptroller as soon as he has the necessary particulars, and entered by the Comptroller

in the accounting records or on any other equivalent medium (entry in the accounts).

The first subparagraph shall not apply:

- (a) where a provisional anti-dumping or countervailing duty has been introduced;
- (b) where the amount of duty legally due exceeds that determined on the basis of binding information;

The Comptroller may write off amounts of duty which, under Article 221(3), could not be communicated to the debtor after the end of the time allowed.

2. The Minister shall determine the practical procedures for the entry in the accounts of the amounts of duty. Those procedures may differ according to whether or not, in view of the circumstances in which the customs debt was incurred, the Comptroller is satisfied that the said amounts will be paid.

Article 218

1. Where a customs debt is incurred as a result of the acceptance of the declaration of goods for a customs procedure other than temporary importation with partial relief from import duties or any other act having the same legal effect as such acceptance the amount corresponding to such customs debt shall be entered in the accounts as soon as it has been calculated and, at the latest, on the second day following that on which the goods were released.

However, provided that payment has been secured, the total amount of duty relating to all the goods released to one and the same person during a period fixed by the Comptroller, which may not exceed 31 days, may be covered by a single entry in the accounts at the end of the period. Such entry in the accounts shall take place within five days of the expiry of the period in question.

2. Where it is provided that goods may be released subject to meeting certain conditions laid down by national legislation which govern either determination of the amount of the debt or its collection, entry in the accounts shall take place no later than two days following the day on which the amount of the debt or the obligation to pay the duties resulting from that debt is determined or fixed.

3. Where a customs debt is incurred under conditions other than those referred to in paragraph 1, the relevant amount of duty shall be entered in the accounts within two days of the date on which the Comptroller is in a position to:

- (a) calculate the amount of duty in question, and
- (b) determine the debtor.

Article 219

1. The time limits for entry in the accounts laid down in Article 218 may be extended:

(a) for reasons relating to administrative organization, or

(b) where special circumstances prevent the Comptroller from complying with the said time limits.

Such extended time limit shall not exceed 14 days.

2. The time limits laid down in paragraph 1 shall not apply in unforeseeable circumstances or in cases of force majeure.

Article 220

1. Where the amount of duty resulting from a customs debt has not been entered in the accounts in accordance with Articles 218 and 219 or has been entered in the accounts at a level lower than the amount legally due, the amount of duty to be recovered or which remains to be recovered shall be entered in the accounts within two days of the date on which the Comptroller becomes aware of the situation and is in a position to calculate the amount legally owed and to determine the debtor (subsequent entry in the accounts). That time limit may be extended in accordance with Article 219.

2. Except in the cases referred to in the second and third subparagraphs of Article 217(1), subsequent entry in the accounts shall not occur where:

(a) the original decision not to enter duty in the accounts or to enter it in the accounts at a figure less than the amount of duty legally owed was taken on the basis of general provisions invalidated at a later date by a court decision;

(b) the amount of duty legally owed was not entered in the accounts as a result of an error on the part of the customs authorities which could not reasonably have been detected by the person liable for payment, the latter for his part having acted in good faith and complied with all the provisions laid down by the legislation in force as regards the customs declaration.

Where the preferential status of the goods is established on the basis of a system of administrative cooperation involving the authorities of another country, the issue of a certificate by those authorities, should it prove to be incorrect, shall constitute an error which could not reasonably have been detected within the meaning of the first subparagraph.

The issue of an incorrect certificate shall not, however, constitute an error where the certificate is based on an incorrect account of the facts provided by the exporter, except where, in particular, it is evident that the issuing authorities were aware or should have been aware that the goods did not satisfy the conditions laid down for entitlement for the preferential treatment.

The person liable may plead good faith when he can demonstrate that, during the period of the trading operations concerned, he has taken due care to ensure that all the conditions for the preferential treatment have been fulfilled.

The person liable may not, however, plead good faith if he has received official prior information from the customs authorities that there are grounds for doubt

concerning the proper application of the preferential arrangements by the beneficiary country.

Article 221

1. As soon as it has been entered in the accounts, the amount of duty shall be communicated to the debtor in accordance with appropriate procedures.

2. Where the amount of duty payable has been entered, for guidance, in the customs declaration, the Comptroller may specify that it shall not be communicated in accordance with paragraph 1 unless the amount of duty indicated does not correspond to the amount determined by the Comptroller.

Without prejudice to the application of the second subparagraph of Article of Article 218(1), where use is made of the possibility provided for in the preceding subparagraph, release of the goods by the customs authorities shall be equivalent to communication to the debtor of the amount of duty entered in the accounts.

3. Communication to the debtor shall not take place after the expiry of a period of six years from the date on which the customs debt was due. This period shall be suspended from the time an appeal within the meaning of Article 243 is lodged, for the duration of the appeal proceedings.

4. Where the customs debt is the result of an act which, at the time it was committed, was liable to give rise to criminal court proceedings, the amount may, under the conditions set out in the provisions in force, be communicated to the debtor after the expiry of the six-year period referred to in paragraph 3.

Section 2

Time limit and procedures for payment of the amount of duty

Article 222

1. Amounts of duty communicated in accordance with Article 221 shall be paid by debtors within the following periods:

(a) if the person is not entitled to any of the payment facilities laid down in Articles 224 to 229, payment shall be made within the period prescribed.

Without prejudice to the second paragraph of Article 244, that period shall not exceed ten days following communication to the debtor of the amount of duty owed and in the case of aggregation of entries in the accounts under the conditions laid down in the second paragraph of Article 218(1), it shall be so fixed as not to enable the debtor to obtain a longer period for payment than if he had been granted deferred payment.

An extension shall be granted automatically where it is established that the person concerned received the communication too late to enable him to make payment within the period prescribed.

Extension of the period may also be granted by the Comptroller at the request of

the debtor where the amount of duty to be paid results from action for post-clearance recovery. Without prejudice to Article 229(a), such extensions shall not exceed the time necessary for the debtor to take the appropriate steps to discharge his obligation;

(b) if the person is entitled to any of the payment facilities laid down in Articles 224 to 229, payment shall be made no later than the expiry of the period or periods specified in relation to those facilities.

2. The cases and conditions in which the debtor's obligation to pay duty shall be suspended may also be provided for by the Comptroller:

- Where an application for remission of duty is made in accordance with Article 236, 238 or 239, or
- where goods are seized with a view to subsequent confiscation in accordance with the second indent of point (c) or with point (d) of Article 233, or
- where the customs debt was incurred under Article 203 and there is more than one debtor.

Article 223

Payment shall be made in cash or by any other means with similar discharging effect in accordance with the provisions in force. It may also be made by adjustment of credit balance where the provisions in force so allow.

Article 224

Provided the amount of duty payable by the person concerned relates to goods declared for a customs procedure which entails the obligation to pay such duty, the Comptroller may, at that person's request, grant deferment of payment of that amount under the conditions laid down in Articles 225, 226 and 227.

Article 225

The granting of deferment of payment shall be conditional on the provision of security by the applicant.

In addition, the granting of deferment of payment may give rise to the charging of incidental expenses for the opening of files or for services rendered.

Article 226

The Comptroller shall decide which of the following procedures must be used when granting deferment of payment:

- a. separately in respect of each amount of duty entered in the accounts under the conditions laid down in the first subparagraph of Article 218(1) or in Article 220(1);

or

b. globally in respect of all amounts of duty entered in the accounts under the conditions laid down in the first subparagraph of Article 218(1) during a period fixed by the Comptroller not exceeding 31 days; or

c. globally in respect of all amounts of duty forming a single entry in accordance with the second paragraph of Article 218(1).

Article 227

1. The period for which payment is deferred shall be 30 days. It shall be calculated as follows:

(a) where payment is deferred in accordance with Article 226(a), the period shall be calculated from the day following date on which the amount of duty is entered in the accounts by the Comptroller.

Where Article 219 is applied, the period of 30 days calculated in accordance with the first subparagraph shall be reduced by the number of days corresponding to the period in excess of two days used to enter the amount in the accounts;

(b) where payment is deferred in accordance with Article 226(b), the period shall be calculated from the day following the date on which the aggregation period expires. It shall be reduced by the number of days corresponding to half the number of days in the aggregation period;

(c) where payment is deferred in accordance with Article 226(c), the period shall be calculated from the day following the expiry date of the period during which the goods in question were released. It shall be reduced by the number of days corresponding to half the number of days in the period concerned.

2. Where the number of days in the periods referred to in paragraph 1(b) and (c) is an odd number, the number of days to be deducted from the 30-day period pursuant to paragraph 1(b) and (c) shall be equal to half the next lowest even number.

3. To simplify matters, where the periods referred to in paragraph 1 (b) and (c) are a calendar week or a calendar month, the Comptroller may provide that the amount of duty in respect of which payment has been deferred shall be paid:

(a) if the period is a calendar week, on the Friday of the fourth week following that calendar week;

(b) if the period is a calendar month, by the sixteenth day of the month following that calendar month.

Article 228

1. Deferment of payment shall not be granted in respect of amounts of duty which, although relating to goods entered for a customs procedure which entails the obligation to pay such duty, are entered in the accounts in accordance with the

provisions in force concerning acceptance of incomplete declarations, because the declarant has not, by the time of expiry of the period set, provided the information necessary for the definitive valuation of the goods for customs purposes or has not supplied the particulars or the document missing when the incomplete declaration was accepted.

2. However, deferment of payment may be granted in the cases referred to in paragraph 1 where the amount of duty to be recovered is entered in the accounts before the expiry of a period of 30 days from the date on which the amount originally charged was entered in the accounts or, if it was not entered in the accounts, from the date on which the declaration relating to the goods in question was accepted. The duration of the deferment of payment granted in such circumstances shall not extend beyond the date of expiry of the period which, pursuant to Article 227, was granted in respect of the amount of duty originally fixed, or which would have been granted had the amount of duty legally due been entered in the accounts when the goods in question were declared.

Article 229

The Comptroller may grant the debtor payment facilities other than deferred payment.

The granting of such payment facilities shall:

- (a) be conditional on the provision of security. However, such security need not be required where to require it would, because of the situation of the debtor, create serious economic or social difficulties;
- (b) result in credit interest being charged according to law over and above the amount of duty.

The Comptroller may refrain from claiming credit interest where to claim it would, because of the situation of the debtor, create serious economic or social difficulties.

Article 230

Whatever the payment facilities granted to the debtor, the latter may in any case pay all or part of the amount of duty without awaiting expiry of the period he has been granted for payment.

Article 231

An amount of duty owed may be paid by a third person instead of the debtor.

Article 232

1. Where the amount of duty due has not been paid within the prescribed period:

- (a) the Comptroller shall avail himself of all options open to him under the legislation in force, including enforcement, to secure payment of that

amount.

Special provisions may be adopted in respect of guarantors within the framework of the transit procedure;

(b) interest on arrears shall be charged according to law over and above the amount of duty.

2. The Comptroller may waive collection of interest on arrears:

(a) where, because of the situation of the debtor, it would be likely to create serious economic or social difficulties;

(b) where the amount does not exceed a level fixed by the Comptroller, or

(c) if the duty is paid within five days of the expiry of the period prescribed for payment.

3. The Comptroller may fix:

(a) minimum periods for calculation of interest;

(b) minimum amounts payable as interest on arrears.

CHAPTER 4

EXTINCTION OF CUSTOMS DEBT

Article 233

Without prejudice to the provisions in force relating to the time-barring of a customs debt and non-recovery of such a debt in the event of the legally established insolvency of the debtor, a customs debt shall be extinguished:

(a) by payment of the amount of duty;

(b) by remission of the amount of duty;

(c) where, in respect of goods declared for a customs procedure entailing the obligation to pay duties:

- the customs declaration is invalidated in accordance with Article 66,

- the goods, before their release, are either seized and simultaneously or subsequently confiscated, destroyed on the instructions of the Comptroller, destroyed or abandoned in accordance with Article 182, or destroyed or irretrievably lost as a result of their actual nature or of unforeseeable circumstances (excluding theft) or force majeure;

(d) where goods in respect of which a customs debt is incurred in accordance with Article 202 are seized upon their unlawful introduction and are

simultaneously or subsequently confiscated.

Article 234

In the event of seizure and confiscation, the customs debt shall, nonetheless for the purposes of the criminal law applicable to customs offences, be deemed not to have been extinguished and the provisions of the Import Duties Act (Cap. 337) and the Customs Ordinance (Cap. 37) shall apply for determining penalties or for taking criminal proceedings.

CHAPTER 5

REPAYMENT AND REMISSION OF DUTY

Article 235

The following definitions shall apply:

(a) "repayment" means the total or partial refund of import duties or export duties which have been paid;

(b) "remission" means either a decision to waive all or part of the amount of a customs debt or a decision to render void an entry in the accounts of all or part of an amount of import or export duty which has not been paid.

Article 236

1. Import duties or export duties shall be repaid in so far as it is established that when they were paid the amount of such duties was not legally owed or that the amount has been entered in the accounts contrary to Article 220(2).

Import duties or export duties shall be remitted in so far as it is established that when they were entered in the accounts the amount of such duties was not legally owed or that the amount has been entered in the accounts contrary to Article 220(2).

No repayment or remission shall be granted when the facts which led to the payment or entry in the accounts of an amount which was not legally owed are the result of deliberate action by the person concerned.

2. Import duties or export duties shall be repaid or remitted upon submission of an application to the Comptroller within a period of two years from the date on which the amount of those duties was communicated to the debtor.

That period shall be extended if the person concerned provides evidence that he was prevented from submitting his application within the said period as a result of unforeseeable circumstances (excluding theft) or force majeure.

Where the Comptroller himself discovers within this period that one or other of the situations described in the first and second subparagraphs of paragraph 1 exists, he shall repay or remit on his own initiative.

Article 237

Import duties or export duties shall be repaid where a customs declaration is invalidated and the duties have been paid. Repayment shall be granted upon submission of an application by the person concerned within the periods laid down for submission of the application for invalidation of the customs declaration.

Article 238

1. Import duties shall be repaid or remitted in so far as it is established that the amount of such duties entered in the accounts relates to goods placed under the customs procedure in question and rejected by the importer because at the point in time referred to in Article 67 they are defective or do not comply with the terms of the contract on the basis of which they were imported.

Defective goods, within the meaning of the first subparagraph, shall be deemed to include goods damaged before their release.

2. Repayment or remission of import duties shall be granted on condition that:

(a) the goods have not been used, except for such initial use as may have been necessary to establish that they were defective or did not comply with the terms of the contract;

(b) the goods are exported.

At the request of the person concerned, the Comptroller shall permit the goods to be destroyed or to be placed, for the purposes of their re-exportation, under the external transit procedure or the customs warehousing procedure or in a free zone or free warehouse, instead of being exported.

For the purposes of being assigned one of the customs-approved treatments or uses provided for in the preceding subparagraph, the goods shall be deemed to be non-Maltese goods.

3. Import duties shall not be repaid or remitted in respect of goods which, before being declared to customs declaration, were imported temporarily for testing, unless it is established that the fact that the goods were defective or did not comply with the terms of the contract could not normally have been detected in the course of such tests.

4. Import duties shall be repaid or remitted for the reasons set out in paragraph 1 upon submission of an application to the Comptroller within twelve months from the date on which the amount of those duties was communicated to the debtor.

However, the Comptroller may permit this period to be exceeded in duly justified exceptional cases.

Article 239

1. Import duties or export duties may be repaid or remitted in situations other than those referred to in Articles 236, 237, and 238:

- to be determined by the Minister;
- resulting from circumstances in which no deception or obvious negligence may be attributed to the person concerned. The situations in which this provision may be applied and the procedures to be followed to that end shall be defined by the Minister. Repayment or remission may be made subject to special conditions.

2. Duties shall be repaid or remitted for the reasons set out in paragraph 1 upon submission of an application to the Comptroller within 12 months from the date on which the amount of the duties was communicated to the debtor.

However, the Comptroller may permit this period to be exceeded in duly justified exceptional cases.

Article 240

Import or export duties shall be repaid or remitted under the conditions laid down in this chapter only if the amount to be repaid or remitted exceeds an amount fixed by the Minister.

However, the Comptroller may also grant an application for repayment or remission in respect of a lower amount.

Article 241

Repayment by the Comptroller of amounts of import duties or export duties or of credit interest or interest on arrears collected on payment of such duties shall not give rise to the payment of interest by the Comptroller. However, interest shall be paid:

- where a decision to grant a request for repayment is not implemented within three months of the date of adoption of that decision,
- where national provisions so stipulate.

The amount of such interest shall be according to law.

Article 242

Where a customs debt has been remitted or the corresponding amount of duty repaid in error, the original debt shall again become payable. Any interest paid under Article 241 must be reimbursed.

TITLE VIII**APPEALS***Article 243*

1. Any person shall have the right to appeal against decisions taken by the customs authorities which relate to the application of customs legislation, and which concern him directly and individually.

Any person who has applied to the customs authorities for a decision relating to the application of customs legislation and has not obtained a ruling on that request within the period referred to in Article 6(2) shall also be entitled to exercise the right of appeal.

2. The right of appeal may be exercised:

(a) initially, before the customs authorities designated for that purpose;

(b) subsequently, before an independent body, which may be a judicial authority or an equivalent specialized body, according to the provisions in force in Malta.

Article 244

The lodging of an appeal shall not cause implementation of the disputed decision to be suspended.

The customs authorities shall, however, suspend implementation of such decision in whole or in part where they have good reason to believe that the disputed decision is inconsistent with customs legislation or that irreparable damage is to be feared for the person concerned.

Where the disputed decision has the effect of causing import duties or export duties to be charged, suspension of implementation of that decision shall be subject to the existence or lodging of a security. However, such security need not be required where such a requirement would be likely, owing to the debtor's circumstances, to cause serious economic or social difficulties.

Article 245

The provisions for the implementation of the appeals procedure shall be determined by the Minister.

Article 246

This title shall not apply to appeals lodged with a view to the annulment or revision of a decision taken by the customs authorities on the basis of criminal law.
